WELCOME LETTER

Princess Yasmin Aga Khan President, Alzheimer's Disease International

Dear friends,

As President of Alzheimer's Disease International (ADI), I am delighted to have this opportunity to welcome you to the 36th Global Conference of Alzheimer's Disease International.

With the theme "Dementia: Insights. Innovations. Inspirations." there will be opportunities to learn more about the latest scientific developments, treatments, care and support, to engage innovators in our sector and, importantly, to hear from those living with dementia and their carers – the true voice of lived experience of dementia. I thank you all for attending and using the opportunity to come together as a community and to share your knowledge across the globe.

It is an honour to have Her Majesty Queen Sofia of Spain and Her Royal Highness Princess Muna Al Hussein of Jordan in attendance at the conference in Krakow. Their support for ADI and the millions of people affected by dementia around the world means a great deal to us. Their voices help us all as we increase much needed awareness.

It has been a privilege to be ADI's President and see ADI grow and increase its impact across the globe. I am delighted to see ADI celebrating its 40th anniversary this year. These moments allow us to pause and reflect on what has been achieved to support people living with dementia and their carers around the world, on just how far the over 100 Alzheimer and dementia associations have come, whilst also looking forward to the future to ensure dementia remains a global and national health priority and that governments take action, so all who are impacted by dementia receive the support and care they need.

My best wishes for a wonderful and productive conference.

Princess Yasmin Aga Khan
President, Alzheimer's Disease International

WELCOME LETTER

HM, Queen Silvia of Sweden ADI Ambassador

Dear Ladies and Gentlemen,

Thank you for attending the Alzheimer's Disease International's global conference!

An estimated 55 million people worldwide live with dementia, and even more are affected by the disease – including relatives, family, and friends.

My personal commitment to this cause stems from my own experience as a family member; both my mother and brother had Alzheimer's Disease.

Each of you gathered at this conference shares a common objective: to enhance information, research, diagnosis, treatment, care, and support for individuals affected by dementia. This conference serves as a catalyst towards achieving our shared goals, providing a platform to exchange knowledge, guidance, and experiences across various disciplines. But most importantly: the voices of those living with dementia and their caregivers resonate throughout this global gathering, underscoring the importance of lived experiences.

I regret that I was unable to join you in person. Nevertheless, you know you have my unwavering support. I extend my deepest gratitude for your invaluable efforts in improving the lives of individuals affected by dementia.

Finally, I wish you all the best and look forward to following the progress of your vital work. Together, we will triumph over this disease!

Thank you.

HM, Queen Silvia of Sweden

WELCOME LETTER

**Her Royal Highness,
Princess Muna Al Hussein of Jordan**
ADI Ambassador

Dear friends,

As a Global Ambassador of Alzheimer's Disease International, it is with great pleasure that I welcome you to Alzheimer's Disease International's 36th conference held in the historic city of Kraków, Poland, and it is my privilege to convey the warmest of greetings on behalf of Alzheimer's Disease International and the Polish Alzheimer's Association.

As we join together with our goal of improving the lives of those living with dementia globally, through sharing our acquired knowledge, understanding and expertise, your presence here is a testament to the unwavering dedication and compassion that unites us. Through collaboration, innovation, and tireless advocacy, we strive to address the misinformation and discrimination which still sadly exists in society today, while taking tangible steps towards improving tomorrow.

Over the coming three days, we will have the opportunity to explore and the latest development and advances in diagnosis, treatment, care and support by those at the forefront of their respective fields. Perhaps most importantly however, is our opportunity to learn from each other, through chance meetings over coffee or perhaps even in the corridors between sessions; these interactions provide us with unique moments for fruitful discussions, meaningful connections, and a renewed determination to improve the lives of those living with dementia and carers worldwide.

I wish you all a productive and successful conference,

With warm regards,

Her Royal Highness, Princess Muna Al Hussein of Jordan

WELCOME LETTER

Dr Jérôme Salomon,
Assistant Director-General
Universal Health Coverage/Communicable
and Noncommunicable Diseases, World
Health Organisation (WHO)

Dear Ms Barbarino,

I would like to extend my congratulations to you and the entire team at Alzheimer's Disease International (ADI) and its national member associations on ADI's 40th birthday which you will be celebrating at the 36th Alzheimer's Disease International Conference in April in Krakow, Poland.

Over the years, ADI has been an important partner in our quest to implement the global action plan on the public health response to dementia 2017-2025 to improve the lives of the over 55 million people and their families around the world who live with dementia.

The majority of those affected by dementia are in low- and middle-income countries, and the burden is growing rapidly. Many people around the world do not have access to basic diagnosis, treatment, and care for dementia.

We, as a global community, can and must do better.

I commend ADI for the work in the area of dementia and the long-standing support to WHO. I also congratulate ADI for organizing a global conference that brings together leading experts in the field, including researchers, policy makers and healthcare providers.

I am pleased that this conference reflects the voices of people living with dementia and their carers.

We must work together to ensure that people with dementia and their carers live with respect and dignity, while receiving the care and support they need.

I thank you. *Dziękuję*

**Dr Jérôme Salomon, Assistant Director-General, Universal Health
Coverage/Communicable and Noncommunicable Diseases, World
Health Organisation (WHO)**

WELCOME LETTER

Jacek Majchrowski Mayor of Kraków

I was delighted and proud to learn that Kraków would host the first Alzheimer's Disease International conference to be held in Poland.

In an ageing world, the number of people living from various types of dementia is constantly increasing. For this very reason, it is crucial that we deepen medical knowledge of these conditions, as well as develop support systems and protocols for medical staff, volunteers, families and - of course - those living with dementia themselves. I am glad that during the April conference Kraków will have the opportunity to host expert debates and in-depth discussions on these key issues. I believe that the exchange of experience and knowledge will enrich the conference participants, including the local experts whose sustained commitment assisted Kraków over the years in implementing numerous projects and campaigns to support residents in caring for their physical health and mental well-being.

I hope that the rich conference programme will leave you with the opportunity to get to know our city. I assure you that it is worth it! Kraków is often perceived as the most Polish of all Polish cities; at the same time, for centuries, it has been one of the most cosmopolitan urban centres on Polish soil. Our city is the former capital of Poland, a centre of culture, art and science. In Kraków, we proudly preserve our priceless historical heritage - partly inscribed on the UNESCO World Heritage List - at the same time striving for the city to keep transforming into a modern, vibrant metropolis.

Thank you once again for choosing Kraków. Have a fruitful conference and a memorable stay in our city!

Jacek Majchrowski

Mayor of Kraków

WELCOME FROM ALZHEIMER'S DISEASE INTERNATIONAL

Paola Barbarino, CEO, Alzheimer's Disease International

"Welcome to Kraków and welcome to the ADI global conference 2024! Kraków is a wonderful city, full of important history and I hope you will take some time to enjoy and explore it whilst we are getting together to discuss what is new, what is important and what we need to work on in our sector.

A lot is happening in the field of Alzheimer's and Dementia right now and in the post-Covid period we have seen governments in high and low income countries alike using the economic crisis as a way to avoid engaging with our community. But the community keeps growing. There are now 55 million people living with dementia globally, the number is set to rise to 139 million by 2050, and dementia is now the number one mortality cause in 3 high income countries – these are sobering figures.

This is why coming together, learning from each other's experiences, planning and strategising together, as we do every two years, is so critical to giving us fresh ideas and new energy to continue our difficult work. As we always say, we will never find a solution in isolation. We need to be together to understand the global implications of the health crisis unfolding in front of our eyes, find a common way to face the lack of awareness globally and ensure a better life for those of us living with dementia and their family carers. I hope you will find old friends and make new ones this week and don't forget to celebrate with us the start of our 40th anniversary!"

Dale Goldhawk, Chair, Alzheimer's Disease International

"Welcome to Kraków, Poland, for the 36th International Conference of ADI, this year in partnership with our Polish Alzheimer's Association member, Polski Stowarzyszenie Pomocy Osobom z Chorboba Alzheimerera.

Our 2024 theme this year is Dementia: Insights, Innovations, Inspirations.

As ADI has been doing since its beginnings in 1984, the conference is bringing together international experts to share information on best practices in both research and care, celebrate successes and advocate for the 55 million people living with dementia, through ADI's 105 member countries around the world.

As usual, the conference will be offered in hybrid format, combining in-person and virtual elements--an educational and interactive experience designed for all delegates. The conference programme is structured around the 7 action areas of the World Health Organization (WHO)'s Global Action Plan on Dementia, which focusses on policy, awareness, prevention, diagnosis, research, care and treatment. Incidentally, that World Health Organization Global Action plan was the result of ten years of advocacy from ADI.

The ADI conference is proud to be the longest running international conference on Alzheimer's disease and dementia, and one of the world's largest. And this year, we are 40 years old. So be sure to greet fellow delegates, both new friends and old acquaintances with a hearty "Happy Birthday."

As always, the conference is bringing together all branches of the Alzheimer and dementia international family--researchers, care and medical professionals, scientists and most

importantly, people with dementia, and their caregivers. And who can forget the hardworking staff from London and Alzheimer Association volunteers from just about everywhere.

And to mark this as a special year, we will be joined by two of our Honorary Ambassadors: Her Majesty Queen Sofía of Spain and Her

Royal Highness Princess Muna Al Hussein of Jordan.

I promise you will depart from this world gathering empowered and encouraged, armed with a solid belief that in your battles and challenges with dementia, you are, indeed, not alone."

WELCOME FROM POLSKIE STOWARZYSZENIE POMOCY OSOBOM Z CHOROBAŁ ALZHEIMERA (POLISH ALZHEIMER'S ASSOCIATION)

Zbigniew Tomczak, Chairperson, Polskie Stowarzyszenie Pomocy Osobom z Chorobą Alzheimerą

"It was with great honour and satisfaction that I received the news that Alzheimer's Disease International (ADI) had selected Poland as the host country for the 36th global conference on

Alzheimer's disease. This conference is an important opportunity for people living with dementia in Poland, scientists and medical professionals to collectively reassess the development of treatment and care plans for people with dementia. This includes the formulation and implementation of the long-awaited Polish Alzheimer's Disease Plan.

As a co-organiser of this year's conference, the Polish Alzheimer's Association values the exceptional opportunity to bring together scientists, patients, carers, policy makers and young researchers. Together, we aim to raise standards by incorporating the latest global trends in treatment and care practices.

We warmly welcome all participants gathered in Kraków, as well as those participating virtually. This hybrid format fosters dialogue, facilitates a rich exchange of perspectives, and shares the latest insights into model solutions for early diagnosis, treatment, rehabilitation and care.

We are proud of our active role in developing solutions and sincerely hope that the Kraków conference will have a lasting impact on improving the quality of life for people living with dementia and their carers."

ABOUT ALZHEIMER'S DISEASE INTERNATIONAL (ADI)

Alzheimer's Disease International (ADI) is the international federation of Alzheimer associations around the world, in official relations with the World Health Organisation (WHO). ADI currently has 105 members, each member being the Alzheimer association in their country who support people living with dementia and their families. ADI believes that the key to winning the fight against dementia lies in a unique combination of global solutions and local knowledge. As such, it works locally, by empowering Alzheimer associations to promote and offer care and support for people living with dementia and their carers, whilst working globally to focus attention on dementia. There are over 55 million people estimated to be living with dementia around the world and this number is set to reach 139 million by 2050. ADI's vision is prevention, care and inclusion today, and cure tomorrow.

ABOUT POLSKIE STOWARZYSZENIE POMOCY OSOBOM Z CHOROBAŁ ALZHEIMERA

Polskie Stowarzyszenie Pomocy Osobom z Chorobą Alzheimera was founded in 1992 and has been a member of ADI since 1995.

The association's mission is to organise comprehensive support for people living with dementia and their carers. They do this through a variety of services, including patient and carer support groups, counselling and psychological support, and dementia care training.

The association is also focused on raising awareness through educational seminars and events as well as distributing materials and working to influence government and advocating for policy change

EXHIBITION FLOORPLAN

PLENARY SPEAKERS

Dr Rufus Akinyemi (Nigeria)

Rufus Akinyemi is a Professor of Geriatric Neurology and Translational Neuroscience at the Institute for Advanced Medical Research and Training and Deputy Director of the Centre for Genomic and Precision Medicine, College of Medicine, University of Ibadan, Nigeria. He is also a consultant neurologist to the University College Hospital, Ibadan, Nigeria. He holds a PhD from Newcastle University, United Kingdom; an MSc in Cell Biology and Genetics and a Bachelor of Medicine and Surgery from the University of Ibadan, Nigeria. He also holds a fellowship of the National Postgraduate Medical College of Nigeria in Internal Medicine and Neurology. Dr Akinyemi serves as the African PI of the NIA-funded READD – ADSP Project and recently spearheaded the establishment of the African Dementia Consortium (AfDC). He also served as an executive member of the Vascular Cognitive Disorders PIA of the Alzheimer's Association ISTAART. His work on stroke and dementia has attracted notable recognition including the James Kimani Award of the Society of Neuroscientists of Africa, the Bruce Schoenberg International Award in Neuroepidemiology of the American Academy of Neurology and the Atlantic fellowship of the Global Brain Health Institute. He has over 200 peer-reviewed publications in reputable international journals including the Lancet, Science, New England Journal of Medicine and Nature.

Dr Alireza Atri (USA)

Dr. Atri is the Senior Scientist in the Alzheimer's Prevention Initiative at Banner Sun Health Research Institute. Dr. Atri is an internationally renowned cognitive neurologist, clinician-researcher and educator in the fields of Alzheimer's disease (AD) and Related Dementias (ADRD). His research utilizes mathematical/statistical methods, biomarkers, and clinical trial/effectiveness methodologies to focus on early detection, risk reduction, and treatment and care of AD/ADRD. He boasts a BS Mathematics, MS Biomathematics and PhD Biomathematics, UCLA; concurrent with MD, UCSF, amongst many other qualifications.

Dr. Atri advises and has led several large international investigational medicines/clinical trials programs for Alzheimer's Disease. He serves as co-chair of the Alzheimer's Association U.S. national best clinical practices (AADx-CPG) workgroup on evaluation of cognitive behavioural syndromes, Alzheimer's disease and ADRD. Dr Atri is also the chair of the Alzheimer's Disease International (ADI) Medical Scientific Advisory Panel.

Ms Paola Barbarino (United Kingdom)

Paola is CEO of Alzheimer's Disease International (ADI). Prior to this, she was CEO of LIFE and occupied senior positions with Cass Business School, Tate, British Library and IIED. She is a Board Member of the World Dementia Council, a Trustee of The Postal Museum and of Lauderdale House. Previously she was a Non-Executive Director of the Non-Communicable Disease Alliance (NCDA), a Trustee of Shelter, the housing/homelessness charity, and of MLA London. She holds a degree cum laude in Classics from Federico II Napoli University, an MA in Field and Analytical Techniques in Archaeology and an MA in Library and Information Science both from University College London.

PLENARY SPEAKERS

Ms Diana Cose (USA)

Founding Executive Director, Lorenzo's House, USA. Former primary care partner to her husband, mom of two sons, entrepreneur, visionary, strategist, innovator and proven fundraiser. After her husband was diagnosed with younger-onset Alzheimer's, Diana recognized a massive connection and resource gap for younger families affected by dementia.

She set out to solve this societal problem and founded Lorenzo's House in 2021, a virtual non-profit social impact organization designed to empower younger families walking with dementia. With a focus on young carers, Lorenzo's House aims to shift the narrative and cure isolation, build community and drive forward dementia justice. She leveraged her past career as educator, school leader, and for 24 years, Founder & President of a network of public schools in Chicago. Diana led the scaling of an idea from a single classroom of 2 teachers with 35 students - to over 250 staff, 2,300 students across 5 campuses. Diana brings passion, experience, sincerity and insight to her new venture.

Dr Francisco Cubillos (Chile)

Dr Cubillos is a Clinical Psychologist from the Pontificia Universidad Católica de Valparaíso (Chile). He has a Masters in Adult Clinical Psychology, with a mention in Psychoanalysis from the Universidad de Chile. He is a Professional Advisor of the Department of Mental Health in the Under Secretary of Public Health of the Ministry of Health in Chile.

Prof Rose-Marie Dröes (Netherlands)

Rose-Marie Dröes (PhD) is emeritus professor of psychosocial care for people with dementia at the department of Psychiatry of Amsterdam University Medical Centers, location Vrije Universiteit. In addition, she is chair of the management team of the Academic Working place Post-diagnostic care and support in dementia, and Chair of

the international MEETINGDEM Network. Since the early 1980s her research focuses on the development, evaluation and implementation of psychosocial interventions that aim to help people with dementia and carers adjust to living with dementia and improve their quality of life. She was project leader of many (inter) national research projects, published more than 375 scientific and professional articles, bookchapters and books and has been leader of the INTERDEM taskforce Social health in Dementia (2014-2019). Since 2014 she has been research coordinator of two EU Marie Skłodowska Curie programme-funded Innovative Training Networks (INDUCT, DISTINCT) in which 30 early-stage researchers conducted research on technology that aims to promote the social health and quality of life of people with dementia and carers.

Dr Tarun Dua (Switzerland)

Dr. Tarun Dua is a medical officer working on the Program for Neurological Diseases and Neuroscience, Management of Mental and Brain Disorders in the Department of Mental Health and Substance Abuse at the World Health Organization (WHO). In this role Dr. Dua serves as the liaison between the WHO and the International League Against Epilepsy, provides expert advice on the formulation and implementation of the Global Campaign Against Epilepsy (GCAE) worldwide, and assists in the development and updating of a plan of action for the GCAE. She is currently the technical focal point responsible for all activities concerning neurology within the organization.

