## Welcome from Alzheimer's Disease International (ADI)

### Jacob Roy Kuriakose

Chairman,  
Alzheimer's Disease  
International

Dear friends and colleagues,

It is my proud privilege to welcome you all to the 29th International Conference of Alzheimer's Disease International (ADI), hosted alongside Asociación de Alzheimer y Desórdenes Relacionados de Puerto Rico.

As the theme of this conference suggests, Dementia: Working Together for a Global Solution, dementia is a growing international challenge, one which requires global cooperation. Following the historical G8 Dementia Summit at the end of last year, we hope to see a much greater emphasis on global awareness and improvements in health and social policy, which can only be achieved if all countries in the world work together.

We are happy to be back in the Latin American region, where we last met in Venezuela in 2007. The conference programme promises a diverse and exciting event which will look at the latest dementia research, highlight best practice in care and address public policy issues. You will have the opportunity to engage with the speakers during the sessions as well as plenty of time to network and meet with your peers from across the globe throughout the conference.

During the event we will be presenting the fourth ADI Award to Dr Martin Prince, Professor of Epidemiological Psychiatry at the Institute of Psychiatry in London, coordinator of the 10/66 Dementia Research Group and author of ADI's World Alzheimer Reports. We will be recognising his outstanding contribution to dementia awareness and tireless commitment to ADI. During the conference, the winners of the second ADI-MetLife Awards for best dementia care education projects and the first ADI-Home Instead Family Carer of the Year Award will also be announced.

San Juan is a beautiful city, the historic heart of bustling Puerto Rico. It is a beautiful island between North America, the Caribbean and Latin America in a country popularly known in Spanish as 'la isla del encanto' meaning "the island of enchantment".

I would like to thank the Asociación de Alzheimer y Desórdenes Relacionados de Puerto Rico, particularly the Local Organising Committee (LOC) and LOC Chair, Enna Santiago, for their remarkable efforts in helping us to organise this event. Their dedication, commitment and team work are truly admirable.

I sincerely hope that this conference will lead to greater things in the field of dementia both in Puerto Rico, Latin America and around the world.

I am sure you will find this conference both enjoyable and valuable with lots of opportunities to expand your networks and gather new information which will help in your work to improve the lives of people with dementia and their families.

With all good wishes,

Jacob Roy Kuriakose  
Chairman  
Alzheimer's Disease International

## Mensaje de Bienvenida de la Asociación Internacional de Alzheimer (ADI)

Jacob Roy  
Kuriakose

Presidente,  
Alzheimer's Disease  
International

Queridos amigos y colegas,

Es un orgullo y privilegio poder darle la bienvenida a la 29ª Conferencia Internacional de Alzheimer (ADI), junto a la Asociación de Alzheimer y Desórdenes Relacionados de Puerto Rico.

Como nos sugiere el tema de esta conferencia, "Demencia: Trabajando Juntos por una Solución Global", la demencia es un reto internacional progresivo, uno que requiere la cooperación global. Siguiendo la histórica Conferencia Cumbre G8 celebrada al final del año pasado, esperamos ver un énfasis mayor en la concientización global y mejoramiento en la salud y política social, lo cual solo se puede lograr si todos los países del mundo trabajamos juntos.

Estamos contentos de estar de nuevo en la región de América Latina, en donde nos reunimos en Venezuela en el 2007. El programa de la conferencia promete ser un evento versátil y excitante, que presentará las últimas investigaciones en demencia, destacará las mejores prácticas de cuidado y traerá a nuestra atención asuntos de política pública. Usted tendrá la oportunidad de participar en discusiones con los conferenciantes durante las sesiones, al igual que tendrá tiempo suficiente para establecer contactos y conocer colegas de diferentes partes del mundo durante la conferencia.

Durante el evento presentaremos el cuarto Premio de ADI al Dr. Martin Prince, Profesor de Epidemiología Psiquiátrica del Instituto de Psiquiatría de Londres, coordinador de la Investigación Demencia 10/66 y autor de los Reportes Mundiales de ADI. Estaremos reconociendo su sobresaliente contribución a la concientización sobre demencia e incansable compromiso con ADI. Durante la conferencia estaremos anunciando los ganadores de las siguientes premiaciones: Segundo premio ADI-MetLife para el mejor proyecto educativo dirigido al cuidado de personas con demencia; Primer premio ADI-Home Instead Family Carer of the Year dirigido al mejor cuidador del año.

San Juan es una hermosa ciudad, el histórico corazón del rebotante Puerto Rico. Esta bella isla es un eslabón entre América del Norte, el Caribe y América Latina, muy conocida en el mundo como "la isla del encanto".

Quisiera agradecer a la Asociación de Alzheimer y Desórdenes Relacionados de Puerto Rico, en particular al Comité Organizador Local (LOC) y al Presidente del Comité, Enna Santiago, por sus extraordinarios esfuerzos en ayudar a organizar este evento. Su dedicación, compromiso y trabajo en grupo son verdaderamente admirables.

Espero sinceramente que esta conferencia nos dirija hacia grandes cosas en el área de la demencia en Puerto Rico, América Latina y alrededor del mundo.

Estoy seguro que encontrarán esta conferencia atractiva y valiosa, con muchas oportunidades de expandir sus contactos y adquirir información nueva, la cual les ayudará en el trabajo de mejorar las vidas de personas con demencia y sus familiares.

Con mis mejores deseos

Jacob Roy Kuriakose  
Presidente  
Alzheimer's Disease International

## Welcome from the Local Organising Committee (LOC)

Enna D.  
Santiago

Puerto Rican  
Alzheimer Disease  
and Related  
Disorders'  
Association

Dear friends and colleagues,

On behalf of the Puerto Rican Alzheimer Disease and Related Disorders' Association, I want to give you a warm welcome to the 29th Alzheimer's Disease International Conference, in the beautiful island of Puerto Rico.

We are delighted to host this great scientific event for the first time in our history. "Dementia: Working Together for a Global Solution" will bring together researchers, physicians, allied health care professionals, family caregivers, representatives from national Alzheimer associations around the world and persons living with dementia. This international conference provides the opportunity to share advanced knowledge and expertise in dementia and related disorders.

It is our pleasure that Puerto Rico is hosting an event that will bring together many professionals from different specialties, to share their findings in latest investigations about dementia and lead the route we can take to help persons affected with it. Dementia is not a condition that only affects persons diagnosed with it, but also impacts families and increments an emotional and financial burden on them. Working together for a global solution will bring us updated information about latest findings and best practices to approach dementia, will unravel how persons with dementia approach their life challenges and will guide us to improve the quality of life of affected persons, their caregivers, and families. This conference will help all of us to work together to raise global awareness about dementia.

Please take time to explore Puerto Rico, a beautiful island in the Caribbean. The city of Old San Juan provides the opportunity to visit antique Hispanic castles, cathedrals, museums, observe the walls that surround the city along the Paseo La Princesa, as well as enjoying the vivid life of its shops and restaurants. You will enjoy a visit to an island which offers many attractive amenities, like el Yunque, our rain forest, beautiful beaches, and our splendid cuisine.

Please accept my best wishes for an enjoyable and productive international conference.

Enna D. Santiago  
Conference Chair

## Mensaje de Bienvenida del Comité Organizador Local (LOC)

Enna D.  
Santiago

Asociación  
de Alzheimer  
y Desórdenes  
Relacionados  
de Puerto Rico

Queridos amigos y colegas,

A nombre de la Asociación de Alzheimer y Desórdenes Relacionados de Puerto Rico, quiero darle una calurosa bienvenida a la 29ª Conferencia Internacional de Alzheimer, en la bella isla de Puerto Rico.

Estamos contentísimos de ser anfitriones de esta gran conferencia científica por primera vez en nuestra historia. "Demencia: Trabajando Juntos por una Solución Global", unirá simultáneamente investigadores, médicos, profesionales aliados a la salud, cuidadores familiares, representantes de diferentes asociaciones de Alzheimer alrededor del mundo y personas viviendo con demencia. Esta conferencia internacional ofrece la oportunidad de compartir conocimiento avanzado y pericia en demencia y desórdenes relacionados.

Es nuestro placer que Puerto Rico sea el anfitrión de este evento que unirá muchos profesionales de diferentes especialidades, para compartir los resultados de las últimas investigaciones sobre demencia y dirigir la ruta que podemos tomar para ayudar a personas afectadas. La demencia es una condición que no solo afecta a los que la padecen, sino que impacta las familias e incrementa una carga emocional y financiera en ellos. Trabajando juntos por una solución global nos traerá información actualizada sobre las últimas investigaciones y mejores prácticas para tratar la demencia, nos revelará como las personas con demencia manejan sus retos y nos guiará a mejorar la calidad de vida de personas afectadas. Esta conferencia nos ayudará a trabajar juntos para aumentar la concientización global sobre demencia.

Por favor planifique un tiempo para visitar Puerto Rico, una bella isla en el Caribe. El Viejo San Juan ofrece la oportunidad de visitar antiguos castillos Españoles, catedrales, museos, observar las murallas que rodean la ciudad a lo largo del Paseo de la Princesa, al igual que disfrutar de la vida vigorosa y alegre de sus tiendas y restaurantes. Usted puede disfrutar de una visita a la isla, la cual brinda muchos atractivos, tales como el Yunque, nuestro bosque forestal, hermosas playas y nuestra espléndida forma de cocinar.

Acepte mis mejores deseos de que esta conferencia sea agradable y productiva.

Enna D. Santiago  
Presidente de la Conferencia

## Welcome from Senator Rosanna López León

Rosanna  
López León

Senator,  
Majority Whip

Dear friends and colleagues:

(Bienvenidos)

It is a great honor to welcome you to Puerto Rico, host of the 29<sup>th</sup> International Annual Conference on Alzheimer's disease. According to recent studies, released by Puerto Rico's Department of Health, the Alzheimer disease is the fourth cause of death in Puerto Rico. This same study states that, the mortality rate linked to this terrible disease has increased twenty two (22) percent from the year 2000 to the year 2010. Moreover, studies suggest that the Alzheimer's disease has the third most expensive treatment, preceded by diseases such as cancer and certain heart conditions.

Studies have shown that the elderly are more vulnerable to this horrible disease. Having said that, as a former Advocate for the Elderly, I have always been interested in being part of any effort that pursues the development of the scientific and research fields related to the study of this disease. Nowadays, as a Senator, Majority Whip and Chairwoman of the Civil Rights, Democratic Participation and Social Economy Committee, I have sponsored legislative initiatives regarding this issue.

Undoubtedly, this Conference is a great opportunity for participants from all over the world to share ideas, develop new networks and collaborate together to improve the lives of people with the Alzheimer's disease. I am confident that this event will enrich our knowledge and will give us valuable tools that everyone can put to practice in our respective countries.

I hope you enjoy the beautiful island of Puerto Rico and this exciting Conference.

Best regards,

  
Senator Rosanna López León

## Mensaje de Bienvenida de Senadora

Rosanna  
López León

Senadora por  
Acumulación,  
Portavoz Alterna  
de la Mayoría

Estimados amigos y colegas

**BIENVENIDOS**

Es un gran honor darles la bienvenida a Puerto Rico, sede de la 29ª Conferencia Anual Internacional sobre la enfermedad de Alzheimer. Según estadísticas recurrentes, publicados por el Departamento de Salud de Puerto Rico, la enfermedad de Alzheimer es la cuarta causa de muerte en Puerto Rico. También, este mismo estudio señala que la tasa de mortalidad vinculada a esta terrible enfermedad ha aumentado veintidos (22) por ciento desde el año 2000 hasta el año 2010. Por otra parte, dichos estudios sugieren que la enfermedad de Alzheimer ocupa el tercer lugar como tratamiento más costoso, precedido por enfermedades tales como cáncer y ciertas enfermedades del corazón.