PLENARY SPEAKERS

Mr Patrick Italo Johan Ettenes (United Kingdom)

Lived Experience Advisor & Co-Founder, Bring Dementia Out and Consultant, LGBT Foundation, UK

As someone living with HIV and early onset dementia, Patrick works to raise understanding and awareness around these conditions. Among his notable endeavours he:

- Has a long running association with Alzheimer's Society and LGBT Foundation.
- Helped to launch Bring Dementia Out to improve services for LGBT+ people affected by dementia.
- Was awarded Positive Role Model of the Year in 2019 at The National Diversity Awards and was one of 10 everyday LGBTQ heroes honoured at the Attitude Pride Awards 2021.
- Is a much sought after speaker and writer throughout the UK, Europe, Canada, USA and Barbados - where he is originally from.

Ms Franca Gatto (Canada)

Franca Gatto is the Director of the Aging, Seniors and Dementia Division in the Centre for Health Promotion at the Public Health Agency of Canada, a position she has held since September 2017. Franca works with a wide-range of stakeholder organizations and provincial and territorial governments across Canada, and is the federal government focal point for dementia and health issues affecting Canada's older adult population. Through federal investments, partnerships and policy leadership, the Division of Aging, Seniors and Dementia seeks to promote healthy aging in the areas of dementia, injury prevention, and mental health.

Franca and her team is responsible for the development of Canada's first national dementia strategy, A Dementia Strategy for Canada: Together We Aspire, launched in 2019. She is spearheading the implementation and reporting of the national dementia strategy and is administering federal investments which support healthy aging and dementia.

Prior to joining the Public Health Agency of Canada, Franca gained over 25 years of experience in providing strategic policy and communications advice to decision-makers in the federal Health Portfolio, primarily at Health Canada.

Franca holds a Master of Business Administration from the University of Ottawa and a Bachelor of Public Relations from Mount Saint Vincent University in Halifax, Nova Scotia. Franca also completed a Masters Certificate in Public Sector Leadership from Carleton University/ Sprott School of Business.

Dr Clarissa Giebel (Germany)

Dr Clarissa Giebel is Senior Research Fellow at the University of Liverpool and the NIHR Applied Research Collaboration North West Coast, and NIHR School for Social Care Leadership Fellow. She is leading the Liverpool Dementia Research Group focusing on inequalities in dementia, and she is leading a portfolio of national and international research addressing inequalities in dementia care. Clarissa is passionate about public involvement and runs the public-facing Liverpool Dementia & Ageing Research Forum, which recently co-produced a board game - the Dementia Inequalities Game.

Prof Miia Kivipelto (Finland)

Miia Kivipelto, MD, PhD, is Professor of Clinical Geriatrics at Karolinska Institutet (KI), Center for Alzheimer Research, and senior geriatrician and Director for Research & Development of Theme Aging at Karolinska University Hospital, Stockholm, Sweden. Part of her Nordic-UK Brain Network (NBN)

multidisciplinary research team (around 100 researchers and clinical staff) is located at University of Eastern Finland and Imperial College London (ICL), UK, where she has part time position as Professor. Her frontline research findings have been published in leading journals 400+ publications, H-index 86) and she has received numerous prestigious national and international awards.

PLENARY SPEAKERS

Dr. Kivipelto's translational research focuses on the prevention, early diagnosis and treatment of cognitive impairment, dementia and Alzheimer's disease (AD). Through epidemiological studies, Prof. Kivipelto has identified various lifestyle and vascular risk factors for dementia and interactions with genetic factors and clarified underlying mechanisms. She has developed the first tool for predicting dementia risk based on midlife risk profiles. This is still one of the few validated risk scores in the field and is in clinical use (including clinical trials). These findings paved the way to the current prevention trials.

Professor Kivipelto is the PI of the landmark FINGER Randomized Controlled Trial (RCT) (Finnish Geriatric Intervention Study to Prevent Cognitive Impairment and Disability), which is the first large-scale trial showing that a multi-domain lifestyle-based intervention can reduce the risk of cognitive and functional impairment among at risk persons from general population. FINGER has caused a paradigm shift, i.e. cognitive decline is no longer an inevitable consequence of aging, but can be prevented with multidomain interventions. This pragmatic model is now tested and adapted worldwide, and Professor Kivipelto has launched the World Wide FINGERS network, a unique interdisciplinary network to share experiences, harmonise data, and plan joint international initiatives for the prevention of cognitive impairment/dementia (45 countries currently involved).

She is also founder of the FINGERS Brain Health Institute (www.fbhi.se) aiming to find novel solutions to promote brain health and prevent cognitive impairment and dementia. Professor Kivipelto has also contributed to understanding of biological mechanisms underlying dementia/AD and she is actively involved in phase I-III clinical trials and is leading several international consortia. She is often invited to the leading global dementia conferences and task forces, including the G8 Dementia Summit, WHO ministerial meeting in Global actions against dementia and dementia risk reduction guidelines, Neurology and Covid-19 Global Forum, among others. She has received numerous of prestigious awards, including Forska!Sverige Research Award (2022), Melvin R. Goodes Prize, USA (2021) for excellence in drug discovery (for FINGER concept), the Ryman Prize, New Zealand (2020), Arthur C. Cherkin Award, USA (2019), Swedish Doctoral Union Alzheimer prize (2018), Neuroscientist of the Year (Finland, 2018), MetLife Foundation Major Award for Medical Research (2016), Swedish Alzheimer Research Foundation Major Award (2016), Waijlit and Eric Forsgren's award for dementia researcher (2015), Best PI at KI award (2014) and AXA Research Award (2014), Karolinska Institutet Skandia's Lennart Levi prize (2013), Junior Chamber International Award for Ten Outstanding Young Persons of the World (2011), Academy of Finland Award for Social Impact (2009).

Prof Lee-Fay Low (Australia)

Lee-Fay Low (BSc Psych (Hons), PhD) is Professor in Ageing and Health, University of Sydney. She is a registered psychologist with a PhD in psychiatric epidemiology.

Prof Low conducts research that she hopes will make a difference in the world.

Her knowledge expertise is in rehabilitation and post-diagnostic support for people with dementia, timely diagnosis of dementia, stigma and dementia literacy, community and aged care and people from culturally and linguistically diverse backgrounds. She has methodological skills in the design of complex interventions, implementation methods, population studies, systematic reviews and clustered randomised trials.

She has authored over 150 peer-reviewed articles, and three books on dementia. She is an active advocate in improving how older people are treated and cared for. Lee-Fay thinks that research is great fun, and even admits to liking statistics.

Mr Chris Lynch (United Kingdom)

Chris Lynch is Deputy CEO at Alzheimer's Disease International and Director of Policy, Communications & Publications.

Chris has over 25 years experience in communications, marketing, business development, policy, publications and events, working in the private, public and not for profit sectors.

On the director team at Alzheimer Scotland, Chris had responsibility for Communications, External Affairs, Marketing, Membership, Events, International liaison and Digital strategy, plus key fundraising activity.

With a passion for digital communication and transformation, he became a Scottish Government Digital Champion in 2016.

Chris has run his own marketing and business development consultancy, Future Marketing, as well as a successful hospitality business. His pro-bono work includes start up and third sector business advice.

PLENARY SPEAKERS

Ms Kudzai Mpunzwana

Kudzai Mpunzwana has been on the Committee of the Zimbabwe Alzheimer's and Related Disorders Association (ZARDA) for the last eight years. She leads the Marketing and PR Sub-Committee. ZARDA is a registered voluntary not-for-profit organisation with a mission to provide information, support and training to people living with dementia, their caregivers and their communities. Kudzai is a passionate advocate for the rights and wellbeing of people living with or affected by Alzheimer's and Dementia.

Kudzai holds a Masters in Divinity from the Boston University School of Theology, as well as Diplomas in Business Studies, Marketing, Communication and Public Relations.

She spent several decades working in corporate communications, mainly in the financial services sector. Most recently, she was Group Corporate Communication Executive with the Nyaradzo Group in Harare, Zimbabwe, before taking time off to become the primary caregiver for her father who had Alzheimer's disease.

Dr Déborah Oliveira (Chile)

Déborah Oliveira (RN PhD) is an academic at the Faculty of Nursing, Universidad Andrés Bello (Chile) and global consultant on long-term care and dementia. She is part of the Lancet Commission on Long-Term Care for Older People and a member of the Executive Board of the Global Observatory of Long-Term Care. She is also a lifetime member of the International Psychogeriatric Association (IPA). She has worked as researcher in many countries including Brazil, the United Kingdom, and Chile, and as consultant for several international organizations such as the Inter-American Development Bank, the World Health Organization, and the Pan-American Health Organization, in areas related to long-term care for older people and dementia care. She participated in the drafting of WHO's "Framework for countries to achieve an integrated continuum of long-term care" (2021); as well as the "Global status report on the public health response to dementia" (2021); and

contributed as an expert adviser to WHO's "Be healthy, be mobile: a handbook on how to implement mDementia" (2021). She is interested in researching the psychosocial experiences of people living with dementia and of their carers, particularly stigma and discrimination, and long-term care and care policy for older people.

Emily Ong (Singapore)

Emily Ong is a trainer, speaker, workshop facilitator, and program developer in dementia-related topics based on lived experience, academic reading and grass root involvement.

She has been a co-facilitator of Dementia Singapore Voices for Hope program since 2019. Emily was recently elected to the Alzheimer's Disease International (ADI) Board of Directors for the position of person with dementia. As a member of Dementia Alliance International (DAI), Emily is the project lead and co-chair of the DAI Environmental Design Special Interest Group (ED-SiG) which was launched in June 2021. In addition to these roles, she also serves in the Global Review Panel of the ADI Accreditation Team and a focus group member of the World Health Organization (WHO) Global Dementia Observatory Knowledge Exchange.

Dr Joanne Pike (USA)

Joanne Pike, DrPH, is president and CEO of the Alzheimer's Association®, the global leader in Alzheimer's and dementia care, support and research. With her progressive experience in social support and public health, she is leading the organization during a transformational period as novel treatments are emerging.

Since joining the Alzheimer's Association in 2016, Dr. Pike has held several roles, highlighting her increasing leadership within the organization and the cause. During her 25 years in public health, she successfully leveraged public and system policy to advance public health outcomes with a particular emphasis on outreach to underrepresented and underserved communities.

PLENARY SPEAKERS

Dr. Pike is also president and CEO of the Alzheimer's Impact Movement (AIM), a separately incorporated advocacy affiliate working to advance and develop policies to overcome the disease.

Mr Mark Roithmayr (USA)

CEO of the Alzheimer's Drug Discovery Foundation (ADDF).

Mark Roithmayr is an admired nonprofit leader with four decades of experience in both start-ups and mature organizations. At the ADDF, Mr. Roithmayr is responsible for steering the Foundation's overall strategy, focus, and business operations. Since joining the ADDF in 2017, the organization has transformed dramatically in impact, scale, presence, and brand. Under his leadership, the ADDF's revenue has increased five-fold from \$17M to an excess of \$90M and mission related investing has grown over 100%.

As such, Mr. Roithmayr sets the strategic vision of the ADDF and works in partnership with the Co-Founder and CSO, Howard Fillit, MD, Executive Leadership, and the Board of Governors and Overseers to advance and execute the Foundation's mission of accelerating the discovery of drugs to prevent, treat, and cure Alzheimer's disease and related dementias. His areas of expertise and focus include venture philanthropy, strategic planning, volunteer development, and brand-building. One of Mr. Roithmayr's milestone accomplishments was securing Bill Gates, as well as Jeff Bezos and MacKenzie Scott, as donors to further the Foundation's venture philanthropy efforts. Additionally, he secured a 10-figure gift from the families of Leonard and Ronald Lauder, ensuring all overhead costs will be covered at the ADDF for the next two decades.

Prior to joining the ADDF, Mr. Roithmayr was Chief Relationship Officer at the Leukemia and Lymphoma Society. There, he helped launch its venture philanthropy initiative, directed its 56 national chapters, and led annual fundraising of over \$200 million. Prior his time at the Leukemia and Lymphoma Society, he served for seven years as president of Autism Speaks. As that organization's first president, he shepherded its growth from a start-up into the world's largest autism research and advocacy organization. Earlier in his career, Mr. Roithmayr held several executive positions, spanning two decades, with the March of Dimes. He earned a bachelor's degree in communications at Rowan University.

Dr Pascual Sánchez (Spain)

He received clinical neurology training at the Hospital Universitario Marqués de Valdecilla (HUMV) and completed his specialization in behavioral neurology at the UCSF Memory and Aging Center in San Francisco, USA. He holds a Ph.D. in Genetic Epidemiology from Erasmus University in Rotterdam, The Netherlands. He is certified by ANECA as a full university professor and has supervised five Ph.D. theses in the past five years.

He founded the Memory Unit at HUMV in 2009 and established the Valdecilla Biobank in 2006, both of which he directed until August 2021, when he joined Fundación CIEN as Scientific Director. Pascual Sánchez-Juan is a co-founder of the DEmentia GENetic Spanish Consortium (DEGESCO), which was established in 2012. In 2018, he initiated the Valdecilla Study for Memory and Brain Aging. He is currently the principal investigator (PI) and coordinator of the Precision Medicine Program-DEGESCO, the largest clinical study on dementia ever funded by the Instituto de Salud Carlos III.

He has over 180 scientific publications, and his H-index is currently 50.

PLENARY SPEAKERS

Dr Chi Udeh-Momoh (Nigeria)

Chi Udeh-Momoh, PhD, MSc, FHEA is a Translational Neuroscientist with expertise in dementia epidemiology, based across Aga Khan University Kenya and Wake Forest University, USA; and affiliated as a Senior Lecturer with Sheffield University UK and Karolinska Institute, Sweden. In her dual roles as Director of the Imarisha Centre for Brain Health and Aging and Lead of the Genomics and Biomarker Core at the Brain and Mind Institute Kenya, she is developing capacity for dementia and brain aging research, education, and care while collaborating with Mental Health and Neuroscience subject experts, clinicians, and educators across the Aga Khan University, to ultimately build the neuroscience capacity and strength across Global South regional partner institutions, including Pakistan. At Wake Forest University, she leads the Udeh-Momoh Lab for Global Brain Health Equity (U-M = BRAIN) focusing on translational research to advance equitable and culturally-informed strategies for promoting successful aging. She is also an Atlantic Fellow for Equity in Brain Health. In 2018, she initiated the AFRICA-FINGERS project (as Chief Investigator) that aims to promote healthy ageing and mitigate brain health and biomarker-access inequalities through culturally appropriate, sustainable multimodal intervention strategies in African populations. She is co-Lead of the World-Wide FINGERS Biomarker Consortium, the Global CEOi/Davos Alzheimer's Collaborative workstream on Implementation of Blood-based-biomarkers in Clinical Practice and sits on the Executive committee for the Biofluids-biomarker-based PIA of the Alzheimer's Association ISTAART (2018 - present). She is also co-founder of the Female Brain and Endocrine Research (FEMBER) consortium. Having completed a competitive CASE PhD studentship in Neuroscience and Neuroendocrinology at the MRC. Centre for Synaptic Plasticity at the University of Bristol (2010-2014), her research elucidates dementia prevention bio-mechanistic pathways and strategies across diverse populations, adopting a translational approach integrating human clinical studies with experimental animal models. In addition, she leads multinational initiatives to address gender and racial disparities in medical research and academia and sits on the Board of Trustees of the British Society for Neuroendocrinology as the Equity, Diversity and Inclusion Lead.

Dr Sebastian Walsh (UK)

Dr Sebastian Walsh (MBCChB, MPhil) is an NIHR Doctoral Fellow in Public Health Medicine at the University of Cambridge, and a public health doctor. His research utilises mixed methods, including quantitative analysis, qualitative interviewing, policy analysis, and complex evidence synthesis, to study population-level approaches to dementia risk reduction. Broader research interests include other public health aspects of dementia, including inequalities in diagnosis, treatments and care; brain health equity; healthy ageing; and conducting public health research in English local government settings.

Dr Huali Wang (China)

Dr. Wang obtained a Bachelor of Medicine from Peking University (formerly, Beijing Medical University) in 1994, and MD/PhD from Peking University in 2001. She was trained on International Mental Health Research at Harvard Medical School, neuropsychology and neuroimaging of dementia at University of California, Irvine.

Dr. Wang is one of the national pioneers to manage memory clinics and build service capacity for dementia care. She set up the first dementia caregiver support group in China in 2000, developed and tested a community-based family caregiver support program in Beijing. Now she directs a training program for community doctors and service providers, and a train-the-trainer program for dementia caregivers support in China. The care model has been partly adopted by WHO West Pacific Regional Office to develop the toolkit for community-based dementia care in low- and middle-income countries.

PLENARY SPEAKERS

Ms Claire Webster (Canada)

Claire Webster is a Certified Dementia Care Consultant (PAC), Certified Professional Consultant on Aging (CPCA), and conference speaker and educator in the field of caring for an individual with dementia. She is Founder and President of Caregiver Crosswalk Inc., a consulting firm that provides education and support services to help individuals navigate the journey of Alzheimer's disease and dementia related illnesses. As a former care partner to her late mother who had Alzheimer's disease, Claire has lived experience on the impact this illness has on a person living with dementia and the ripple effect on family members.