Por otra parte, es importante resaltar que los estudios han demostrado que las personas de edad avanzada son más vulnerables a esta terrible enfermedad que sufra trastorno como el paciente común a sus familiares. ES por esto, que como es Procuradora de las Personas de Edad Avanzada del Estado Libre Asociado de Puerto Rico, siempre he estado interesada en ser parte de cualquier esfuerzo y avance en la ciencia que persiga el desarrollo de los campos científicos y de investigación relacionados con el estudio de esta enfermedad. Hoy en día, como Senadora, Portavoz Alterna de la Mayoría Parlamentaria y como Presidenta de la Comisión de Derechos Civiles, Participación Ciudadana y Economía Social del Senado de Puerto Rico, he patrocinado iniciativas legislativas con respecto a este tema que persigan establecer nuevos paradigmas y política pública dirigida a enfrentar la enfermedad del Alzheimer.

Sin lugar a dudas, esta conferencia es una gran oportunidad para que los participantes de todos partes del mundo puedan compartir ideas, desarrollar nuevas redes de apoyo y colaborar en conjunto para mejorar la calidad de vida de las personas con la enfermedad de Alzheimer. Estoy segura que este evento va a enriquecer nuestro conocimiento y nos dará herramientas valiosas que podamos poner en práctica en nuestros respectivos países.

Espero que disfruten de la hermosa isla de Puerto Rico y de esta emocionante Conferencia.

Saludos Cordiales,

Rosanna López León

## About ADI and AADRPR

**Alzheimer's Disease  
International**

*The global voice on dementia*

### About Alzheimer's Disease International

Alzheimer's Disease International (ADI) is the international federation of over 75 national Alzheimer associations around the world. Each of ADI's members is a non-profit Alzheimer association supporting people with dementia and their families. ADI was founded in 1984 and is in official relations with the World Health Organization (WHO) and the United Nations (UN).

ADI aims to help establish and strengthen Alzheimer associations across the globe, through the exchange of information, skills and models of best practice in order to improve the lives of people with dementia and their carers worldwide. ADI also works to raise global awareness and campaigns for Alzheimer's disease and all other causes of dementia to be a national and global health priority.

**Asociación de Alzheimer  
de Puerto Rico**

### About Asociación de Alzheimer y Desórdenes Relacionados de Puerto Rico

Asociación de Alzheimer y Desórdenes Relacionados de Puerto Rico (AADRPR) is a non-profit organization founded in 1983 by a group of families and friends of people with Alzheimer's disease. Its mission is based on three principles: education, communication and service.

The Association aims to improve people's knowledge about the disease, provide family caregivers with alternatives for care and strategies to protect their own health. Its goal is to raise awareness about dementia challenges and to promote legislation that will improve the quality of life of people with dementia, their caregivers and families.

### Facts and Figures

- There were an estimated 44.4 million people with dementia worldwide in 2013. This number will almost double every 20 years and by 2050 there will be 135.5 million people living with dementia
- Nearly two-thirds of people with dementia live in low and middle income countries
- There is a new case of dementia somewhere in the world every four seconds
- The estimated cost of dementia in 2010 was USD 604 billion. This is 1% of global gross domestic product (GDP)
- If dementia care were a country it would be the world's 18th largest economy, ranking between Turkey and Indonesia

More information can be found on ADI's website at  
[www.alz.co.uk/global-knowledge](http://www.alz.co.uk/global-knowledge)

## General Conference Information

### Registration Desk

The registration desk will be located in the San Juan Foyer on the second floor of the Sheraton Puerto Rico Hotel and Casino and will be open during the following times:

Date	Open	Closed
Thursday 1 May 2014	13:00	19:00
Friday 2 May 2014	07:00	18:00
Saturday 3 May 2014	07:30	18:00
Sunday 4 May 2014	07:30	13:45

In addition to registering for the conference and collecting your name badge please visit the registration desk for information on your accommodation (if you have booked through the registration process) and information on local amenities.

### Conference Badge

Once collected, please ensure you wear your badge at all times during the conference. Access to conference sessions and exhibition areas will not be permitted unless you are wearing your badge.

### Presenting

#### Speaker Preview Room (Sol Boardroom)

Presenters should take their final presentation to the Speaker Preview Room located in the Sol Boardroom no later than **4 hours** prior to their scheduled presentation. The Speaker Preview Room will be staffed with technicians that can assist with any compatibility or formatting issues.

The Speaker Preview Room will be open at the following times:

Date	Open	Closed
Thursday 1 May 2014	13:00	19:00
Friday 2 May 2014	07:00	18:00
Saturday 3 May 2014	07:00	18:00
Sunday 4 May 2014	07:00	12:30

### Abstracts

Abstracts are available as a file on the USB stick distributed within your delegate bag. Delegates who are unable to use the USB stick during the conference can visit the registration desk where there will be a printed version available.

Abstracts are also available to download from the ADI 2014 conference website [www.adi2014.org](http://www.adi2014.org).

### Certificates of Attendance

General certificates of attendance are distributed within your delegate bag. If you misplace your certificate please contact the conference secretariat post conference at [adi2014@mci-group.com](mailto:adi2014@mci-group.com).

### Continuing Medical Education (CME) Accreditation

We are pleased to confirm that the ADI 2014 conference has been approved for CME accreditation from the Postgraduate Institute for Medicine (PIM) for 20.5 credit hours.

#### Target Audience

This activity has been designed to meet the educational needs of medical professionals involved in the care of patients with dementia.

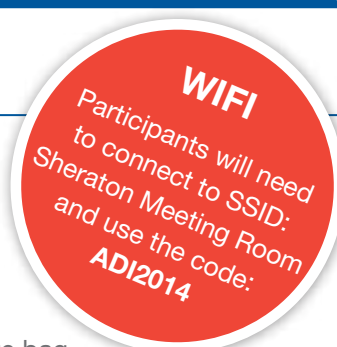

#### Educational Objectives

After completing this activity, the participant should be better able to:

- Apply the most recent diagnostic guidelines
- Use the available pharmacological treatments at the appropriate stages of the disease
- Propose to people with dementia and their carers the use of services available to them
- Provide quality care to people with dementia and support family carers
- Employ non-pharmacological interventions
- Explain risk factors and suggested methods of prevention to people at higher risk of developing dementia

#### Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Postgraduate Institute for Medicine and Alzheimer's Disease International. The Postgraduate Institute for Medicine is accredited by the ACCME to provide continuing medical education for physicians.

## How to Claim your CME Credits

PIM supports Green CME by offering your Request for Credit online. If you wish to receive acknowledgment for completing this activity, please complete the evaluation on [www.cmeuniversity.com](http://www.cmeuniversity.com). Create a new account on the site or sign in with your username and password if you have used the site previously. In the "Find Post-test/ Evaluation by Course" search box, search by course ID 9688. Upon successfully completing the activity evaluation, your certificate will be made available immediately. Processing credit requests online will reduce the amount of paper used by nearly 100,000 sheets per year.

Further information can be found on the conference website at [www.adi2014.org](http://www.adi2014.org).

## Council Meeting

The ADI Council Meeting will take place between 13:00 – 16:30 on Thursday 1 May 2014 in Bahia 1-2 at the Sheraton Puerto Rico Hotel and Casino.

## Language

The official language spoken at the 29th International Conference of Alzheimer's Disease International is English. A Spanish parallel session 'Temas Selectos' will take place on Friday 2 May 2014 from 16:00 – 17:45 in San Juan 1-3. Please see page 45 for the programme.

## Evaluation

Your feedback is invaluable in helping us develop the conference in future years. The conference evaluation will be issued by email after the final day of the conference. We look forward to receiving your feedback. One person will be selected at random to win a free registration to the ADI 2015 Conference in Perth, Australia.

## Photography and Filming

Please note that photography and filming will be taking place during the conference.

## Message Board

A message board will be available next to the registration area on which organisers and delegates can leave updates or messages. Please do not post any advertising as it will be removed.

## Emergencies

If you need to contact the organisers outside of the registration desk opening hours please call:

Kirstin Blakey, Conference Secretariat:  
+44 (0)7884 110 593

## Information for People with Dementia / Información Para los Delegados con Demencia

### Welcome Meeting

To welcome delegates with dementia and their accompanying person we will be holding an informal welcome meeting in the San Geronimo Room on Thursday 1 May 2014 11:00 – 12:00. This will provide people with the opportunity to get to know one another before the conference begins and be provided with supporting information.

### Reunión de bienvenida

Estaremos haciendo una reunión informal de bienvenida para los delegados con demencia y sus acompañantes, en el salón San Geronimo el jueves 1 de mayo de 2014, de 11:00 - 12:00. Esto brindará la oportunidad de que se conozcan unos a otros antes de que comience la conferencia y de obtener la información de soporte.

### Room for People with Dementia (San Geronimo)

A quiet room for people with dementia and their accompanying person will be available to meet and relax, away from the hustle and bustle of the conference. The San Geronimo room will be open at the times below and will serve tea and coffee throughout the day.

Date	Open	Closed
Thursday 1 May 2014 Jueves 1 Mayo 2014	11:00	17:30
Friday 2 May 2014 Viernes 2 Mayo 2014	07:30	17:30
Saturday 3 May 2014 Sábado 3 Mayo 2014	08:30	17:30
Sunday 4 May 2014 Domingo 4 Mayo 2014	07:30	13:30

### Salón para personas con demencia (San Geronimo)

Habrà un àrea en el salón San Geronimo, para que las personas con demencia y sus acompañantes se reúnan en un ambiente relajado y tranquilo. El salón estará disponible según el horario a continuación y se servirá té y café durante el día.

## General Conference Information

### ADI-MetLife Awards

The ADI-MetLife Foundation Awards for Best Dementia Care Education Project aims to recognise the success of projects around the world that promote better dementia care through providing training and education programmes. Awards have been given for projects that have contributed to the education of the general public, health care professionals or family members. The awards have been broken down into two categories, projects in high income countries and projects in low and middle income countries.

The awards will be announced and presented during the conference dinner on Saturday 3 May 2014.

### ADI-Home Instead Family Carer of the Year Award

This year ADI is pleased to have the first ADI-Home Instead Award for family carers. The award aims to recognise the importance of unpaid family carers who improve the quality of life for people with dementia. It seeks to acknowledge and celebrate the dedication that carers show to the person they care for and their local community or society.

### ADI Award

The ADI Award is presented to an individual or organisation who has made an extraordinary contribution towards increasing awareness of dementia and encouraging policy initiatives and improvements in the quality of life of people with dementia and their carers. The recipient of the award will be announced in the Opening Ceremony on Thursday 1 May 2014.

### Alzheimer's Research & Therapy's 'Journal Q&A' Session

#### Morning coffee break

Friday 2 May 2014, 10:30 – 11:00

#### Afternoon coffee break

Saturday 3 May 2014, 15:30 – 16:00

Professor Serge Gauthier (McGill Centre for Studies in Aging) and Kathryn Smith (In-House Editor, BioMed Central) are hosting a special 'Question and Answer' session with the open access journal Alzheimer's Research & Therapy. As an author in the journal and Chairman of the ADI Medical and Scientific Panel, Serge Gauthier provides an author perspective on Alzheimer's Research & Therapy and open access publishing, and their roles within the research community. As In-House Editor, Kathryn Smith will be on hand to discuss publishing with the journal.

Who should attend? From patients, to carers, to researchers, we look forward to meeting with you to discuss your views on open access publishing and inform you about the scope, content and editorial procedures of the journal Alzheimer's Research & Therapy. The journal is affiliated to ADI as the major forum for translational research into Alzheimer's disease.

### Tours

Delegates are able to book public tours through GSI Services by contacting the concierge on +1 787 993 3500 ext. 3508. A list of tours available can be found at the registration desk.

### Get Involved!

There are a number of ways you can get involved with the ADI 2014 conference; why not 'Tweet' us to ask questions and be involved in the conference sessions.

 @ADIConference

Tweet us with any comments or questions, use the hashtag #ADI2014 to join the conversation!

 /alzheimersdiseaseinternational

You can also 'Like' our page on Facebook to keep up to date with the latest news and share your experience with fellow attendees.

### Prize for the Best ADI Members Showcase Stand

This international showcase provides ADI members with the opportunity to highlight the work they do in supporting people with dementia and their families.

We invite you to vote on the best stand, taking into consideration the overall presentation and quality of information provided. A prize will be awarded to the winning member association at the closing ceremony. A voting form will be available in the delegate bags. If you wish to vote, please complete the form and return it to the registration desk.