Claire works in collaboration with McGill University's Faculty of Medicine and Health Sciences and the Division of Geriatric Medicine. She is the Founder and Ambassador of the McGill Dementia Education Program and McGill Cares, a webcast series designed to support family care partners.

Claire is one of the McGill senior co-editors of Alzheimer's Disease International's World Alzheimer Reports for both 2021, Journey through the diagnosis of dementia and 2022, Post-diagnostic management and support: a prescription of care. She is also a member of the Government of Canada's Ministerial Advisory Board on Dementia.

Mr Bill Yeates (Australia)

After graduating from Pharmacy, Bill entered the field of education where he was a school administrator and has taught senior Physics and Chemistry for over 35 years.

In August 2019, at the age of 59, he was diagnosed with Younger Onset Alzheimer's Disease. Bill has a keen interest in learning how to best manage his diagnosis on a daily basis and has created his own website where he enjoys helping and showing others who are also living with dementia, how it is possible to still lead a better life. Besides being a volunteer surf lifesaver, Bill competes in masters Swimming, Finswimming, Pool Rescue and Surf Lifesaving Championships, at a local, state, national and international level. This year, Bill travelled to Fiji and participated in his first ever ocean swim.

Currently, Bill is a member of Dementia Australia's Advocate Program and has been Vice Chair of Dementia Alliance International for the past two years. He is also a member of the World Health Organisation GDO KE Focus Group, member of the Global Review Panel for ADI Accreditation of dementia care and a member of the Public Involvement Panel for StepUp. Recently, Bill accepted the position of Living Experience Consultant with Dementia Support Australia.

In the last few years, Bill has started to share his experiences at national and international conferences as a way of raising awareness about dementia, focussing mainly on post diagnostic care and support via his holistic approach to life and the development of reablement plans. His goal here is show by example, that is still possible to live a rewarding and fulfilling life.

SPONSORED SYMPOSIA: WEDNESDAY 24 APRIL

Wednesday 24 April 8:00am–9:00am, Beijing A and online

Advancing brain health: What comes after the multi-variate trials

Multi-variate dementia prevention trials taking place around the globe, such as FINGER and U.S. POINTER, give great promise to the idea that steps can be taken to reduce the risk for cognitive decline and possibly dementia. But even successful clinical trials are sometimes never “scaled up” to become successful community-based, public health interventions. This symposium will discuss what comes after the multi-variate trials: what can be done to get from trials to public health practice? It will also include presentations of how some governments around the world are currently promoting brain health.

Chair:

Matthew Baumgart, Vice President of Health Policy, Alzheimer's Association (USA)

Speakers:

Matthew Baumgart, Vice President of Health Policy, Alzheimer's Association (USA)

Dementia Singapore (Singapore)

Wednesday 24 April 1:30pm–2:30pm, Beijing A and online (lunch will be provided)

Language and Lexicon Surrounding Alzheimer's Disease: A Panel Discussion

Language serves as a powerful tool in shaping perceptions and reinforcing societal norms, especially surrounding Alzheimer's and other dementia related diseases. Current understanding suggests that the language used to describe Alzheimer's and dementia can impact how the condition is perceived, understood, and addressed within various cultural contexts. Understanding these nuances will lead to more effective, inclusive, and tailored support for individuals living with Alzheimer's and their care partners.

Moderator: Dr Debra Tann, EdD, CEO Reminiscent

Speakers:

Shinobu Yamanaka, person with lived experience (translation kindly provided by Noriyo Washizu, International Exchange Committee member, Alzheimer's Association Japan (AAJ))

Lorène Gilly, Head of Public Policy, France Alzheimer

Elizabeth Kasimu Mutunga, CEO & Founder, Alzheimer's & Dementia Organisation Kenya (ADOK)

Wednesday 24 April 8:00am–9:00am, Beijing B and online

The path of patients with Alzheimer's disease and other dementias in the Polish health care system - organizational and systemic challenge

Speakers:

Prof Konrad Rejdak, Neurologist, President of the Polish Neurological Society, Professor Department of Neurology, Medical University of Lublin

Polskie Towarzystwo
Neurologiczne

Prof Tomasz Gabryelewicz, Psychiatrist, Mossakowski Medical Research Institute, Polish Academy of Sciences (Poland)

SPONSORED SYMPOSIA: THURSDAY 25 APRIL

Thursday 25 April 8:00am–9:00am
Beijing A and online (Breakfast
will be provided)

Longitude Prize on Dementia Technology Showcase: How can new co-created technologies support people living with dementia?

Whilst game-changing dementia drugs are on the horizon, they are currently only focused on Alzheimer's disease. Technology can be an important tool for people living with dementia. Through the Longitude Prize on Dementia that launched in 2022, innovative new technologies and services are being developed to support people living with dementia to take on day-to-day challenges and enjoy their lives as long as possible.

This session, hosted by the Alzheimer's Society and Challenge Works will focus on why technology is an important tool, how it can support people living with dementia and empower them to live more independently, as well as highlighting the areas of opportunity for innovation. This will be an interactive session where participants will be able to query the panel members.

We'll hear from some of the prize judges, people with lived experience and the UK's Alzheimer's Society, one of the programme funders.

Fiona Carragher, Director of Research and Influencing at Alzheimer's Society UK

Eric Kihlstrom, Judging Panel member for the Longitude Prize on Dementia and Longevity market specialist

Trevor Salomon, Chair of Lived Experience Advisory Panel (LEAP) for the Longitude Prize on Dementia

Ruth Neale, Longitude Prize on Dementia Programme Lead, Challenge Works

The Longitude Prize on Dementia is a £4 million pound challenge prize programme to drive the creation of personalised, technology-based tools that are co-created with people living with the early stages of dementia, helping them live independently for longer. £3 million is being awarded in seed-funding and development grants to the most promising solutions, with a £1 million first prize to be awarded in 2026.

The Longitude Prize on Dementia is funded by Alzheimer's Society, the UK's leading dementia charity and Innovate UK and delivered by Challenge Works.

Thursday 25 April 12:15pm–1:15pm
Beijing A and online (lunch will be provided)

Rethinking Alzheimer's: Stories of Strength and Innovation

Listening to patients and their families and leveraging technology to drive change in the healthcare system is vital, especially in Alzheimer's.

Patient-centric care, incorporating a multidisciplinary team of healthcare professionals is essential to provide the comprehensive support, education and empowerment required in the early stages of the disease. Harnessing advancements in technology, such as AI and machine learning, enhances diagnostic accuracy and treatment efficiency, and further customizes the patient experience. Please join us and lend your voice as we explore the integration of patient/caregiver input and technological innovation to optimize care delivery, improve outcomes, and enhance the overall healthcare experience.

Speakers:

Dr. Sonya Miller, Head of Medical Affairs, TauRx Pharmaceuticals Ltd, UK

Dr. Linda Sommerlade, Head of Operations, GT Diagnostics Ltd, UK

Jeff LaVaute, Head of Advocacy, TauRx Pharmaceuticals Ltd, USA

Dr Serge Gauthier, Emeritus Professor in Neurology and in Psychiatry, McGill University, Canada

Thursday 25 April 5:15pm–6:15pm
Beijing A and online (Refreshments
will be provided)

Revolutionizing Alzheimer's Diagnosis: Integrating Research, Policy, and Clinical Practice to Better Serve Those Living with the disease

Unlocking the potential for better outcomes in Alzheimer's care begins with early detection and accurate diagnosis. While groundbreaking scientific innovations are revolutionizing diagnostic methods, the integration into healthcare systems and practices poses some challenges. Join us in an engaging roundtable session that explores the exciting possibilities of a comprehensive approach to Alzheimer's diagnosis and gain insight into cutting-edge diagnostic advancements. Participate in discussions highlighting the critical importance of a paradigm shift, where science, policy, and clinical practice synergize to advance our collective efforts toward a brighter future in

SPONSORED SYMPOSIA: THURSDAY 25 APRIL

Alzheimer's disease management. We stand on the brink of a diagnostic revolution, and a united collective effort is essential to contribute to improving the lives of those affected by this challenging disease.

Moderator:

Dr Stéphane Epelbaum, Eli Lilly and Company

Speakers:

Prof Robert Perneczky, Ludwig-Maximilians-University of Munich, München (LMU), Germany

Prof Sebastian Palmqvist, Lund University, Sweden

Mr Chris Lynch, Deputy CEO & Director of Policy, Communications & Publications at Alzheimer's Disease International, UK

SPONSORED SYMPOSIA: FRIDAY 26 APRIL

Friday 26 April 8:00am–9:00am
Beijing A and online

Advancing Global Dementia Risk Reduction through Multidomain Interventions: Experiences from World-Wide FINGERS

Global efforts to develop approaches for risk reduction and prevention of Alzheimer's disease (AD) and related neurodegenerative diseases are pivotal to curb the rapid growth of people living with dementia. The World-Wide FINGERS (WW-FINGERS, <https://fbhi.se/>) global network of multidomain intervention trials for dementia risk reduction and prevention is at the forefront of multinational collaborative work to identify effective and sustainable preventative strategies, based on multidomain interventions simultaneously targeting multiple risk factors for AD and dementia.

WW-FINGERS builds on the positive results of the Finnish Geriatric Intervention Study to Prevent Cognitive Impairment and Disability (FINGER), which showed beneficial effects on cognition and other health-related measures of a two-year multidomain intervention in older adults, which included exercise, healthy diet, cognitive training, social stimulation, management of cardiometabolic risk factors. The network counts over 60 countries, bringing together research and clinical teams which collaborate to adapt, evolve, and test the FINGER model in different populations and settings, with innovative multidomain models including pharmacological and non-pharmacological components.

The symposium will provide an up-to-date overview of the WW-FINGERS network activities, including the collaborative efforts towards data harmonization and joint data analysis, driven by the International Working Groups, supported by the FINGERS Brain Health Institute. Examples of successful country-specific adaption and testing of the FINGER multidomain intervention model will also be presented, including the Spanish GOIZ-ZAINDU feasibility study, which has paved the way for a larger efficacy trial, the Dominican Republic chapter of LATAM-FINGER which showcases a consortium approach, the Mauritius-based MO-FINGERS, which is driven with the support of the local Alzheimer's association. Finally, Alzheimer Europe will give an overview of the benefits of including the citizens' perspectives within this research field, via Public Involvement activities.

Co-Chairs:

Prof Miia Kivipelto, Professor of Clinical Geriatrics, Karolinska Institutet, Sweden

Dr Chi Udeh-Momoh, Associate Professor, Wake Forest University, USA

Speakers:

Dr Francesca Mangialasche, Executive Director, WW-FINGERS Global Scientific Coordinating Center, FINGERS Brain Health Institute, Sweden

Ms Ana Diaz, Public Involvement Lead, Alzheimer's Europe, Luxembourg

Dr Daisy Acosta, Universidad Nacional Pedro Henríquez Ureña (UNPHU), Dominican Republic

Dr Pablo Martinez-Lage, CITA Alzheimer, Basque Country

Dr Ameenah Sorefan, Association Alzheimer & Dementia, Mauritius

Friday 26 April 8:00am–9:00am
Nankin A (Refreshments will be served)

Reception: Supporting knowledge exchange and learning through bursaries. Sponsored by The Mary Oakley Foundation, Lundbeck, Prothena and Essity (by-invite only)

With the support of our generous sponsors, Alzheimer's Disease International (ADI) is delighted to have provided bursaries to support attendance at the conference for family carers, people living with dementia, ADI members, early career researchers and Polish delegates. This invite-only reception will bring together our sponsors and those receiving bursaries to share their experiences and impact of the conference so far.

Host:

Nikki Bayliss, Head of Development, Alzheimer's Disease International, United Kingdom

SPONSORED SYMPOSIA: FRIDAY 26 APRIL

Friday 26 April 12:15pm–1:15pm
Beijing A and online (Lunch will be provided)

Loss of mental capacity: estate planning essentials to protect yourself and your family

With globally ageing populations and dementia cases set to triple by 2050, issues concerning capacity are increasingly important in all aspects of inheritance and succession planning. When a person loses capacity over time, as is often the case with dementia, they are also at increased risk of becoming vulnerable to abuse.

Come and hear how to put plans in place for you and your family members to protect against future loss of capacity leading to vulnerable situations. We'll also tell you about the findings of our research report 'Loss of Mental Capacity – A Global Perspective' and our exciting work to encourage governments to adopt common and robust legal frameworks to protect people who lose mental capacity through adopting the STEP Global Representative Power.

Speakers:

Yue-En Chong TEP, Chair-STEP Mental Capacity Global Special Interest Group and Advocate & Solicitor and Managing Director, Bethel Chambers LLC, Singapore

Heledd Wyn TEP, STEP Trust and Estate Practitioner, and Partner-Private Client and Long-Term Care, Shakespeare Martineau LLP, United Kingdom

Friday 26 April 12:15pm–1:15pm
Beijing B and online (Lunch will be provided)

From Our Perspectives: Insight. Innovation. Inspiration.

The session will focus on the theme of the conference: Dementia: Insights. Innovation. Inspiration. However, the perspectives will be from activists and advocates from different parts of the world and covering different key areas like human rights, research involvement, ground-up initiatives, LGBTQ+ community and PPA.

Chair:

Emily Ong, Co-founder of DAI Environmental Design SiG and Board Member of ADI, Singapore

Panelists:

Helen Rochford-Brennan, Board Member of The Alzheimer Society of Ireland, Board Member of PPI Ignite Public Advisory Committee, Ireland

Laureen (Laurie) Water, Co-founder of The Walking the Talk for Dementia, Co-Host of T&L WTD Let's Talk About It Podcast, USA

Bobby Redman, Chair of Dementia Australia Advisory Committee, Chair of Dementia Awareness and Support - Rotary District 9685, Australia

Patrick Ettenes, Consultant at LGBT Foundation, UK

Natalie Ive, Board of Directors, Australian Aphasia Association, Australia

Everyone's involvement in advocacy is different and thus, the experience, knowledge and perspective are different and unique. Each speaker will provide their perspective on the progress made in the dementia area. It could be on policy, awareness, stigma, prevention and diagnosis, care and treatment of dementia, research or the voice and rights of people living with dementia. In conclusion, what makes a positive impact in their lives and what do they hope to see going forward.

SYMPOSIA AND WORKSHOPS

Thursday 25 April 10:30am-12:00pm Tianjin A

ADI workshop – Post diagnostic support (suitable for ADI Members)

The role of a Post Diagnostic Support (PDS) service is to support people newly diagnosed with dementia. The aim of the service is to empower people living with dementia, and those who care for them with the tools, connections, support system, resources and plans they needed to live as well as possible and prepare for the future. Three ADI Asia Pacific members from Singapore, Indonesia and The Philippines will share how PDS works and how it's been supported by government, private sectors and many other partners in their respective countries in the Asia Pacific region.

This interactive workshop will provide time for discussion and setting your own plan.

Chair:

Ms DY Suharya, Asia Pacific Regional Director, Alzheimer's Disease International, UK

Speakers:

Ms Paola Barbarino, CEO, Alzheimer's Disease International, UK

Mr Stephen Chan, Director of Care Services, Dementia Singapore, Singapore

Mr Michael Maitimoe, Executive Director, Alzheimer's Indonesia (ALZI), Indonesia

Dr Michelle Anlacan, Head of Center for Memory and Cognition of the Philippine General Hospital and the Memory Center of Cardinal Santos Medical Center, The Philippines

Thursday 25 April 3:30pm–5:00pm Beijing B and online

Empowering Dementia Care: Growing with ADI Accreditation for Excellence and Recognition

The ADI Accreditation session presents an opportunity to explore the empowerment of dementia care through the lens of ADI Accreditation, aimed at fostering excellence and recognition within the global healthcare community. With the participation of the ADI team, Global Review Panel Members, and Accredited providers/programs.

This session offers invaluable insights into navigating the challenges of dementia care to achieve accreditation standards, considering global cultural context, inclusivity of persons with dementia and their families, and societies for exceptional global quality and professional recognition.

Speakers:

Ms Paola Barbarino, CEO, Alzheimer's Disease International, UK

Ms Amalia Fonk-Utomo, Head of Accreditation, Alzheimer's Disease International, Netherlands

Mr David Troxel, ADI Global Review Panel, USA

Ms Emily Ong, ADI Global Review Panel Member & Person with Dementia, Singapore

Ms Mary Flynn, ADI Accreditation Advisor, UK

Ms DY Suharya, ADI Global Review Panel & Asia Pacific Regional Director, Alzheimer's Disease International, Indonesia

Mr Bill Yeates, ADI Global Review Panel, Australia

Dr. NG Wai I, Vice-President (Academic) of Kiang Wu Nursing College of Macau (KWNC), Macau

Ms Michal Herz, ADI Global Review Panel Review

Ms Kimberly Butrum, Silverado Memory Care, USA

Dr Alison Canty, Associate Professor, Wicking Dementia Research and Education Centre, University of Tasmania, Australia

Dr. Ana Barbosa, Centre for Applied Dementia Studies, University of Bradford UK (video message)

SYMPOsia AND WORKSHOPS

Friday 26 April 10:30pm–12:00pm
Tianjin A

ADI Workshop - #WhatsYourPlan Advocacy Clinic (suitable for ADI Members)

Building on the 'From Plan to Impact' and the #WhatsYourPlan campaign, to advocate for National Dementia Plans, plus previous advocacy Alzheimer Universities, this ADI and Member Associations advocacy clinic is a key opportunity to share experiences, barriers and solutions to national plans, and importantly, to ask questions and seek guidance for your advocacy work. With just 1-year to go until the 2025 end date for the WHO's Global Action Plan on dementia, this clinic will focus on how to take calls to develop, fund and implement plans to the next level.