## Poster Board Layout

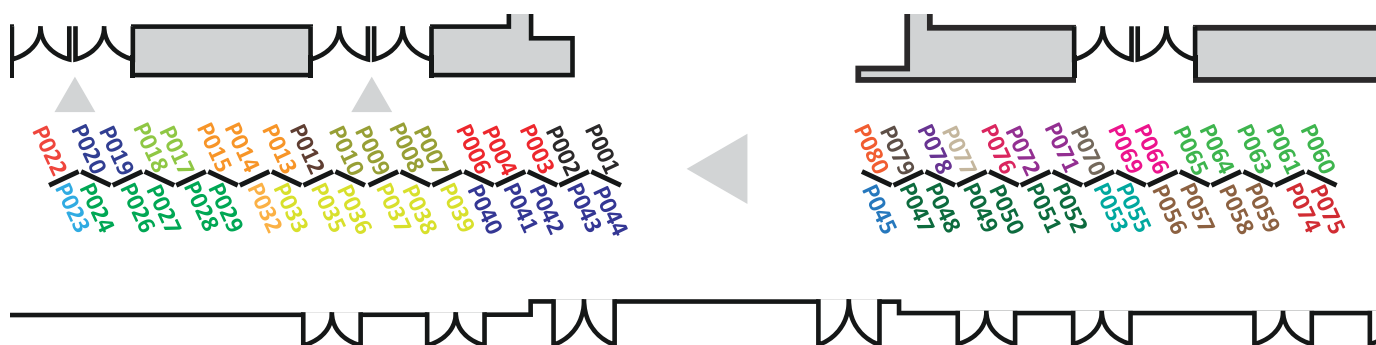

Posters are situated in the lobby area surrounding the Miramar Ballroom.

**P001 – P039:** Presenters will be standing by their boards between 12:30 - 14:00 on Friday 2 May 2014.

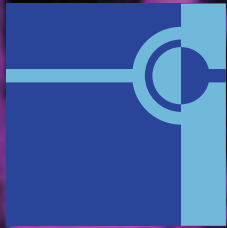

**P040 – P080:** Presenters will be standing by their boards between 12:30 - 14:00 on Saturday 3 May 2014.

### POSTER TOPIC AREA (P)

P001 – P002	Person Centered Care
P003 – P006	New and Future Treatments
P007 – P010	Dementia Diagnosis and Early Recognition
P012	Public Health Initiatives
P013 – P015	Support and Training for Informal and Professional Carers
P017 – P018	Art, Music and Dementia
P019 – P020	Sumisión de Resumen en Español
P022	Driving and Dementia
P023	Policy and Campaigning
P024 – P029	Other
P032	Pre-Clinical and Prodromal Stages of Dementia Disorders
P033 – P039	Voices of People with Dementia and Families
P040 – P044	Imaging and Biomarkers
P045	Crisis Intervention and Acute Care in Dementia
P047 – P052	Non-Pharmacological Interventions
P053 – P055	Education and Training of Medical Professionals
P056 – P059	Behaviour and Psychological Symptoms of Dementia
P060 – P065	Quality of Life
P066 – P069	Dementia Care and Technology
P070	Putting Scientific Knowledge Into Practice
P071 – P072	Cross-Cultural Issues and Dementia
P074 – P075	Dementia Prevention and Risk Factors
P076	Genetics of Dementia and Inflammatory Pathways
P077	How Animal Models Help Human Studies
P078	Nutrition and Eating Behaviours
P079	Other Dementias
P080	Younger Onset Dementia

## Social Events and Activities

### Opening Ceremony

The ADI 2014 Opening Ceremony will be held at the Sheraton Puerto Rico Hotel and Casino on Thursday 1 May 2014 from 17:30 – 18:30 in the San Juan Ballroom 4-5.

### Welcome Reception

Following the Opening Ceremony there will be a Welcome Reception which will take place in the Miramar Ballroom from 18:30 - 19:30. The Welcome Reception will give delegates the chance to network with other participants, sponsors and exhibitors. Refreshments will be served.

### Conference Dinner

The ADI 2014 Conference Dinner will be held on Saturday 3 May 2014 from 19:00 – 00:00 at the Sheraton Puerto Rico Hotel and Casino in the San Juan Ballroom 4-5. Tickets for this dinner can be purchased for \$90.00 up until 13:00 on Saturday 3 May 2014 (subject to availability). The dinner will consist of a three course meal, drinks, award ceremony and entertainment. Upon arrival you will be asked to present your ticket to a member of staff so please remember to bring it with you.

### Lighting of the Senate Building

To help raise awareness of dementia the Capitol of Puerto Rico in San Juan will be lit in red during the conference. For more information please visit the registration desk in the San Juan Foyer.

# Your On-the-Go Guide **FOR DEMENTIA CARE ADVICE**

## **FREE** **Alzheimer's & Other Dementias** **Daily Companion Mobile App**

Caregivers can search on situations they are struggling with, and the app will return immediate and relevant suggestions. These tips are compiled by experts as well as family caregivers dealing with Alzheimer's or other dementia illnesses.

## **Confidence to Care**

*A Resource for Family Caregivers Providing Alzheimer's Disease or Other Dementias Care at Home*

The book is filled with tips and strategies, care approaches and conversation starters for families dealing with the most common actions and behavioral symptoms of dementia.

To learn more about the FREE app and book, visit  
**HelpforAlzheimersFamilies.com**

## Keynote Speaker Biographies

Heriberto A.  
Acosta

Dr. Acosta is a clinical neurologist with more than 30 years of experience working with people with dementia in Puerto Rico. He has a special interest in identifying risk factors in the development of dementia, and its prevention through the management and control of these risk factors. He is also interested in early clinical diagnosis of dementia and its management, with a complete holistic clinical approach.

He has been involved in the development of educational campaigns to the general public, patients and health professionals in Puerto Rico and Latin-America. He is the scientific advisor for the Puerto Rico Alzheimer's Association and the Medical Director of the Judith Irizarry de Diaz Memory Clinic of the Caribbean Center for Study of Memory and Cognition.

Gill  
Ayling

Gill is a career civil servant whose service spans over 21 years with experience in central government policy and operations work in both the Department of Work and Pensions and the Department of Health. She has an excellent track-record of delivering results in the context of strategic policy development and implementation. Gill also has senior level knowledge and experience of working with Ministers, and successful cross-sector working across Whitehall,

with the wider public sector, independent and third sector partners as well as a range of professional groups. She currently works in the Social Care, Local Government and Care Partnerships Directorate within the Department of Health and is head of Older People & Dementia.

Helen  
Chiu

Professor Helen FK Chiu, MBBS, FRCPsych, FHKAM (Psychiatry), FHKCPsych is Professor of Psychiatry, at the Chinese University of Hong Kong and President of the Hong Kong Psychogeriatric Association, Past President of the Pacific Rim College of Psychiatrists, Past President of the Hong Kong College of Psychiatrists, as well as Past President of the International Psychogeriatric Association. She has been Head of the Department of Psychiatry at the Chinese University

of Hong Kong from 1996 to July 2011. She is Editor of the journal Asia Pacific Psychiatry, and sits on the Editorial Board of a number of journals. She is also Director of the Suicide Research Unit at Department of Psychiatry, the Chinese University of Hong Kong. She is a pioneer in the field of dementia in Hong Kong, and has carried out the first epidemiological study in dementia in Hong Kong in 1995. She is the Founding Director of the Jockey Club Centre for Positive Ageing, a specially designed centre for dementia care from 2000 to August 2004. Professor Chiu's major research interests are in the field of dementia and suicide. She was awarded a Medal of Honour by the Government of Hong Kong Special Administrative Region in 1999. She has been awarded the Distinguished Service Award by the International Psychogeriatric Association in September 2011.

Steve  
DeKosky

Dr. DeKosky is Professor and Chair of the Department of Neurology, and Director of the Alzheimer's Disease Research Center (ADRC) at the University of Pittsburgh. His clinical research includes differential diagnosis, neuroimaging, and genetic risks of Alzheimer's disease and other dementias of late life, and trials of new medications. His basic research centres on structural and neurochemical changes in human brains in normal aging and dementia. He is director of

a national multicentre trial to assess whether Ginkgo biloba can delay onset of dementia in normal elderly adults. Dr. DeKosky is also Director of the Pittsburgh Institute for Neurodegenerative Diseases (PIND), an interdisciplinary institute for clinical and basic research in neurodegenerative diseases of late life, especially Parkinson's, Alzheimer's and amyotrophic lateral sclerosis (ALS; Lou Gehrig's Disease).

Dr. DeKosky has served as Chair of the Section on Geriatrics of the American Academy of Neurology (AAN). He chaired the recent AAN Practice Parameters Committee for Early Detection, Diagnosis and Management of Dementia. He has been an Examiner in Neurology for the American Board of Psychiatry and Neurology (ABPN) for over 15 years and served as a member of the ABPN Part I (Written) Examination Committee for 10 years. In 2002 he was elected to the Neurology Council of the ABPN; he is one of the eight neurologists who oversee board certification in the U.S. He has received a Teacher Investigator Development Award from the NINDS, the Presidential Award of the American Neurological Association, and is listed in "The Best Doctors in America." He has published over 200 peer-reviewed articles and book chapters.

Laura  
Fratiglioni

Laura Fratiglioni, MD PhD, is the Director of the Aging Research Center (ARC), at the Karolinska Institutet, Stockholm, Sweden. She is the principal investigator of The Swedish National Study on Aging and Care-Kungsholmen and the scientific coordinator of the Kungsholmen Project. Her major scientific contributions concern primary and secondary prevention of dementia, and more recently multimorbidity and longevity among older adults. Her scientific production has led

to more than 300 articles in peer-reviewed journals, 20 book chapters, and 12 reports. She has received several awards, including the Karolinska Institutet Distinguished Professor Award, Sohlberg's Nordic Prize in Gerontology, Karolinska Institutet Folksam's prize in epidemiologic research, and the Lifetime Achievement Award from the American Alzheimer Association.

## Keynote Speaker Biographies

Serge Gauthier

Serge Gauthier completed medical studies at Université de Montréal, Neurology training at McGill University, Research Fellowship at Prof. Theodore L. Sourkes laboratory, Allen Memorial Institute, Montreal. Clinical investigator and staff neurologist at the Montreal Neurological Hospital and Institute (1976-1986), Director of the McGill Centre for Studies in Aging (1986-1996), Senior Scientist of the CIHR-Rx&D program (1997-2007). Currently Professor in the Departments of

Neurology & Neurosurgery, Psychiatry, Medicine, at McGill University, and Director of the Alzheimer Disease and Related Disorders Research Unit of the McGill Center for Studies in Aging, Douglas Hospital.

Contributions to research include design and implementation of randomised clinical trials in order to establish the safety and efficacy of cholinesterase inhibitors, muscarinic agonists, and agents possibly modifying progression for Alzheimer's disease and vascular dementia. Special interests include consensus approach to the management of dementia in different stages, the ethics of research involving persons with dementia, and primary prevention strategies against cognitive decline and dementia.

Jeremy Hughes

Jeremy Hughes joined Alzheimer's Society in November 2010. He has led the charity in producing a five year strategy 'Delivering on Dementia 2012-17' and in 2011-12 the Society's income exceeded £70m for the first time. Jeremy co-chairs the Dementia Friendly Communities Champions Group with Angela Rippon as part of the Prime Minister's Challenge on Dementia.

Jeremy was previously Chief Executive of Breakthrough

Breast Cancer where he was instrumental in providing visionary leadership, galvanising the charity's research platform and its authority on campaigning and policy. Before that Jeremy was Head of External Affairs at the International Federation of Red Cross and Red Crescent Societies.

His career in health and social care charities includes leadership posts at the British Red Cross, Leonard Cheshire, Muscular Dystrophy and NCH Action for Children.

Jeremy is currently a Trustee of Sightsavers and Chair of National Voices, the umbrella health and social care charity.