Speakers:

Mr Chris Lynch, Deputy CEO, Alzheimer's Disease International, UK

Mr Lewis Artherton, Policy & Communications Manager, Alzheimer's Disease International, UK

Mr Mike Splaine, Splaine Consulting, USA

Friday 26 April 1:30pm–3:00pm
Beijing A and online

Access to treatments for Alzheimer's disease - A global perspective on immediate priorities

Part 1: Lower-income countries and access to diagnosis

Access to dementia drugs requires not only a diagnosis of dementia but an accurate subtype dementia diagnosis; the former is still a challenge in the Global South, such as sub-Saharan Africa where there are very low numbers of specialist clinicians compared to Global North. What are the new responses to increase timely and accurate diagnosis across this region?

Part 2: Lower-income countries and the need for anti-dementia drugs to be on Essential Medicines List

The most pressing treatment need in lower-income countries is access to symptomatic treatments that improve cognition or reduce neuropsychiatric symptoms. While such treatments are typically generic, they are not always available or available at reasonable cost in low-income countries because they are not listed in the WHO Essential Medicines list. Adding them to that list and making them widely accessible would reduce the impact of the disease.

Part 3: Middle-income countries

Middle-income countries face a rapidly rising incidence of Alzheimer's Disease, as their growing wealth allowed them to adopt unhealthy Western lifestyles, such as reduction of physical activity and high caloric food consumption, while

their health systems have yet to implement aggressive management of risk factors for cardiovascular disease and dementia that is common in high income countries. Given the lost cost of drugs like statins, aspirin and vasodilators, a focus on risk factor management would have the most immediate impact, on population health, even beyond dementia.

Part 4: High-income countries

Disease modifying Alzheimer's treatments are becoming available, but health systems even in high income countries lack the capacity to identify eligible patients in a timely manner and refer them to treatment. Changes to reimbursement, workflows and technology will be needed to make these break-through treatment widely accessible

Chair:

Ms Wendy Weidner, Head of Research and Publications, Alzheimer's Disease International, UK

Speakers:

Dr Rufus Akinyemi, Professor of Geriatric Neurology and Translational Neuroscience, University of Ibadan, Nigeria

Dr Louise Robinson, Newcastle University, UK

Dr Mariana Lopez-Ortega, Public Health Researcher, Instituto Nacional de Geriatria, Mexico

Dr Soeren Mattke, USC Brain Health Observatory, USA

FILM ROOM

Wednesday 24 April 4:15pm–4:45pm Tianjin B

5 Ironman Beat Alzheimer's

There will be a showing of the film with a presentation by Hassan Fadli, Project Initiator & Ironman Competitor and time for discussion.

A documentary movie, a series of 5 episodes focusing on hope, early diagnosis and solutions about neurodegenerative disease. We meet with Alzheimer's researchers, medical staff, patients, caregivers and Innovation during each of the 5 Ironman race challenge in 2023-24 in Switzerland, Portugal, France, Sweden and Spain.

Our aim is to raise community awareness of Alzheimer's, promote early prevention through best practices in health and wellness to ultimately beat Alzheimer's and all dementia related diseases.

Hassan Fadli, Project Initiator & Ironman Competitor

Adrien Rivollier, Movie Director

Thursday 25 April 10:30am–11:30am Tianjin B

La Cima de la Vida 4 - Aunque no me Recuerdes

In a collaborative effort between Ecuadorian singer-songwriter Sergio Sacoto and renowned Colombian Geriatrician Dr. Robinson Cuadros, a moving documentary is born that portrays the lives of those affected by Alzheimer's. Through the stories of five families who opened their doors to share their experiences of love, struggle and resilience. From the first signs to the deepest challenges, the viewer is taken on an emotional journey that reveals the different faces of this disease. The film was in collaboration with Fundación TASE, Ecuador. In Spanish with English subtitles.

Thursday 25 April 3:30pm–4:00pm Tianjin B

Walking the Talk for Dementia

A showing of the trailer about Walking the Talk for Dementia. Walking the Talk for Dementia is an immersive experience that challenges conventional power dynamics and hierarchies in healthcare by using shared vulnerability as a catalyst for transformation. It's a four day walk on the Camino de Santiago de Compostela to deepen connections, followed by a two day symposium to consolidate reflections and collaborations. The first walk took place in 2023 and this trailer will provide a taster of the experience and the documentary film that is being created about the inspiring project.

This showing of the film will be followed by a fireside chat with Fernando Peres one of the founders of the project and Laurie Water, a co-founder who is living with dementia.

Friday 26 April 10:30am–10:35am Tianjin B

Mammamà

An award winning short documentary film from Italy written and directed by Flavio Pagano about his mother who is living with dementia.

Friday 26 April 1:30pm–3:30pm Tianjin B

Orange Lamp

A beautiful feature film from Japan with the opportunity to hear from Tomofumi Tanno himself who the hero of the film is modelled on. Tomofumi Tanno is a remarkable dementia self-advocate, who was diagnosed with Alzheimer's disease at the age of 39. His fascinating true story will provide new perspectives on the comprehension of younger-onset Alzheimer's disease.

Synopsis:

Koichi (39), a promising car dealer, starts missing appointments with clients. After being diagnosed with early-onset Alzheimer's disease, he is frustrated with excessive care by others which makes him more miserable and struggles with himself for not being able to do the little things on his own. However, Koichi learns that having Alzheimer's disease does not mean "a life is over."

OVERVIEW: KEY

All

Dementia as a public health priority

Dementia awareness and friendliness

Dementia, diagnosis, treatment, care and support

Dementia research and innovation

Dementia risk reduction

Support for dementia carers

Symposium

OVERVIEW: WEDNESDAY 24 APRIL

| | Shanghai A/B & stream | Beijing A & stream | Beijing B & stream | Beijing C | Tianjin A | Tianjin A – Film room |
|-----------------|--|---|---|---|--|--|
| 08:00– 09:00 | | Symposium: Advancing brain health: What comes after the multi-variate trials. Sponsored by Alzheimer's Association | The path of patients with Alzheimer's disease and other dementias in the Polish health care system - organizational and systemic challenge. Sponsored by Polish Neurological Society | | | |
| 09:00– 10:30 | Plenary 1: Advances in diagnostics and post diagnostic support | | | | | |
| 10:30– 11:00 | Break / Exhibition / Posters | | | | | |
| 11:00– 12:00 | Opening ceremony | | | | | |
| 12:00– 13:15 | Plenary 2: 40 years of ADI: global and national policy landscape | | | | | |
| 13:15– 13:30 | Lunch / Exhibition / Posters | | | | | |
| 13:30– 14:30 | Lunch / Exhibition / Posters | Symposium: Language and Lexicon Surrounding Alzheimer's Disease: A Panel Discussion. Sponsored by Otsuka | | | | |
| 14:30– 14:45 | Lunch / Exhibition / Posters | | | | | |
| 14:45– 15:45 | Behavioural and psychological symptoms of dementia | New and future approaches and treatments | Dementia awareness and friendliness 1 | Dementia risk reduction 1 | The iSupport network: A global collaboration for the implementation of a training and support programme for caregivers of people with dementia | |
| 15:45– 16:15 | Break / Exhibition / Posters | | | | | |
| 16:15– 17:30 | Dementia as a public health priority 1 | Dementia risk reduction 2 | Assistive technology, AI and innovation 1 | Post diagnostic support for people with dementia and carers | Stages of dementia and other dementias | Film viewing - 5 Ironman Beat Alzheimer's (30 mins) |
| 17:30– 19:00 | Welcome reception – Exhibition Hall Hunnan A/B | | | | | |

OVERVIEW: THURSDAY 25 APRIL

| | Shanghai A/B & stream | Beijing A & stream | Beijing B & stream | Beijing C | Tianjin A | Tianjin A – Film room |
|-------------|--|---|---------------------------------------|---|--|--|
| 08:00–09:00 | | Symposium: Longitude Prize on Dementia Technology Showcase: How can new co-created technologies support people living with dementia? Sponsored by Alzheimer's Society | | | | |
| 09:00–10:00 | Plenary 3: World Alzheimer's Month, attitudes towards dementia and dementia friendly communities: what's new | | | | | |
| 10:00–10:30 | Break / Exhibition / Posters | | | | | |
| 10:30–12:00 | Models of care and quality of life | Dementia as a public health priority 2 | Dementia awareness and friendliness 2 | Non-pharmacological interventions | ADI workshop - Post-diagnostic support | Film viewing – La Cima de la Vida 4 (60 mins) |
| 12:00–12:15 | Lunch / Exhibition / Posters | | | | | |
| 12:15–13:15 | Lunch / Exhibition / Posters | Symposium: Rethinking Alzheimer's: Stories of Strength and Innovation. Sponsored by TauRx Pharmaceuticals | | | | |
| 13:15–13:30 | Lunch / Exhibition / Posters | | | | | |
| 13:30–14:30 | Plenary 4: Solutions and challenges in strengthening care support | | | | | |
| 14:30–15:00 | Risk reduction initiatives from the Asia Pacific Region | | | | | |
| 15:00–15:30 | Break / Exhibition / Posters | | | | | |
| 15:30–17:00 | Support for dementia carers 1 | Empowering Dementia Care: Growing with ADI Accreditation for Excellence and Recognition | Dementia awareness and friendliness 3 | Assistive technology, AI and innovation 2 | Dementia therapies and interventions, rehabilitation and treatment | Film viewing – Walking the Talk for Dementia (30 mins) |
| 17:15–18:15 | | Symposium: Revolutionizing Alzheimer's Diagnosis: Integrating Research, Policy, and Clinical Practice to Better Serve Those Living with the disease. Sponsored by Eli Lilly and Company | | | | |

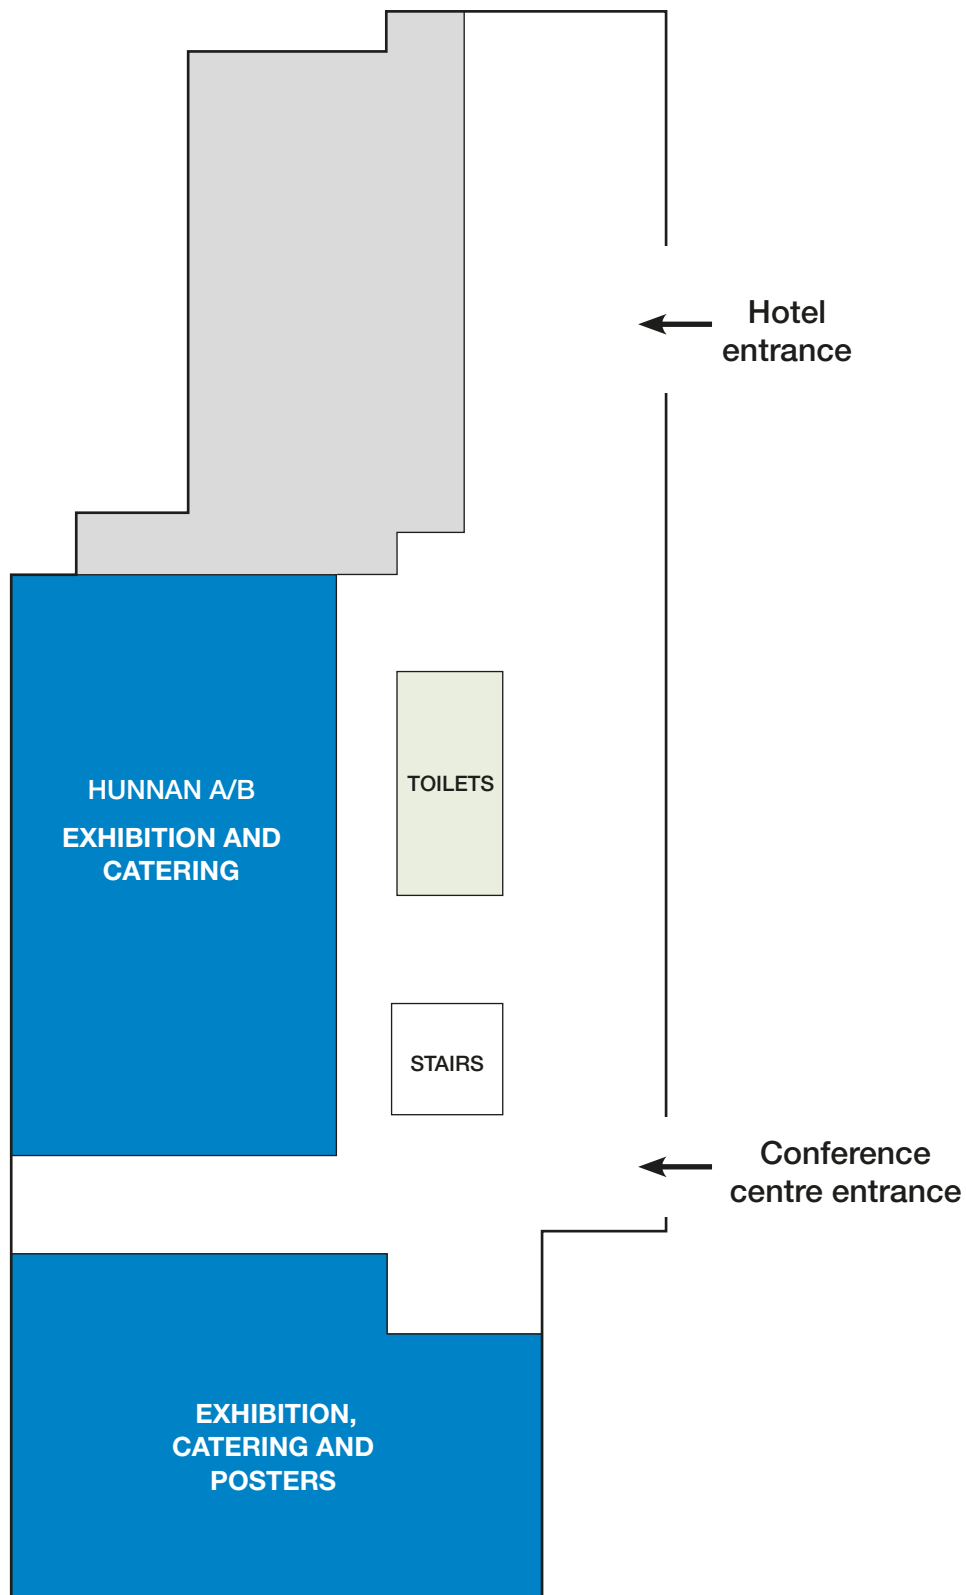

OVERVIEW: FRIDAY 26 APRIL

| | Shanghai A/B & stream | Beijing A & stream | Beijing B & stream | Beijing C | Tianjin A | Tianjin A – Film room |
|-------------|--|---|--|---|---|---------------------------------------|
| 08:00–09:00 | | Symposium: Advancing Global Dementia Risk Reduction through Multidomain Interventions: Experiences from World-Wide FINGERS. Sponsored by World-Wide Fingers | Reception: Supporting knowledge exchange and learning through bursaries. Sponsored by The Mary Oakley Foundation, Lundbeck, Prothena and Essity (Room Nankin A) (by invite only) | | | |
| 09:00–10:00 | Plenary 5: Risk reduction and prevention: innovation in science and communication | | | | | |
| 10:00–10:30 | Break / Exhibition / Posters | | | | | |
| 10:30–12:00 | Education and training for carers | Dementia risk reduction 3 | Dementia awareness and friendliness 4 | International collaborations and epidemiology | ADI Workshop - #WhatsYourPlan Advocacy Clinic | Film viewing – Mammamà (5 mins) |
| 12:00–12:15 | Lunch / Exhibition / Posters | | | | | |
| 12:15–13:15 | Lunch / Exhibition / Posters | Symposium: Loss of mental capacity: estate planning essentials to protect yourself and your family. Sponsored by STEP | Symposium: From Our Perspectives: Insight. Innovation. Inspiration. Dementia Alliance International | | | |
| 13:15–13:30 | Lunch / Exhibition / Posters | | | | | |
| 13:30–15:00 | Underrepresented populations and dementia | Access to treatments for Alzheimer's disease - A global perspective on immediate priorities | Support for dementia carers 2 | Diagnosis, diagnostic tools and cognitive assessments | | Film viewing - Orange Lamp (120 mins) |
| 15:00–15:30 | Lunch / Exhibition / Posters | | | | | |
| 15:30–16:00 | Meet the experts - ADI's Dementia Expert Panel | | | | | |
| 16:00–17:00 | Plenary 6: Data, research, innovation and therapies: Investments, funding and challenges | | | | | |
| 17:00–17:30 | Closing ceremony | | | | | |