Jason  
Karlavish

Jason Karlavish is a Professor of Medicine, Medical Ethics and Health Policy with tenure, Senior Fellow of the Leonard Davis Institute of Health Economics, and Fellow at the Institute on Aging at the University of Pennsylvania. He is the Director of Penn's Neurodegenerative Disease Ethics and Policy Program; Associate Director of the Penn Memory Center; and the Director of the Alzheimer's disease Center's Education, Recruitment and Retention Core. His clinical

practice focuses on the diagnosis and treatment of persons with Alzheimer's disease and related disorders.

Dr. Karlavish's research focuses on research and care of older adults, and persons with late-life cognitive disorders such as Alzheimer's disease and Parkinson's disease. He has investigated issues in dementia drug development, informed consent, quality of life, research and treatment decision making, biomarkers, and voting by persons with cognitive impairment and residents of long term care facilities.

He developed the ACED -- the assessment for capacity for everyday decision making -- an instrument to assist in judging a person's capacity to manage their functional deficits that has been adopted by providers in care management and adult protective services. His current research is examining the clinical and policy implications of how risk is changing concepts of disease, medicine, health and aging. He is collaborating with the Michael J. Fox Foundation to examine the ethics of dopamine neurotransmitter imaging of asymptomatic persons, and with the Alzheimer's Disease Cooperative Study and the Alzheimer's Prevention Initiative on their efforts to implement clinical trials in cognitively normal persons at risk for cognitive decline.

Peter Lloyd-  
Sherlock

Peter Lloyd-Sherlock is Professor of Social Policy and International Development at the University of East Anglia, UK. He was previously Lecturer in Health Policy at the London School of Hygiene and Tropical Medicine. In 2008-9 Peter was seconded to the World Health Organisation's Department of Ageing and Life Course, as lead planner on primary health care for older people. In 2011-12 he was seconded to the UK Government's Department for International

Development to advise on social protection and health services for older people. Peter is co-investigator in a study of "The economic and social effects of care dependency in later life", which is led by Professor Martin Prince and the 10/66 Dementia Research Group. He is lead investigator in a study linked to a new WHO survey of older people's health in low and middle income countries.

Jose  
Luchsinger

Jose Alejandro Luchsinger is an Associate Professor of Medicine at Columbia University Medical Center in New York City. He received his doctor in medicine degree from the Universidad Central de Venezuela in Caracas. He completed a residency in Internal Medicine at St. Luke's Hospital in New York City, and completed a research fellowship and obtained a master in public health in epidemiology degree at Columbia University. He has conducted research and

clinical practice in Alzheimer's disease since 1999. His research has included observational studies and clinical trials. His current research interests include the study of the relationship of diabetes and related disorders with Alzheimer's disease, clinical trial of Alzheimer's disease prevention, and research in dementia caregiver health.

## Keynote Speaker Biographies

Colin L  
Masters

B Med Sci (Hons), MBBS,  
MD, Hon.DLitt W.Aust.,  
FRCPATH, FRCPA, FAA,  
FTSE

Professor Masters has  
focused his career on  
research in Alzheimer's  
disease and other  
neurodegenerative diseases,  
including Creutzfeldt-Jakob  
disease. His work over  
the last 35 years is widely  
acknowledged as having  
had a major influence on  
Alzheimer's disease research  
world-wide. This work  
has led to the continued

development of novel diagnostics and therapeutic  
strategies.

Professor Masters is currently the Executive Director of  
the Mental Health Research Institute, and a Laureate  
Professor at the University of Melbourne. He is also  
the Senior Deputy Director of the Florey Institute of  
Neuroscience and Mental Health, the Head of the  
Mental Health Division at the Florey and a consultant at  
the Royal Melbourne Hospital. His achievements have  
been recognised by the receipt of many international  
awards - including the Potamkin Prize (1990), the Max  
Planck Research Award (1992), the Zülch Prize (1995),  
the King Faisal Prize (1996), the Alois Alzheimer Award  
(1998), the Lennox K Black Prize (2006), the Grand  
Hamdan Award (2006), the Victoria Prize (2007), and  
the CSIRO Medal for Research Achievement (2011).

Pat  
Moffett

- Vice President,  
International Logistics  
& Government  
Compliance, Voxx  
International Corp.

- Highly Decorated  
Vietnam Veteran

- Lifetime Member  
Vietnam Veterans  
of America

- Lifetime Member 101st  
Airborne Division  
Association

- Chairman & Founder,  
Long Island Import-  
Export Association  
(1982 to present)

- Long Island International Executive of the Year 1998
- Top 20 Logistics Executives in the United States  
2002
- Author, Fortunate Soldier 2003
- Author, Ice Cream in the Cupboard 2008 (Translated  
into Spanish 2011), about early-onset Alzheimer's  
Disease, and also wrote the screenplay and film  
treatment based on this book.
- "Man of the Year" U.S. Customs & Border  
Protection, Columbia Association 2012
- Tikum Olam Award, Yellow Rose Society 2012

Scott  
Russell

Scott Russell was diagnosed with younger-onset Alzheimer's disease in 2009 at the age of 60.

Prior to his diagnosis, Scott was a Global Senior Human Resources Consultant for human resources technology, actuarial, compensation and management at TowersWatson in Stamford, Connecticut. He spent 10 years as Senior Vice President of Human Resources for Mitsubishi Bank and 12 years in senior

positions with Exxon Corporation in New Jersey, New York, Texas, Louisiana, China and Egypt.

Scott is currently serving as a member of the National Board of Directors for the Alzheimer's Association and will chair the upcoming 2014 Alzheimer's Association Advocacy Forum in Washington, DC. He will be the first person living with Alzheimer's disease to serve in this role, a position which represents his determination to turn a diagnosis into action and bring Alzheimer's disease into the legislative spotlight. Scott has served as an Ambassador to the Alzheimer's Association to help engage members of Congress in federal and state advocacy efforts and is the founder of Alzi Animals, a fundraising and educational program to raise awareness of the disease among school-aged children.

Mary  
Sano

Mary Sano, PhD, is a Professor of Psychiatry and the Director of Research and Development at the James J Peters VA Medical Center, Bronx, NY. She is also the director of the Alzheimer Disease Research Center at Mount Sinai, and the Associate Dean of Clinical Research at Icahn Medical School at Mount Sinai. Her work has focused on all aspects of clinical trial development in cognitive loss and dementia. She has made significant contributions to diagnostic

methods for cognitive impairment and dementia and on the development of outcomes for clinical trials for the treatment and prevention of these conditions.

Julio C  
Solier

Julio Solier was born on March 17, 1947 at Humacao, Puerto Rico, the eastern part of the island.

He went to different secular schools and after graduation went to the University of Puerto Rico, Mayaguez Campus, where he obtained a Bachelor degree in Electrical Engineering.

Julio served in the Armed Forces for four years during the Vietnam Conflict and was stationed in Chu lai and Danang from 1966 – 1967.

He has been married to Jennie Betancourt Solis, his most beloved wife for the past 40 years. He has two sons and four grandsons.

Julio was diagnosed with Alzheimer's Disease in 2003 due to continued degradation of memory capabilities. He has received drug therapy, which he feels has stopped the degradation of his memory.

## Keynote Speaker Biographies

Noriyo  
Washizu

Noriyo Washizu is a registered nurse and has earned a Master's Degree in Social Welfare from Doshisha University in Kyoto, Japan. She has served as the chief nurse at the Japan Baptist Hospital in addition to being head nurse at the Baptist Medical and Social Service Community Support Center. Her professional experience also includes case manager/nurse at the Shizu House aged care facility in Kyoto, and Home Visiting Nurse affiliated with the Kyoto Minami Hospital.

Ms. Washizu's extensive volunteer and community service involvements include serving on Alzheimer's Association Japan (AAJ), the Committee of Community Care Development and the Committee of Dementia Care Development of Sakyo-ku Kyoto City.

Through her involvement with AAJ, her community development work, and her lengthy work as a nurse, Ms. Washizu has focused on listening to the concerns of people with dementia and their carers, and building an elderly- and dementia-friendly community in close cooperation with people, professionals and the local government.

Marc  
Wortmann

Marc Wortmann is Executive Director of Alzheimer's Disease International (ADI). Marc studied Law and Art in the city of Utrecht in the Netherlands and was an entrepreneur in retail for 15 years. During this time Marc was a member of the Parliament of the Province of Utrecht and worked closely with various charities and voluntary organisations. He became Executive Director of Alzheimer Nederland in 2000. From 2002 to 2005 he chaired the Dutch Fundraising Association

and was Vice-President of the European Fundraising Association from 2004 to 2007. Marc joined ADI in 2006.

# 30th International Conference of Alzheimer's Disease International

## SAVE THE DATE

15 - 18 April 2015, Perth, Australia

Care, Cure and the Dementia Experience - A Global Challenge

Proudly Hosted By

## SHAPING GLOBAL DEMENTIA CARE

# HELPING PEOPLE TO LIVE WELL WITH DEMENTIA

Bupa has formed a partnership with Alzheimer's Disease International (ADI). Together we've launched a 10 point Global Dementia Charter, 'I can live well with dementia' that, for the first time, outlines the rights that people living with dementia around the world should be able to expect to allow them to live well. We are campaigning for governments to develop National Dementia Plans to make dementia a public health priority, and the Charter a reality.

Bupa's purpose is longer, healthier, happier lives.

As a leading international healthcare group, we offer a range of health services to over 22m customers in 190 countries. With no shareholders, we invest our profits to provide more and better healthcare and fulfil our purpose. We employ more than 70,000 people, principally in the UK, Australia, Spain, Poland, New Zealand and Chile.

Bupa cares for more than 32,000 people in over 480 care homes and retirement villages in the UK, Spain, Australia, New Zealand and Poland. We are the largest international provider of specialist dementia care, caring for more than 24,000 residents living with dementia.

We combine experience and expertise to care for our residents, providing a safe, comfortable and stimulating environment in our care homes. Our expertise in dementia care includes an innovative 'Person First' approach where our care revolves around each person's own needs and life history.

## Scientific Programme

To aid navigation of the scientific programme, sessions have been categorised into themes. Each category has been given a colour and symbol (shown below), which will appear throughout the programme detail.

Key to Icons and Colours for Sessions	
<b>Plenary Sessions</b>	
Keynote lectures on the latest advances in research and care	
<b>Scientific Parallel Sessions</b>	
Sessions on the latest development in dementia research	
<b>Care Parallel Sessions</b>	
Sessions on the latest in best practice in care	
<b>Policy And Awareness Parallel Sessions</b>	
Sessions on the latest developments regarding policy, advocacy and awareness raising	
<b>Living With Dementia Parallel Sessions</b>	
These sessions will be chaired and delivered by people living with dementia	
<b>ADI Workshops</b>	
Capacity building sessions aimed at Alzheimer associations	
<b>Spanish Only Parallel Sessions</b>	
These sessions will be delivered in Spanish only	
<b>Satellite Symposiums</b>	
In addition to the scientific programme, satellite symposiums will take place throughout the conference schedule

## Scientific Programme

### Sunday 4 May 2014

07:30 - 13:45	<b>Registration</b> Location: San Juan Foyer
---------------	---

08:00 - 13:30	<b>Exhibition</b> Location: Miramar Ballroom
---------------	---

07:45 - 08:45	<b>Satellite Symposium - Risk Factors For Dementia In Low And Middle Income Countries Initial Findings From The 10/66 Dementia Research Group Studies In Latin America And China</b> Location: San Juan 8 Session Chair: Martin Prince	🔍
	Speakers: Ana Luisa Sosa, Matthew Prina, Cleusa Ferri, Ivonne Jimenez, Aquiles Salas, Martin Prince	

09:00 - 10:30	<b>Animal Models And The Dementia Spectrum</b> Location: Bahia 2 Session Chair: Robert Friedland				🕒
09:00 - 09:18	Akshay Anand	India	The Role Of Hucb Derived Lin-Ve Stem Cells In Amyloid-B Peptide Induced Mouse Model Of Memory Loss	OC109	
09:18 - 09:36	Sabah Ansar	Saudi Arabia	Effect Of A Neuroprotective Compound In Tau P301I Mutant Mice	OC110	
09:36 - 09:54	Huali Wang	China	