LIVE SCIENTIFIC PROGRAMME: WEDNESDAY 24 APRIL 2024

| | | | |
|----------|----------|--|--------------|
| 8:00 AM | 9:00 AM | Symposium: Advancing brain health: What comes after the multi-variate trials. Sponsored by Alzheimer's Association (USA) Chair: Matthew Baumgart, Vice President of Health Policy, Alzheimer's Association (USA) | Beijing A |
| | | <ul style="list-style-type: none"> Matthew Baumgart, Vice President of Health Policy, Alzheimer's Association (USA) Dementia Singapore (Singapore) | |
| 8:00 AM | 9:00 AM | Symposium: The path of patients with Alzheimer's disease and other dementias in the Polish health care system - organizational and systemic challenge. Sponsored by Polish Neurological Society | Beijing B |
| | | <ul style="list-style-type: none"> Prof Konrad Rejdak, Neurologist, President of the Polish Neurological Society, Professor Department of Neurology, Medical University of Lublin (Poland) Prof Tomasz Gabryelewicz, Psychiatrist, Mossakowski Medical Research Institute, Polish Academy of Sciences (Poland) | |
| 9:00 AM | 10:30 AM | Plenary 1: Advances in diagnostics and post diagnostic support Chair: Ms Paola Barbarino, CEO, Alzheimer's Disease International, (UK) | Shanghai A/B |
| | | Latest advances in treatments and diagnostics <ul style="list-style-type: none"> Dr Alireza Atri, Senior Scientist of Alzheimer's Prevention Initiative, Banner Sun Health Research Institute, (USA) | |
| | | Diagnosis in Africa <ul style="list-style-type: none"> Dr Rufus Akinyemi, Professor of Geriatric Neurology and Translational Neuroscience, University of Ibadan, (Nigeria) | |
| | | 820: Improving post diagnosis support and quality of life through innovative education and training <ul style="list-style-type: none"> Ms Claire Webster, Founder and President, Caregiver Crosswalk Inc., (Canada) | |
| | | The empowerment of diagnosis <ul style="list-style-type: none"> Ms Emily Ong, Project lead, Dementia Alliance International Environmental Design Special Interest Group (ED SiG), (Singapore) | |
| 10:30 AM | 11:00 AM | Break/posters/exhibition | |
| 11:00 AM | 12:00 PM | Opening ceremony Chair: Ms Paola Barbarino, CEO, Alzheimer's Disease International, (UK) | Shanghai A/B |
| | | Speakers: <ul style="list-style-type: none"> Mr Andrzej Pawlak, Person living with dementia, (Poland) Mr Dale Goldhawk, Chair, Alzheimer's Disease International, (Canada) Mr Zbigniew Tomczak, President, Polskie Stowarzyszenie Pomocy Osobom z Chorobą Alzheimera, (Poland) Her Royal Highness Princess Muna Al Hussein, (Jordan) Her Majesty Queen Sofia of Spain, (Spain) | |
| 12:00 PM | 01:15 PM | Plenary 2: 40 years of ADI: global and national policy landscape Chair: Mr Dale Goldhawk, Chair, Alzheimer's Disease International (Canada) | |
| | | An update on the global perspective <ul style="list-style-type: none"> Ms Paola Barbarino, CEO, Alzheimer's Disease International, (UK) | |

LIVE SCIENTIFIC PROGRAMME: WEDNESDAY 24 APRIL 2024

| | | | |
|----------|----------|---|--------------|
| | | <p>Maintaining priority and gaining momentum for the WHO Global Action Plan on dementia</p> <ul style="list-style-type: none"> • Dr Tarun Dua, Medical Officer, Department of Mental Health and Substance Abuse at the World Health Organization (WHO), (Switzerland) | |
| | | <p>Implementing Canada's national dementia strategy</p> <ul style="list-style-type: none"> • Ms Franca Gatto, Director, Public Health Agency of Canada, (Canada) | |
| | | <p>819: Dementia National Plan in Chile. Projections and challenges seven years after its implementation</p> <ul style="list-style-type: none"> • Dr Francisco Cubillos, Professional Advisor, Mental Health Department Disease Prevention and Control Division, Undersecretary of Public Health, Ministry of Health Chile, (Chile) | |
| 01:15 PM | 02:45 PM | Lunch | |
| 01:30 PM | 02:30 PM | <p>Symposium: Language and Lexicon Surrounding Alzheimer's Disease: A Panel Discussion. Sponsored by Otsuka</p> <p>Chair: Dr Debra Tann, EdD, CEO Reminiscent</p> | Beijing A |
| | | <ul style="list-style-type: none"> • Shinobu Yamanaka, person with lived experience (translation kindly provided by Noiry Washizu, Board member, Japan Alzheimer Association) • Noriyo Washizu, International Exchange Committee member, Alzheimer's Association Japan) • Lorène Gilly, Head of Public Policy, France Alzheimer • Elizabeth Kasimu Mutunga, CEO & Founder, Alzheimer's & Dementia Organisation Kenya (ADOK) | |
| 02:45 PM | 03:45 PM | <p>Support for people living with dementia and behavioural and psychological symptoms of dementia</p> <p>Chair: Mr Andrew Ketteringham, Alzheimer's Disease International (UK)</p> | Shanghai A/B |
| | | <p>282: Charting the Dementia Journey: Supporting the Empowerment of People Living with Dementia to Live Well through Dementia Self-Management</p> <ul style="list-style-type: none"> • Mr Casey Acklin, Dementia Engagement, Education, and Research (DEER) Program; School of Public Health; University of Nevada, (USA) | |
| | | <p>379: Nutritional Status and Eating Behaviours in People with Dementia in Nursing Home Settings: A Cross-Sectional Observational Study</p> <ul style="list-style-type: none"> • Prof Hui Chen Chang, Western Sydney University, (Australia) | |
| | | <p>528: Who should decide? Co-development and Application of a Priority-Setting Approach for Dementia Care Research</p> <ul style="list-style-type: none"> • Dr Rasa Mikelyte, Keith Oliver, University of Kent, (UK) | |
| | | <p>625: Emotional experience and coping strategies used by people living with Alzheimer after diagnosis</p> <ul style="list-style-type: none"> • Mrs Simone Gamm, University of Montréal, (Canada) | |
| | | <p>665: Multiple limbic proteinopathies correlate to psychotic and hyperactive behavioural symptoms: data from the Abbiategrosso Brain Bank.</p> <ul style="list-style-type: none"> • Dr Tino Emanuele Poloni, Department of Neurology-Neuropathology and Abbiategrosso Brain Bank, Golgi-Cenci Foundation, Abbiategrosso, (Italy) | |

LIVE SCIENTIFIC PROGRAMME: WEDNESDAY 24 APRIL 2024

| | | | |
|----------|----------|--|------------------|
| 02:45 PM | 03:45 PM | New and future approaches to treatment Chair: Angela Bradshaw, Alzheimer Europe (Luxembourg), Tel Aviv University Medical School (Israel) | Beijing A |
| | | 36: Neuroinflammation-induced by interaction of Microbiota on the Gut-Brain axis in Alzheimer's disease: An insight to etiopathogenesis and disease management. <ul style="list-style-type: none"> Mr Benjamin Temidayo Adebisi, Institute of Anatomy, Cell Biology, Brain and Neurodegeneration, (Nigeria) | |
| | | 232: Dementia Trials Ireland, a HRB Clinical Trial Network – increasing capacity and capability to deliver clinical trials for dementia in Ireland. <ul style="list-style-type: none"> Prof Iracema Leroi, Dementia Trials Ireland, Trinity College Institute of Neuroscience, Trinity College Dublin, (Ireland) | |
| | | 729: 24-month topline results from Phase 3 LUCIDITY trial in AD show combined disease-modifying and symptomatic activity for hydromethylthionine mesylate (HMTM) <ul style="list-style-type: none"> Prof Claude Wischik, TauRx Pharmaceuticals Ltd, (UK) | |
| | | 811: Rethinking Alzheimer's Disease - Widening the View on Pathogenetic Factors <ul style="list-style-type: none"> Prof Christian Behl, Institute of Pathobiochemistry, University Medical Center Mainz, (Germany) | |
| 02:45 PM | 03:45 PM | Dementia awareness and friendliness 1 Chair: Dr Nori Graham, Alzheimer's Disease International (UK) | Beijing B |
| | | 386: The 'Flemish working group of people with dementia': our call to action for respectful communication <ul style="list-style-type: none"> Mr Paul Goossens and Mr Olivier Constant, Alzheimer Liga Vlaanderen (Flemish Alzheimer's Association), (Belgium) | |
| | | 229: "Empowering Voices: Public Patient Involvement, Personhood, Citizenship, and Agency in Dementia Advocacy" <ul style="list-style-type: none"> Ms Carmel Geoghegan, Dementia Ireland Empowering Communities, (Ireland) | |
| | | 384: Exploring public perception of dementia on Twitter (X): a cross-cultural analysis <ul style="list-style-type: none"> Dr Saowaluk Srikajornlarp, Department of Medicine, Faculty of Medicine, Ramathibodi Hospital, Mahidol University, (Thailand) | |
| | | 529: Involving implicit measurements in future dementia research: children's drawings for the identification and modification of negative stereotyping of Alzheimer's Disease <ul style="list-style-type: none"> Dr Kasper Bormans, Maastricht University, (Netherlands) | |
| | | 693: CURATE-D Erasmus + Project: : Inclusion in the cultural sector for people living with dementia <ul style="list-style-type: none"> Ms Konstantina Iakovou, Challedu, (Greece) | |
| 02:45 PM | 03:45 PM | Dementia risk reduction 1 Chair: Prof Sebastian Kohler, Maastricht University, (Netherlands) | Beijing C |
| | | 132: Exploring Hearing Loss as a Risk Factor for Parkinson's Disease Dementia <ul style="list-style-type: none"> Dr Megan Rose Readman, Department of Primary Care and Mental Health, The University of Liverpool, (UK) | |
| | | 766: Risk factors for Dementia in Mexico. Prevalence, burden of disease and three decade trajectories. <ul style="list-style-type: none"> Dr Mariana Lopez-Ortega, National Institute of Geriatrics, (Mexico) | |

LIVE SCIENTIFIC PROGRAMME: WEDNESDAY 24 APRIL 2024

| | | | |
|----------|----------|---|--------------|
| | | <p>376: Does the relative risk of potentially modifiable risk factors for dementia vary between ethnic groups within one country? A retrospective cohort study using routinely collected health data in Aotearoa New Zealand</p> <ul style="list-style-type: none"> • Dr Etuini Ma'u, University of Auckland, (<i>New Zealand</i>) | |
| | | <p>667: Process Evaluation of APPLE-Tree (Active Prevention in People at risk of dementia through Lifestyle bEHaviour Change and Technology to build RESiliEnce), a Dementia-Prevention Study focused on Health and Lifestyle changes</p> <ul style="list-style-type: none"> • Dr Elenyd Whitfield, Queen Mary University of London, (<i>UK</i>) | |
| 02:45 PM | 03:45 PM | <p>The iSupport network: A global collaboration for the implementation of a training and support programme for caregivers of people with dementia</p> <p>Chair: Katrin Seeher & Tuan Nguyen (Switzerland and Australia)</p> | Tianjin A |
| | | <p>193: iSupport for Young People as a tool to explore the needs of Brazilian and Spanish youngsters who live in a family affected by dementia</p> <ul style="list-style-type: none"> • Dr Patricia Masterson Algar, Bangor University, (<i>UK</i>) | |
| | | <p>377: iSupport: Pilot randomised-controlled trial of iSupport New Zealand adaptation</p> <ul style="list-style-type: none"> • Dr Tara Sani, University of Auckland, (<i>New Zealand</i>) | |
| | | <p>457: iSupport - The effectiveness of a Chinese iSupport for Dementia program for family carers in Australia and Greater China</p> <ul style="list-style-type: none"> • Prof Lily Xiao, College of Nursing and Health Sciences, Flinders University, (<i>Australia</i>) | |
| | | <p>486: iSupport - Adaptation of iSupport for different populations</p> <ul style="list-style-type: none"> • Ms Emily Fisher, University College London, (<i>UK</i>) | |
| | | <p>541: iSupport - Applying the eHealth Literacy lens to evaluate a virtual assistant to support family carers of people with dementia</p> <ul style="list-style-type: none"> • Mrs Thu Ha Dang, National Ageing Research Institute, (<i>Australia</i>) | |
| | | <p>545: iSupport: A Randomized Controlled Study of an Internet-Based Self-Education System for Caregivers in Japan</p> <ul style="list-style-type: none"> • Ms Yoshie Omachi, National Center of Neurology and Psychiatry, (<i>Japan</i>) | |
| | | <p>549/559: iSupport - The cultural adaptation of iSupport program: Experiences from Australia, Brazil, Indonesia, New Zealand, and Qatar</p> | |
| | | <p>iSupport - Further cultural and media adaptation of Australian iSupport for Dementia</p> <ul style="list-style-type: none"> • Tuan Nguyen, National Ageing Research Institute (<i>NARI</i>), (<i>Vietnam</i>) | |
| 03:45 PM | 04:15 PM | Break/posters/exhibition | |
| 04:15 PM | 05:30 PM | <p>Post diagnostic support for people with dementia and carers</p> <p>Chair: Ms Claire Webster, McGill University, (<i>Canada</i>)</p> | Shanghai A/B |
| | | <p>131: Enhancing post-diagnostic support in Australian memory clinics: Current practices, and barriers and facilitators to the provision of desirable support</p> <ul style="list-style-type: none"> • Mrs Sladana Pavkovic, Wicking Dementia Research and Education Center, University of Tasmania, (<i>Australia</i>) | |
| | | <p>240: Structured Support for Persons with Dementia and their Next of Kin after Diagnose - An Intervention Study</p> <ul style="list-style-type: none"> • Dr Annika Kjallman Alm, Mid Sweden University, (<i>Sweden</i>) | |

LIVE SCIENTIFIC PROGRAMME: WEDNESDAY 24 APRIL 2024

| | | | |
|----------|----------|--|-----------|
| | | <p>350: Neurorehabilitation of people with dementia. Gotcha! an app-based therapy for proper name anomia in people with dementia</p> <ul style="list-style-type: none"> Miss Aygun Badalova, University College London, (UK) | |
| | | <p>455: Inequalities in care, treatment and support trajectories for people with dementia and family carers (STRiDE England)</p> <ul style="list-style-type: none"> Ms Adelina Comas-Herrera, London School of Economics and Political Science, (UK) | |
| | | <p>628: Pilot Study of the Avia Pervia nurse + OT home program for people living with advanced dementia and their caregiver, provided by the center for cognitive disorders and dementia in Modena, Italy</p> <ul style="list-style-type: none"> Dr Andrea Fabbo, Health Authority and Services of Modena, (Italy) | |
| | | <p>656: A systematic mapping review of 525 randomised controlled trials on pharmacological and non-pharmaceutical interventions for people living with dementia and their formal and informal caregivers in Chinese communities</p> <ul style="list-style-type: none"> Dr Cheng Shi, Lingnan University, (Hong Kong) | |
| 04:15 PM | 05:30 PM | <p>Dementia risk reduction 2 Chair: Dr Ameenah Sorefan, Alzheimer's Disease International, (Mauritius)</p> | Beijing A |
| | | <p>102: Maintain Your Brain - outcomes and implications of a 3-year randomised controlled trial of personalised online intervention to prevent cognitive decline</p> <ul style="list-style-type: none"> Prof Henry Brodaty, Centre for Healthy Brain Ageing, Discipline of Psychiatry and Mental Health, School of Clinical Medicine, UNSW, (Australia) | |
| | | <p>123: A world Alzheimer month turned towards prevention, sport and dementia</p> <ul style="list-style-type: none"> Mrs Lorène Gilly, France Alzheimer et maladies apparentées, (France) | |
| | | <p>343: The association between time-use in physical activities, TV watching, and sleep with cognitive performance among middle age and older adults: a cross-sectional isotemporal substitution analysis.</p> <ul style="list-style-type: none"> Ms Rosa Palazuelos-González, University of Groningen, University Medical Center Groningen, Department of Epidemiology, (Netherlands) | |
| | | <p>353: "Never too early. Never too late": Strategies used to make an impact in Brazil</p> <ul style="list-style-type: none"> Dr Elaine Mateus, Febraz, Londrina, (Brazil) | |
| | | <p>650: The Cognitive Kitchen: A codesigned nutrition program pairing evidence-based eating strategies and lifestyle habits with socialization to support dementia risk reduction and living well with dementia</p> <ul style="list-style-type: none"> Dr Allison Cammer, University of Saskatchewan, (Canada) | |
| 04:15 PM | 05:30 PM | <p>Assistive technology, AI and innovation 1 Chair: Mr Paul Attea, Alzheimer's Disease International, (USA)</p> | Beijing B |
| | | <p>410: Promoting timely diagnosis of dementia with free BrainTrack app</p> <ul style="list-style-type: none"> Ms Kelly Burns, Dementia Australia, (Australia) | |
| | | <p>472: Co-developing An intelligent Ubiquitous solution fOr Multimodal daily living procedures tracking in people with dementia (AUTONOMOUS): insights from participatory design research</p> <ul style="list-style-type: none"> Prof Cristina Mendes-Santos, Fraunhofer Portugal AICOS, (Portugal) | |
| | | <p>492: Keeping active with gaming: What works for people with dementia?</p> <ul style="list-style-type: none"> Ms Erica Dove, University of Toronto, (Canada) | |
| | | <p>514: Porta-D: Immersive experiences for anxiety in people living with dementia.</p> <ul style="list-style-type: none"> Mr Steven Grisales, Porta, (Colombia) | |

LIVE SCIENTIFIC PROGRAMME: WEDNESDAY 24 APRIL 2024

| | | | |
|----------|----------|--|-----------------|
| | | <p>523: Enhancing the Use of Sound in Dementia Care Through Participatory Development of Sound-based Technologies: The Technology Box Approach</p> <ul style="list-style-type: none"> • Mrs Patrizia Held, Furtwangen University, (Germany) | |
| | | <p>674: Utilizing Machine Learning and Computer Vision for Early Detection of Dementia Through Facial Features</p> <ul style="list-style-type: none"> • Ms Sandra Challma, Stockholm University, (Sweden) | |
| 04:15 PM | 05:30 PM | <p>Dementia as a public health priority 1</p> <p>Chair: Mr Jean Georges, Alzheimer Europe (Luxembourg)</p> | Beijing C |
| | | <p>238: Implementation of Global Action Plan On the Public Health Response to Dementia (GAPD) in Sub-Saharan Africa: Comprehensive Reviews</p> <ul style="list-style-type: none"> • Mr Haruna Batange, African Research Center 4 Ageing & Dementia, (Uganda) | |
| | | <p>150: Identifying Dementia Care Partner Supports as a Public Health Priority: Addressing Unmet Population Health Needs</p> <ul style="list-style-type: none"> • Prof Sherril Gelmon, OHSU-PSU School of Public Health, (USA) | |
| | | <p>329: Determining the top research priority topics for Lewy body dementia in Ireland taking a multi-stakeholder approach</p> <ul style="list-style-type: none"> • Ms Rachel Fitzpatrick, Trinity College Dublin, School of Medicine, (Ireland) | |
| | | <p>47: Promote DementiaTitude® - 16 Principles of Proper Caring Attitude from the Voice of People with Dementia in Hong Kong</p> <ul style="list-style-type: none"> • Dr CHI MAN KENNY CHUI, Hong Kong Social Worker Association, (Hong Kong) | |
| | | <p>218: Embedding the voice of lived experience within policy and practice in Scotland</p> <ul style="list-style-type: none"> • Miss Dina Roggero, About Dementia, Age Scotland, (UK) | |

| 03:30 PM | 05:00 PM | Assistive technology, AI and innovation 2 Chair: Brian Lawlor, Global Brain Health Institute, (Ireland) | Beijing C |
| | | 342: Using Artificial Intelligence (AI) to support clinical assessment and management of sleep disturbance for people living with dementia and mild cognitive impairment <ul style="list-style-type: none"> Prof Chris Fox, University of Exeter, (UK) | |
| | | 380: Exploring older people's attitudes and preferences around the use of their routinely collected healthcare data in brain health research <ul style="list-style-type: none"> Dr Sarah Cullum, Psychological Medicine, University of Auckland & Te Whatu Ora Counties Manukau, (New Zealand) | |

LIVE SCIENTIFIC PROGRAMME: THURSDAY 25 APRIL 2024

564: Perspectives and roles of pharmacists in the implementation of AI and digital health interventions in medication management among people with dementia

- Mr Dinesh Sangarran Ramachandram, School of Pharmacy, Monash University Malaysia & Jeffrey Cheah School of Medicine and Health Sciences, Monash University Malaysia, (*Malaysia*)

595: “Co-creating a digital Alzheimer’s guide - for and together with recently diagnosed patients” In this session, we would like to share the needs of recently diagnosed patients and inspire you to co-create digital tools – together with stakeholders and, most importantly, the patients.

- Mrs Maria Cavalli, NADIO, (*Sweden*)

765: Dementia Ideal Care Map: Ecosystem view of best practices and new care pathways enabled by technology and community

- Dr Wen Dombrowski, CATALAIZE, (*USA*)

617: Designing for dementia: empathetic innovation in a socio-technical system.

- Dr James Brown, Supersense Technologies Ltd., (*UK*)

420: Development and implementation of the person-centered Minnity app for professional caregivers, adapted to the Montessori method for persons with dementia

- Dr Katarzyna Hess-Wiktor, Minnity, (*Sweden*)

652: Usability and co-design for a person-centered rehabilitation approach: the Alzheimer’s and dementia ministerial fund (2021-2023) in Veneto Region, Italy

- Dr Cristina Basso, Azienda zero, (*Italy*)

| | | | |
|----------|----------|---|-----------|
| 03:30 PM | 05:00 PM | Dementia therapies and interventions, rehabilitation and treatment Chair: Dr Louise Robinson, Newcastle University, (<i>UK</i>) | Tianjin A |
| | | 10: Dance as an intervention to improve quality of life for people with dementia • Mrs Mirjam Brocknäs, Upplands Bro kommun, (<i>Sweden</i>) | |
| | | 63: The rise of the Memory Hubs in the UK: A model for multi-disciplinary community care provision for people living with early-stage dementia and their family carers • Dr Alison Ward, University of Northampton, (<i>UK</i>) | |
| | | 30: Hiking a path through younger onset dementia • Mr David Loveland, Spouse, Mount Pleasant, (<i>USA</i>) | |
| | | 584: A session of self-portraits in an art therapy group: An interpretive phenomenology study for persons living with moderate to advanced dementia in a facility • Miss Chun-Luan YANG, Department of Nursing, College of Nursing, National Yang Ming Chiao Tung University, (<i>Taiwan</i>) | |
| | | 46: My truth living with Primary progress Aphasia. • Miss Natalie Ive, Dementia Australia, Dementia Alliance International & Australian Aphasia Association, (<i>Australia</i>) | |
| | | 470: Effectiveness of interventions for improving the daily function of people with dementia in Chinese Communities: a network meta-analysis of randomized controlled trials • Dr Qi Wang, Lingnan University, (<i>Hong Kong</i>) | |
| | | 517: Why rehabilitation works for some but not others? Perspectives of care partners, clinicians and service providers about the implementation of the Interdisciplinary Home-based Reablement Program (I-HARP) • Prof Yun-Hee Jeon, The University of Sydney, (<i>Australia</i>) | |

LIVE SCIENTIFIC PROGRAMME: THURSDAY 25 APRIL 2024

| | | | |
|----------|----------|---|-----------|
| 05:15 PM | 06:15 PM | Symposium: Revolutionizing Alzheimer's Diagnosis: Integrating Research, Policy, and Clinical Practice to Better Serve Those Living with the disease. Sponsored by Eli Lilly and Company Chair: Dr Stéphane Epelbaum, Eli Lilly and Company, (France) | Beijing A |
| | | Speakers: <ul style="list-style-type: none"> • Prof Robert Perneczky, Ludwig-Maximilians-University of Munich, München (LMU), (Germany) • Prof Sebastian Palmqvist, Lund University, (Sweden) • Mr Chris Lynch, Alzheimer's Disease International, (UK) | |

LIVE SCIENTIFIC PROGRAMME: FRIDAY 26 APRIL 2024

| | | | |
|----------|----------|---|--------------|
| 8:00 AM | 9:00 AM | Symposium: Advancing Global Dementia Risk Reduction through Multidomain Interventions: Experiences from World-Wide FINGERS. Sponsored by World-Wide Fingers Chairs: Dr Chi Udeh-Momoh, Associate Professor, Wake Forest University, (USA) Prof Miia Kivipelto, Professor of Clinical Geriatrics, Karolinska Institutet (Sweden) | Beijing A |
| | | 750: The World-Wide FINGERS Global Strategy for Precision Prevention of Dementia and Alzheimer's Disease <ul style="list-style-type: none"> Dr Francesca Mangialasche, Executive Director, WW-FINGERS Global Scientific Coordinating Center, FINGERS Brain Health Institute, (Sweden) | |
| | | 747: How Public Involvement Contributes to Effective Research on Prevention of Alzheimer's disease and Dementia <ul style="list-style-type: none"> Ms Ana Diaz, Public Involvement Lead, Alzheimer's Europe, (Luxembourg) | |
| | | 454: LATam Fingers-Dominican Republic: findings from the baseline study interventions <ul style="list-style-type: none"> Dr Daisy Acosta, Universidad Nacional Pedro Henriquez Ureña (UNPHU), (Dominican Republic) | |
| | | Successful adaptation of FINGER model in Southern Europe: From the GOINZ-ZAINDU pilot study to the CITA GO-ON trial <ul style="list-style-type: none"> Dr Pablo Martinez-Lage, CITA Alzheimer, (Basque Country) | |
| | | Baseline characteristics of the participants in the MO-FINGERS project <ul style="list-style-type: none"> Dr Ameenah Sorefan, Association Alzheimer & Dementia, (Mauritius) | |
| 8:00 AM | 9:00 AM | Reception: Supporting knowledge exchange and learning through bursaries. Sponsored by The Mary Oakley Foundation, Lundbeck, Prothena and Essity (by invitation only) | Nankin A |
| 9:00 AM | 10:00 AM | Plenary 5: Risk reduction and prevention: innovation in science and communication Chair: Mr Simon Long, The Economist, (UK) | Shanghai A/B |
| | | 822: The public health approach to risk reduction, and influencing societal and individual change <ul style="list-style-type: none"> Dr Sebastian Walsh, NIHR Doctoral Fellow in Public Health Medicine, University of Cambridge, (UK) | |
| | | World-Wide FINGERS: A Global Strategy for advancing risk reduction and precision prevention of dementia <ul style="list-style-type: none"> Prof Miia Kivipelto, (Finland) | |
| | | The steps being taken as a person living with dementia to maintain an active lifestyle <ul style="list-style-type: none"> Mr Bill Yeates, Advocate, Dementia Australia and Dementia Alliance International and Living Experience Consultant, Dementia Support Australia, (Australia) | |

| 12:15 PM | 01:15 PM | Symposium: From Our Perspectives: Insight. Innovation. Inspiration. Dementia Alliance International Chair: Ms Emily Ong, Co-founder of DAI Environmental Design SiG and Board Member of ADI, (Singapore) | Beijing B |
| | | Speakers: <ul style="list-style-type: none"> • Helen Rochford-Brennan, Board Member of The Alzheimer Society of Ireland, Board Member of PPI Ignite Public Advisory Committee (<i>Ireland</i>) • Laureen (Laurie) Waters, Co-founder of The Walking the Talk for Dementia, Co-Host of T&L WTD Let's Talk About It Podcast (<i>USA</i>) • Bobby Redman, Chair of Dementia Australia Advisory Committee, Chair of Dementia Awareness and Support - Rotary District 9685 (<i>Australia</i>) • Patrick Ettenes, Consultant at LGBT Foundation (<i>UK</i>) • Natalie Ive, Board of Directors, Australian Aphasia Association (<i>Australia</i>) | |
| 01:30 PM | 03:00 PM | Underrepresented populations and dementia Chair: Dr Jesús Rodrigo Ramos, Alzheimer's Disease International, (Spain) | Shanghai A/B |
| | | 2: The Space Between: Understanding the Experience of Nonbinary Persons with Dementia. A qualitative exploration. <ul style="list-style-type: none"> • Mx Dáithí Clayton, Prof Phil Harper, Newman University, (<i>Belgium</i>) | |
| | | 799: Exploring the experiences of LGBTQ+ people living with dementia: It's time to get creative! <ul style="list-style-type: none"> • Mr John Hammond, Brighton and Sussex Medical School, (<i>UK</i>) | |
| | | 194: Living with violence in Colombia: the risk of developing mental health problems and dementia among older adults living with violence throughout their lives <ul style="list-style-type: none"> • Prof Mark Gabbay, University of Liverpool, Liverpool, (<i>UK</i>) | |
| | | 477: Recruiting people living with dementia (including those who lack capacity to consent) remotely vs. in-person: learning from the Dementia PersonAlised Care Team (D-PACT) feasibility study during COVID-19 <ul style="list-style-type: none"> • Dr Tomasina Oh, University of Plymouth, (<i>UK</i>) | |
| | | 710: Technology facilitated African & African Caribbean reminiscence in dementia Care - Bridging the gap. <ul style="list-style-type: none"> • Mr Carl Case, Cultural Appropriate Resources, (<i>UK</i>) | |
| | | 268: Sex differences in the prevalence of mild cognitive impairment and dementia, and their risk factors, in Bengaluru <ul style="list-style-type: none"> • Prof Michelle Mielke, Wake Forest University School of Medicine, (<i>India</i>) | |
| | | 805: Genetic studies for Alzheimer's Disease in Peru and Bolivia <ul style="list-style-type: none"> • Dr Giuseppe Tosto, Columbia University, (<i>USA</i>) | |
| 01:30 PM | 03:00 PM | Access to treatments for Alzheimer's disease - A global perspective on immediate priorities Chair: Ms Wendy Weidner, Head of Research and Publications, Alzheimer's Disease International, (UK) | Beijing A |
| | | Presenters from low-income, middle-income and high-income countries will share their relative perspectives of priorities for treating Alzheimer's disease Speakers: <ul style="list-style-type: none"> • Dr Rufus Akinyemi, University of Ibadan, (<i>Nigeria</i>) • Dr Louise Robinson, Newcastle University, (<i>UK</i>) • Dr Mariana Lopez-Ortega, Instituto Nacional de Geriatria, (<i>Mexico</i>) • Dr Soeren Mattke, USC Brain Health Observatory, (<i>USA</i>) | |

LIVE SCIENTIFIC PROGRAMME: FRIDAY 26 APRIL 2024

| | | | |
|----------|----------|--|--------------|
| 01:30 PM | 03:00 PM | Support for dementia carers 2 Chai: Mr David Troxel, Author, 'Best Friends Approach', (USA) | Beijing B |
| | | 265: Delivering a Virtual Support Group for Caregivers of Persons with Dementia - The Experience of Alzheimer's Ghana. • Dr Sally Yalley, Global Brain Health Institute, (Ireland) | |
| | | 488: Investigating the effectiveness of cascade training workshop on the level of knowledge and attitude of managers of care homes in provincial institutions of Welfare Organization with emphasises on Person Centered Care • Mrs Faraneh Farin, Iran Dementia and Alzheimer's Association, (Iran, Islamic Republic of) | |
| | | 580: The Difference in Burden Experienced by Male and Female Caregivers of Dementia Patients in Lebanon: A Cross-Sectional Study • Ms Mayssan Kabalan, American University of Beirut, (Lebanon) | |
| | | 772: Common Narratives Among Puertorrican Caregivers of Persons Diagnosed with Alzheimer's Disease: The Experience of Community-Led Support Groups for Caregivers of Persons Living with Alzheimer's Diseases in Puerto Rico • Dr Francisco Parga, Puerto Rico Alzheimer's Association, (Puerto Rico) | |
| 01:30 PM | 03:00 PM | Diagnosis, diagnostic tools and cognitive assessments | Beijing C |
| | | 235: Feasibility of screening for cognitive impairment among older persons and referral by community health workers in Mukono district, Uganda • Dr Isaac Ddumba, Victoria University, (Uganda) | |
| | | 345: Systematic Assessment of Cognition at Preventive Home Visits; The HOS DEM study • Mrs Tina Bach Hansen, Mental Health Services in the Region of Southern Denmark, Aabenraa, (Denmark) | |
| | | 453: The De-Sign Erasmus+ project: Dementia Raising Awareness seminars in Deaf communities and Adaptation of the first Cognitive Screening Test in Austrian and Greek Sign Language • Dr Marianna Tsatali, Greek Alzheimer Association and related Disorders, (Greece) | |
| | | 588: EBC Rethinking Alzheimer's disease: Scaling up health systems' readiness • Prof Giovanni Frisoni, University of Geneva, (Switzerland) | |
| | | 785: The acceptability and feasibility of a community dementia screening programme in rural Kenya: DEM-SKY • Dr Nicolas Farina, University of Plymouth, (UK) | |
| | | 94: Under-diagnosis of Dementia in Nursing Home Residents: A Scoping Review • Dr Reena Tewari, Adelaide Geriatrics Training and Research with Aged Care (G-TRAC) Centre Adelaide Medical School, (Australia) | |
| 03:00 PM | 03:30 PM | Break/posters/exhibition | |
| 03:30 PM | 04:00 PM | Meet the experts: ADI's Dementia Expert Panel | Shanghai A/B |

LIVE SCIENTIFIC PROGRAMME: FRIDAY 26 APRIL 2024

| | | | |
|----------|----------|---|--------------|
| 04:00 PM | 05:00 PM | Plenary 6: Data, research, innovation and therapies: Investments, funding, opportunities and challenges Chair: Ms Fiona Carragher, Alzheimer's Society, (UK) | Shanghai A/B |
| | | Accelerating drug discovery and development for Alzheimer's disease through venture philanthropy <ul style="list-style-type: none"> • Mr Mark Roithmayr, Alzheimer's Drug Discovery Foundation, (USA) 824: Precision medicine in dementia <ul style="list-style-type: none"> • Dr Pascual Sánchez, Fundación CIEN, (Spain) 814: The Alzheimer Association's strategy for increasing research funding, then managing and prioritizing projects <ul style="list-style-type: none"> • Dr Joanne Pike, CEO, Alzheimer's Association USA, (USA) | |
| 05:00 PM | 05:30 PM | Closing ceremony Chair: Ms Paola Barbarino, CEO, Alzheimer's Disease International, (UK) | Shanghai A/B |
| | | Speakers: <ul style="list-style-type: none"> • Mr Dale Goldhawk, Chair, Alzheimer's Disease International, (Canada) • Mr Zbigniew Tomczak, President, Polskie Stowarzyszenie Pomocy Osobom z Chorobą Alzheimera, (Poland) | |

Sessions in Shanghai A/B, Beijing A and Beijing B are being live streamed and will be available on the virtual platform, 24 hours after the session has finished

ON-DEMAND SCIENTIFIC PROGRAMME

Less common dementias and stages of dementia

Dr Csaba Kucsera, Faculty of Social Sciences, Eötvös Loránd University (Hungary)

| | | | |
|-----|--------|---|---|
| 690 | I1-001 | Comparison of macro-structural narratives between Mild Cognitive Impairment and healthy ageing | Dr Quan Yao, School of Foreign Languages, Tongji University (China) |
| 582 | I2-002 | Interdisciplinary psychosocial sensory interventions for persons living with moderate to advanced stage dementia in the long-term care setting in Singapore | Ms Jolene Yee, Ren Ci Hospital (Singapore) |
| 375 | I3-003 | Maintenance effects of short-period isodose intensive expressive arts program in the elderly with mild cognitive impairment: A pilot study | Dr Yuting Luo and Yulian Li, The School of Nursing, Fujian Medical University (China) |
| 139 | I4-004 | Childhood dementia: the collective impact and opportunities for intervention | Dr Kristina Elvidge, Childhood Dementia Initiative (Australia) |
| 621 | I5-005 | The State of Advance Directives for People with Dementia in Japan: A Survey of Family Caregivers in the Middle to Late Stage of Dementia | Ms Naoko Hara, Alzheimer's Association Japan Research and Survey Committee (Japan) |

Assistive technology, AI and innovation

Ms Wendy Weidner, Alzheimer's Disease International (United Kingdom)

| | | | |
|-----|---------|--|---|
| 385 | I18-001 | Mobile lifestyle intervention using smartphone apps for MCI older adults: a feasibility and acceptability study | Dr Rong Lin, Fujian Medical University (China) |
| 530 | I18-002 | CLEAR-AI: empowering people living with dementia and their carers to understand and reduce distress. | Dr Frances Duffy, Northern Health and Social Care Trust (United Kingdom) |
| 171 | I18-003 | Diagnosis of Alzheimer's disease based on drawing tasks | Dr Klaudia Kozłowska, Department of Biomedical Engineering, Wroclaw University of Science and Technology (Poland) |
| 812 | I18-004 | Enhancing Clinical Dementia Diagnostics with Multimodal Deep Learning | Mr Gianmarco Guarnier, AICURA medical (Germany) |
| 761 | I18-005 | Supporting Self-Management of Medications in Persons Living with Mild Cognitive Impairment | Dr Kathleen Insel, University of Arizona (USA) |
| 196 | I18-006 | Building A.D.A. (the Automated Dementia Assistant). Working with people with dementia and care partners to co-design and co-create a bespoke multimodal wearable product to enhance autonomy, independence and quality of life. Longitude on Dementia Prize winners. | Dr Lynne Barker, Sheffield Hallam University (United Kingdom) |
| 90 | I18-007 | Identification of possible Dementia (Alzheimer's) condition based on formalized handwriting analysis | Dr Yury Chernov, IHS Institute for Handwriting Sciences (Switzerland) |
| 425 | I18-008 | Using innovation in technology to engage in dementia care | Dr Tanya Petrovich, Dementia Australia (Australia) |

Dementia research and innovation

ON-DEMAND SCIENTIFIC PROGRAMME

Non-pharmacological interventions

Ms Li-Yu Tang, TADA (Chinese Taipei)

| | | | |
|-----|---------|---|--|
| 32 | I24-001 | A creative arts approach to working with people living with younger onset dementia and their families to support interpersonal engagement and enhance personhood. | Dr Gemma Collard-Stokes, University of Derby (United Kingdom) |
| 592 | I24-002 | Re ² ignite: An interdisciplinary Psychosocial Innovation for Persons living with dementia | Ms Nur Sahara Kamsani, Ren Ci Hospital (Singapore) |
| 263 | I24-003 | The "SOUND" study protocol: a non-pharmacological music-based intervention for older people with dementia and dementia care professionals | Dr Sara Santini, INRCA IRCCS (Italy) |
| 270 | I24-004 | Combined multimodal exercise and cognitive training for older adults with mild dementia: A mixed-methods four-arm pilot randomized controlled trial | Miss Dandan XUE, School of Nursing, Li Ka Shing Faculty of Medicine, The University of Hong Kong (China) |
| 381 | I24-005 | Assessing the efficacy of an integral art-based cognitive intervention for older adults with Alzheimer's disease | Dr Yuan Yan, Fujian provincial hospital (China) |
| 640 | I24-006 | Some Dance to Remember - Celtic Connections | Ms Jennifer Moran Stritch, Technological University of the Shannon (TUS) (Ireland) |
| 369 | I24-007 | Language use in multi-infarct/vascular dementia as seen in 238 YouTube posts | Dr Boyd Davis,, University of North Carolina-Charlotte (USA) |
| 111 | I24-008 | What is intended by the term "participation" and what does it mean to people living with dementia? | Dr Sarah Kate Smith, University of Manchester (United Kingdom) |

Attitudes, awareness and stigma 1

Mrs Marlene Freislich, Association for Dementia and Alzheimer's South Africa (ADASA) (South Africa)

| | | | |
|-----|--------|--|--|
| 596 | I2-001 | Dementia Awareness: The Power of Social Media Influence | Ms Sradha Sudarsanan, The Alzheimer Society of Ireland (Ireland) |
| 700 | I2-002 | Conscious-creating metaphors and uplifting narratives as gamechangers to support human flourishing. Experiences from the field of dementia in Denmark. | Mrs Vibeke Bach, Energy2work (Denmark) |
| 403 | I2-003 | Cognition, gender and dementia literacy are associated with increased modifiable dementia risk in rural and remote adults | Miss Laura Dodds, MARCS Institute, Western Sydney University (Australia) |
| 172 | I2-004 | How theatre as art and public forum can foster dementia awareness | Ms Mary Crescenzo, AlzAuthors (USA) |
| 320 | I2-005 | Intergenerational co-design of a serious game to raise dementia awareness for children | Prof Christine Brown Wilson, Queen's University Belfast (United Kingdom) |

Dementia research and innovation

Dementia awareness and friendliness

ON-DEMAND SCIENTIFIC PROGRAMME

| | | | |
|--|---------|---|---|
| 563 | I2-006 | Empowering Communities: Social Media's Role in Raising Awareness about Alzheimer's and Related Dementia | Mr Carlos Olivas III, Carepartner/ Volunteer Alzheimer's Advocate (USA) |
| 459 | I2-007 | Airport Universal Design: Views from Us Living with Dementia | Ms Miki Sato, Dementia Envoy for Tokyo (Tokyo) |
| Diverse populations – inclusion, equality, cultural issues | | | |
| 40 | I26-002 | Presenting the Amelesia Training Programme. A Communicative Approach. Learn to hold sustained conversations with people living with dementia. Piloted in 2018 by 16-18 year-old students in England, this programme teaches current understanding of dementia with face-to-face workshops and visits to residents living in a care home. | Dr Mina Drever, MinaDrever Limited (United Kingdom) |
| 285 | I26-003 | Mixed-heritage families surviving dementia: cross-cultural perspectives. (This paper records contemporary histories of migrant families in managing degenerative diseases affecting human cognition and human memory. An anthology of testimonies are provided by family carers of mixed heritage ancestries who are challenged by conflicting norms, ideas and expectations of managing Dementia.) | Mrs Diane Allen West, University of the West Indies, Mona (Jamaica) |
| 97 | I26-004 | Singapore's Second National Survey of Attitudes Towards Dementia | Prof Rosie Ching, Singapore Management University (Singapore) |
| 401 | I26-005 | KòMee - (Come Along) connects people with younger onset dementia and young adults, studying human science in higher education. Students take persons with younger-onset, out of the group in residential /day care centers, doing individual, meaningful activities or duo volunteer work, according to wishes and needs. We also offer Communication Methodology. | Mrs Elena de Ru and Mr Paul Braem, Director residential/day care center (Belgium) |
| 433 | I26-006 | EQUALity of opportunity for TimEly dementia diagnosis (EQUATED); a qualitative study exploring the lived experiences of prodromal dementia in minoritized ethnic communities in East London, UK. | Ms Christine Carter, Queen Mary University (United Kingdom) |
| 42 | I26-007 | Perceptions of the term chi dai zheng (痴呆症) – different views amongst the participants | Mrs Mei Champ, University of the West of England (United Kingdom) |
| 574 | I26-008 | DECIDE - Diverse experiences of End of Life Care for dementia - Establishing Consensus and Capacity for future research through Collaboration and Co-production | Dr Marie Poole, Newcastle University (United Kingdom) |

Dementia awareness and friendliness

ON-DEMAND SCIENTIFIC PROGRAMME

Attitudes, awareness and stigma 2

| | | | |
|-----|--------|---|---|
| 169 | I8-001 | Key considerations for professionals who communicate with the public about dementia risk and prevention: An initiative led by the Dementia Carers Campaign Network. | Dr Eithne Heffernan and Mrs Helena Quaid, The Alzheimer Society of Ireland (Ireland) |
| 355 | I8-002 | The co-design of an Indonesian Dementia Awareness Game | Dr Sri Mulyani, Faculty of Medicine, Public Health and Nursing, Universitas Gadjah Mada (Indonesia) |
| 600 | I8-003 | 'Not the End of the World' – A Story of Two Actors Helping to Reduce Stigma in Ireland | Ms Niamh Burke, The Alzheimer Society of Ireland (Ireland) |
| 204 | I8-004 | Let's Reimagine: Using Collaborative Music-Making to Challenge Stigma Associated with Dementia | Dr Sherry Dupuis, University of Waterloo (Canada) |
| 438 | I8-005 | Dementia awareness: The Maldives Story | Ms Mariyam Fiyaza, Alzheimer's Society of Maldives (Maldives) |
| 418 | I8-006 | Richness of emotion in people with dementia | Dr Ayako Onzo, Graduate School of Arts and Sciences, The University of Tokyo (Japan) |

Community partnerships / Public-Private-People partnerships

Ms Ana Gratacos, Alzheimer Iberoamerica (Puerto Rico)

| | | | |
|-----|---------|---|---|
| 550 | I15-001 | A decade of research excellence in the co-designing and implementation of innovation in rural dementia models of care in Australia | Prof Irene Blackberry, Care Economy Research Institute, La Trobe University (Australia) |
| 91 | I15-002 | Inclusivity of Persons Living with Dementia through a Human-Centric Research Design | Dr May Yeok and Ms Wen Lei Ng, Nanyang Polytechnic (Singapore) |
| 639 | I15-003 | Using a multi-sectoral collaborative approach to better understand the experience of people impacted by mild Alzheimer's Disease we uncovered a diagnosis dichotomy. We need to do better. We must make diagnosis easier. | Ms Laura Tamblyn-Watts, CanAge (Canada) |
| 157 | I15-004 | The development and implementation of Mobile Dementia Units (MDUs): Athens Alzheimer Association case | Dr Areti Efthymiou, Athens Alzheimer's Association (Greece) |
| 195 | I15-005 | Partnership approaches: Reducing fire risk for people living with dementia and carers | Mrs Emma Murdoch, Cardiff and the Vale Regional Partnership Board (United Kingdom) |
| 221 | I15-006 | Thematic analysis of stakeholders' perception on challenges related to caring people living with dementia and on home-based dementia care- a qualitative study | Dr Subhadra K T, Kerala University of Health Sciences (India) |

Dementia awareness and friendliness

ON-DEMAND SCIENTIFIC PROGRAMME

| | | | |
|-----|---------|---|---|
| 448 | I15-007 | The Impact a Diagnosis of Dementia has on the Person who becomes the carer / supporter | Ms Cíara O'Reilly, The Alzheimer Society of Ireland (Ireland) |
| 694 | I15-008 | Dementia awareness the pillar of creating dementia friendly communities: the impact generated by community, private and people partnership in awareness- case study, Ghana. | Mr Venance Dey, University of Ghana (Ghana) |

Dementia and design & environment and architecture for dementia

| | | | |
|-----|---------|--|---|
| 134 | I28-001 | The perspective of residents living with dementia towards the built environment in nursing homes – insights into a walking interview study | Mrs Anne Fahsold, Witten/ Herdecke University, School of Nursing Science (Germany) |
| 155 | I28-002 | Taking Insights from Non-dementia Friendly Homes to Facilitate Ageing In Place Design | Ms Eurydice Rayanna Chan, Polytechnic University of the Philippines (Philippines) |
| 649 | I28-003 | Alzheimer's shared houses, an alternative to the dual choice between home and nursing home. | Mr Alain Bérard, Fondation Médéric Alzheimer (France) |
| 657 | I28-004 | Spatial inequalities in dementia care: A scoping review | Dr Flávia Machado, Faculty of Arts and Humanities, University of Coimbra (Portugal) |
| 689 | I28-005 | People with dementia evaluating the built environment as co-researchers: Insights from a participatory action research project (INCLUDE) | Dr Saskia Kuliga,, University of British Columbia (Canada) |
| 718 | I28-006 | Mapping access to outdoors in the experience of the dementia care environment – a cross-cultural study. | Dr Alexia Mercieca, University of Malta (Malta) |

Engaging people with dementia and carers in advocacy, policy and research & dementia policy and plans including #WhatsYourPlan Campaign

Mr Matthew Baumgart, Alzheimer's Association (USA)

| | | | |
|-----|--------|---|---|
| 203 | I3-001 | 'Co-production and collaboration: Creating the Allied Health Professionals Dementia Framework for Wales together' | Mrs Laura Braithwaite, Betsi Cadwaladr University Health Board (United Kingdom) |
| 61 | I3-002 | The impact of a collaborative approach on the development and delivery of creative workshops for people living with younger onset dementia and their families: Reflections from the consultation team | Mr Peter Middleton, University of Derby (United Kingdom) |
| 295 | I3-003 | Growing capacity of PPI contributors to affect change in the dementia research environment; Lessons learned from an Irish research knowledge exchange seminar | Dr Diane O'Doherty, The Alzheimer Society of Ireland (Ireland) |
| 646 | I3-004 | Community pláticas: Engaging Latino stakeholders to define community-driven dementia care research priorities | Dr Sara Masoud, University of Texas Health Science Center at San Antonio (USA) |
| 730 | I3-005 | Dementia Comprehensive Care: the pioneering of the state of Rio Grande do Sul in Brazil | Mrs Júlia Schneider, Rio Grande do Sul Health's Department State (Brazil) |

Dementia awareness and friendliness

Dementia as a public health priority

ON-DEMAND SCIENTIFIC PROGRAMME

| | | | |
|-----|--------|---|--|
| 788 | I3-006 | Advocating for Change: A State-Level Dementia Action Plan in Karnataka, India | Mr S Premkumar Raja, Dementia India Alliance (India) |
| 431 | I3-007 | Dementia in the Commonwealth | Ms Rianna Patterson, University College, London (United Kingdom) |
| 206 | I3-008 | Strengthen services for people living with dementia in New Zealand | Ms Catherine Hall, Alzheimer's New Zealand (New Zealand) |
| 804 | I3-009 | Strengths and shortcomings of public policies and support services for older persons with dementia in the GCC Arab region | Dr Suzanne H. Hammad, Independent Consultant (United Kingdom) |

Dementia, human rights and equitable society, economic of dementia & healthcare system readiness

Dr Cleusa Ferri, Universidade Federal de Sao Paulo (Brazil)

| | | | |
|-----|---------|---|--|
| 84 | I12-001 | Legally relevant regulations for people with dementia. Examining legal problem areas from an ethical standpoint. | Dr Barbara Stulik, The Austrian National Public Health Institute (Gesundheit Österreich GmbH, GÖG) (Austria) |
| 319 | I12-002 | The economic cost of caring in Ireland: The impact of the Cost of Living Crisis on family carers and taking action to address it | Dr Diane O'Doherty, The Alzheimer Society of Ireland (Ireland) |
| 758 | I12-003 | Peruvian healthcare system readiness for dementia | Mr Francisco Tateishi, Universidad Peruana Cayetano Heredia (Peru) |
| 352 | I12-004 | Whether is living longer a benefit? | Dr Osman Kučuk, Centre for dementia (Bosnia and Herzegovina) |
| 261 | I12-005 | The Communities that many forget. | Mr Martin Robertson and Ms Chandrika Kaviraj, Lived Experience Advocate (United Kingdom) |
| 351 | I12-006 | Integrating old-age mental health care and policy in mental health services and policy in Somaliland. The case study of a conflict setting | Dr Djibril Moussa, Amoud University (Somalia) |
| 308 | I12-007 | Advancing dementia research through implementation science | Dr Anita Goh, National Ageing Research Institute (Australia) |
| 531 | I12-008 | Societal costs of dementia | Dr Amy Lastuka, Institute for Health Metrics and Evaluation (USA) |
| 383 | I12-011 | A critical examination and realist review of resource allocation for dementia care in LMIC context: pharmacological solutions vs. human-based care system | Dr Kim-Huong Nguyen, The University of Queensland (Australia) |

Dementia as a public health priority

ON-DEMAND SCIENTIFIC PROGRAMME

| | | | |
|--|---------|--|---|
| 144 | I12-009 | Multi-stakeholder shaping of the research agenda for better policy and support for people with dementia and their care partners in future crises – learning from the COVID-19 pandemic | Dr Geeske Peeters, Radboud University Medical Center (Netherlands) |
| 373 | I12-010 | Dementia, the most hit but most ignored during the pandemic, an untold truth in Malaysia | Dr Cecilia Chen, Taylor's University (Malaysia) |
| Risk factors Dr Yared Zewde, Alzheimer Ethiopia (Ethiopia) | | | |
| 437 | I4-001 | Acquired hearing loss: examining associations with other risk factors for insights, innovations, and inspirations in dementia risk reduction | Prof James Vickers, University of Tasmania (Australia) |
| 783 | I4-002 | Frequency of social isolation among older adults in Nepal | Ms Prabha Shrestha, Kathmandu University School of Medical Sciences (Nepal) |
| 786 | I4-003 | Dementia Risk Awareness, Healthy Lifestyle, and Factors Influencing Motivation for Dementia Prevention in Middle-Aged And Older Adults | Dr Seda Güney, Koç University (Turkey) |
| 713 | I4-004 | Analysis of plasma gingipain K and R level and APOE genetic variants inpatients with Alzheimer's disease | Mr Mikołaj Hurta, Laboratory of Neurobiology, Department of Neurology, Poznan University of Medical Sciences (Poland) |
| 312 | I4-005 | Does motor decline can be a modifiable marker of clinical progression in subjective cognitive decline?: A national prospective cohort study | Miss Ran An, Peking University (China) |
| 496 | I4-006 | Changes in cognitive functioning in older adults with dementia due to lifestyle and psychological variables: A multivariate multiple regression model approach. | Miss Vasundhara Shukla, All India Institute of Medical Sciences (India) |
| 673 | I4-007 | Correlation Analysis of Subjective Memory Complaints Across Different Populations | Miss Aidina Aisikeer, Shanghai Mental Health Center (China) |
| 797 | I4-008 | Lifestyle, brain damage and dementia risk: Findings from studies with the Lifestyle for Brain Health index | Prof Sebastian Köhler, Maastricht University (Netherlands) |
| Risk reduction and prevention (including clinical trials) Ms Catherine Hall, Alzheimer's New Zealand (New Zealand) | | | |
| 800 | I16-001 | What happens when a busy, enthusiastic, doctor-daughter is suddenly thrown into caring for her estranged father when he was diagnosed with Alzheimer's? | Dr Helena Popovic, University of Sydney (Australia) |
| 399 | I16-002 | MindCare: Culturally appropriate dementia risk reduction training for Culturally and Linguistically Diverse communities-a protocol. | Dr Josefina Antoniadis, National Ageing Research Institute (Australia) |
| 547 | I16-003 | Introducing a brain health education and promotion pathway for patients with mild cognitive impairment diagnosed at a memory service in New Zealand. | Miss Johanna O'Leary, Te Whatu Ora Counties Manukau (New Zealand) |

Dementia risk reduction

ON-DEMAND SCIENTIFIC PROGRAMME

| | | | |
|--|---------|---|---|
| 252 | I16-004 | Food, cooking and dementia | Ms Emily Ong, Dementia Alliance International (Singapore) |
| 200 | I16-005 | Hormonal contraception and brain health in young women: A scoping review of the evidence | Dr Sarah Gregory, University of Edinburgh (United Kingdom) |
| 599 | I16-006 | Reach for the STARS: The My Amazing Brain schools programme. | Mrs Sophie Fraser, Brain Health Scotland (United Kingdom) |
| 337 | I16-007 | Myeloproliferative neoplasms and risk of dementia: a population-based cohort study | Dr Yuelian Sun, Department of Clinical Epidemiology, Aarhus University Hospital, Aarhus University (Denmark) |
| 590 | I16-008 | Satire and brain health: Piloting a comedy roadshow about dementia risk reduction across England | Prof Victoria Tischler, University of Surrey (United Kingdom) |
| 557 | I16-009 | Probiotics that ameliorate cognitive impairment through anti-inflammation and the progress of a double-blind, randomized, placebo-controlled clinical trial for cognitive improvement | Prof Kun Ho Lee, Chosun University (Korea, Republic of) |
| Risk reduction and prevention (including clinical trials) 2 Prof Emiliano Albanese, University of Geneva (Switzerland) | | | |
| 502 | I17-001 | Knowledge of dementia risk factors and multi-level barriers to risk reduction in a remote Peruvian young adult population | Dr Maritza Pintado-Caipa, Global Brain Health Institute (Ireland) |
| 234 | I17-002 | Nutrients and Polyphenols-Rich Sorghum Genotypes as Complementary Therapy For Alzheimer's Disease | Mr Rasheed Abdurraheem, Edith Cowan University (Australia) |
| 603 | I17-003 | Development of a Cognitive Training Support Programme for prevention of dementia and cognitive decline in at-risk older adults. | Dr Celeste de Jager Loots, Ageing Epidemiology Research Unit, School of Public Health, Imperial College London (United Kingdom) |
| 126 | I17-004 | A study exploring attitudes to risk assessment and management among specialist dementia nurses | Miss Amy Pepper, Dementia UK (United Kingdom) |
| 408 | I17-005 | Self-Determination Theory-Based Integrated Creative Art (SDTICA) Program: A Multicenter Randomized Controlled Trial in Nursing Homes for Older Adults with Mild Cognitive Impairment | Ms Chenshan Huang, Fujian Medical University (China) |
| 207 | I17-006 | Causal evidence that herpes zoster vaccination prevents or delays a proportion of dementia cases: a natural experiment in Wales | Dr Pascal Geldsetzer, Stanford University (USA) |
| 443 | I17-007 | Evaluation of Remotely Supervised Aerobic Training and Resistance Training in Older People with MCI: A Three-arm Randomized Controlled Trial from PACE Project | Dr Xiuxiu Huang, Shanghai Jiaotong University (China) |

Dementia risk reduction

ON-DEMAND SCIENTIFIC PROGRAMME

| Psychosocial interventions Prof Joanna Rymaszewska, Wroclaw University of Science and Technology (Poland) | | | |
|--|--------|--|---|
| 4 | I5-001 | Caregiver's Voices at the CHAMP Clinic | Ms Alice Allen-Redfern and Dr Lama Sibai, University of Washington (USA) |
| 548 | I5-002 | The ripple effect: Outcomes of a volunteer dementia visiting program in residential aged care homes | Ms Annaliese Blair, Australian National University (Australia) |
| 478 | I5-003 | Music4theMind: A non-randomised feasibility trial of an individual music therapy intervention for managing the needs and symptoms of care home residents living with dementia | Miss Kiera Kenny, Cambridge Institute for Music Therapy Research, Anglia Ruskin University (United Kingdom) |
| 485 | I5-004 | The Rise and Rise of Meeting Centres in the UK: Opportunities and Challenges for the Future | Dr Shirley Evans and Mr Ron Coleman, The University of Worcester, Deepness Dementia Media (United Kingdom) |
| 755 | I5-005 | A researcher's dilemma: How to facilitate widespread uptake of an evidence-based psychosocial intervention such as the NYU Caregiver Intervention in the face of organizational and cultural impediments, while encouraging fidelity to its essential elements | Prof Mary Mittelman, NYU Langone Health (USA) |
| 447 | I5-006 | Intergenerational Dementia Intervention - The Buddy Programme | Ms Cíara O'Reilly, DCU (Ireland) |
| 513 | I5-007 | The NOMAD project. On the implementation and evaluation of an interprofessional model of non-pharmacological dementia care set up in North Macedonia | Dr Milos Milutinovic, University Clinic of Psychiatry (Macedonia, the former Yugoslav Republic of) |
| Rehabilitation & support for people living with dementia Ms Maree McCabe, Dementia Australia (Australia) | | | |
| 114 | I7-001 | The big impact of little things: the valued care strategies incorporated into the daily care of people living with dementia in care home settings under the underdeveloped dementia care services in rural areas of China | Miss Xiaoyang Li, School of Health in Social Science, University of Edinburgh (United Kingdom) |
| 141 | I7-002 | Using electronic healthcare record data in the evaluation of the Dementia PersonAlised Care Team (D-PACT) intervention | Dr Stuart Spicer, University of Plymouth (United Kingdom) |
| 539 | I7-003 | Living Well with Dementia: A Qualitative Study of The Lived Experiences of Persons Living with Mild Dementia in Singapore | Miss Jasmine Gomez, Dementia Singapore (Singapore) |

Support for dementia carers

ON-DEMAND SCIENTIFIC PROGRAMME

Each day pre-recorded sessions will be released on the virtual platform and then all available for a month for viewing.

Wednesday 24 April 2024

Less common dementias and stages of dementia

Attitudes, awareness and stigma 1

Engaging people with dementia and carers in advocacy, policy and research & dementia policy and plans including #WhatsYourPlan Campaign

Risk factors

Psychosocial Interventions

Education and training for informal carers 3

Dementia diagnosis, treatment, care and support: Rehabilitation & support for people living with dementia

Diverse populations – inclusion, equality, cultural issues

Dementia therapies (Music, dance, art etc.)

Friday 26 April 2024

Risk reduction and prevention (including clinical trials)

Risk reduction and prevention (including clinical trials) 2

Assistive technology, AI and innovation

Biomarkers

Informal carers support – pre, during and post 2

Informal carers support – pre, during and post 3

Treatment and dementia & behavioural and psychological symptoms of dementia

Well being and quality of life

Non-pharmacological interventions

Post diagnostic support for people with dementia and carers

Thursday 25 April 2024

Attitudes, awareness and stigma 2

Education and training for informal carers 2

Informal carers support – pre, during and post

Education and training for professionals and formal carers

Dementia, human rights and equitable society, economics of dementia & healthcare system readiness

Models of care

Diagnosis, diagnostic tools and cognitive assessment

Community partnerships / Public-Private-People partnerships

Education and training for professionals and formal carers 3

Dementia and design & environment and architecture for dementia

POSTER PRESENTATIONS

Many posters will be available to view both onsite and on the virtual platform however those with a poster number starting with V are only available on the virtual platform.

GENERAL CONFERENCE INFORMATION

Abstracts

Abstracts are available as a PDF file on the conference website at www.adiconference.org

Catering

Tea, coffee, snacks and lunch will be provided during the coffee break within the designated catering areas in the Exhibition Hall.

Certificates of attendance

General certificates of attendance are in your delegate bag. If you misplace your certificate, please contact Alzheimer's Disease International (ADI) after the conference at events@alzint.org

Cloakroom

A cloakroom is available on the ground floor.

Conference badges

The conference badge should be worn at all times in order to gain entry to the session rooms and the exhibition area as allowed by your registration. At the end of the conference please return your badge and lanyard if you would like these to be recycled.

Courtesy of the Kraków Convention Bureau all registered delegates will be provided with a free public transport pass for 24-26 April, which will be provided with your registration badge.

Emergencies

In case of an emergency please call the emergency services on 112.

If you need to contact the organisers outside of the registration desk opening hours please contact Alzheimer's Disease International staff on +44 207 981 0885 or +44 7929 526 285.

Evaluation

Your feedback is invaluable in helping us develop the conference in future years. The conference evaluation will be issued by email after the conference. We'd really appreciate you taking the time to complete the form and look forward to receiving your feedback.

Film showings

Selected films from around the globe will be showing in the Tianjin B room. The timetable for the films can be seen in the full programme.

Helpful telephone numbers

For general conference queries please go to the registration desk. If the registration desk is closed, please call Jane Cziborra or Megan Anderson on +44 207 981 0885.

Language guidelines

It is important to ADI that presenters use appropriate language, a few examples are highlighted below and we would encourage all those presenting to look at the language guidelines on the conference website at www.adiconference.org/abstracts

The following points highlight preferred terms next to the terms we advise presenters not to use:

- Dementia/a form or type of dementia/symptoms of dementia – not Dementing illness, Senile dementia
- Person living with dementia, diagnosed with dementia – not Sufferer, Victim, Demented person, Patient (unless in a specific medical context)
- Younger onset dementia – not Early onset dementia

Photography and filming

An official photographer and videographer will be present during the conference. By participating in this conference you grant ADI full rights to use the images resulting from the photography/video filming, and any reproductions or adaptations of the images for publicity, press releases, fundraising or other purposes to help achieve ADI's aims.

Programme

The programme is available in the virtual platform and in the programme book. You can also find an online version of the programme at www.adiconference.org/programme along with a downloadable PDF file of the programme book.

Registration desk

The registration desk is located in the foyer on the First floor of the Metropolo by Golden Tulip Hotel. It will be open during the following times:

| Date | Open | Close |
|--------------------|--------|--------|
| Tuesday 23 April | 5:00pm | 7:00pm |
| Wednesday 24 April | 7:00am | 6:30pm |
| Thursday 25 April | 7:00am | 5:30pm |
| Friday 26 April | 8:00am | 5:00pm |

Smoking

Smoking is prohibited in the conference venue.

Volunteers and staff

Volunteers are wearing red conference branded t-shirts. If you need assistance, please let us know.

Presentations

Presentations should have been uploaded prior to your session. If there is an issue please raise this well in advance of your session, by contacting Jane Cziborra or Megan Anderson on events@alzint.org or speaking to one of the AV team in the session rooms.

Programme changes

The organiser reserves the right to make changes if necessary. No full or partial refunds will be made to the attendees in the event of cancellation or other changes in the programme.

Welcome reception

An in-person welcome reception will be held on the first day of the conference (24 April), starting at 5:30pm in the Exhibition space.

WiFi

Complimentary WiFi can be accessed throughout the session rooms and Exhibit Hall on all conference days.

INFORMATION FOR PEOPLE LIVING WITH DEMENTIA

Welcome meeting

To welcome delegates with dementia and their accompanying person we will be holding an informal welcome meeting on Tuesday 23 April 4:15pm - 5:15pm in the Shenzhen A/B room on the first floor of the Metropolo by Golden Tulip. This will provide people with supporting information and the opportunity to get to know one another before the conference begins.

Quiet room for people with dementia

The Shenzhen A/B room on the first floor is the quiet room for people living with dementia and their support partners or carers. It is a space to relax, meet new friends and take time out from the busy conference. The room will be open at the times below and will serve tea and coffee throughout the day, with light refreshments during the breaks.

| Date | Open | Close |
|--------------------|--------|--------|
| Wednesday 24 April | 7:30am | 5:30pm |
| Thursday 25 April | 7:30am | 5:30pm |
| Friday 26 April | 7:30am | 5:30pm |

Get Involved!

Follow us on social media **@alzdisint** to keep up with the latest insights, innovations and inspirations on dementia.

Share your highlights from the conference and join the global conversation by using the hashtag **#ADI2024**

     **@AlzDisInt** **#ADI2024**

TRAVEL AND LOCAL INFORMATION

Things to do

ADI is working with Symposium Cracoviense who are offering tours on the days either side of the conference. More information can be found at <https://adi2024.bookingarea.bokun.io/booking-area/view/product-list/57575>

If you have any specific enquiries please contact Agnieszka Bryk at agnieszka.bryk@symposium.pl or speak to the staff at the registration desk.

For information on what to do in Kraków and general advice visit the Krakow tourism board's website <https://krakow.travel/>

At INFOKRAKÓW points you can obtain information about tourist attractions of the city and the surrounding area, cultural events, accommodation, buy tickets, hire a guide and obtain free promotional materials. You can see where the points are at <https://infokrakow.pl/>

Parking

Parking is available at the Metropolo Hotel by Golden Tulip, for registered conference delegates during the conference programme hours.

Within Krakow there are different parking zones with different tariffs associated with the zone, more details can be found at https://www.krakow.pl/komunikacja/241657,artykul,mapa_strefy.html

Public transport

Courtesy of the Kraków Convention Bureau, all registered delegates will receive a public transport pass with their registration badge for free travel from 24-26 April.

Kraków has a good public transport system. The nearest tram stop to the conference venue is Borek Fałęcki. Trams 8, 19, 22 or 50 go from the city centre. Details on Krakow's public transport system can be

found at <https://ztp.krakow.pl/kmk> with ticket prices at <https://ztp.krakow.pl/kmk/przewodnik-po-biletach-kmk> You can plan your journey using Google Maps or by going to <https://jakdojade.pl/krakow>

Money

The Polish currency is the Polish Złoty (zł or PLN).

You can exchange money at exchange offices and banks. Banks usually charge a commission for the service, which can make it a less favourable exchange. When exchanging money at exchange offices, you should pay attention to the exchange rates offered and possibly compare them with other exchange offices. Before starting the transaction, it is recommended you calculate the amount according to the exchange rate shown at the entrance to the currency exchange office.

To compare exchange rates, you can also use the information on the National Bank of Poland's website www.nbp.pl where foreign currency exchange rates are posted.

Most credit and debit cards are widely accepted in restaurants, bars, cafes and shops in Kraków. Contactless payment cards are used in Poland, and many businesses accept them. Non-Polish cards may incur an overseas transaction fee. Fees vary by card and by bank, so check with your card issuer before using your card.

Taxis

Taxis can be hailed on Kraków centre. Some take payment by card, but please double check before starting your journey. You can also get taxis through the mobile app UBER.

Telephone

The international dialling code for Poland is +48.

JPAD
The Journal of Prevention of Alzheimer's Disease

People with early Alzheimer's disease have been shown to have low levels of a number of key nutrients (such as Omega 3 fatty acids, Uridine, Choline, B vitamins, Antioxidants, Phospholipids) that are important for brain health. Our researchers and collaborators have spent over 15 years studying the role of specific nutrient combinations in the formation and function of synapses and the consequences of deficits in key nutrients in the brain.

Building on more than a century of nutritional research and innovation, Nutricia continues to transform lives through pioneering nutritional solutions.

LILLY IN ALZHEIMER'S DISEASE:

ADVANCING THE SCIENCE, CARING FOR PEOPLE

At Lilly, patients and loved ones are at the center of everything we do. For over 30 years, we have been committed to the development of both diagnostics and therapeutics in the AD space. Through our innovation, we have advanced the field by helping to set new standards for Alzheimer's disease research.
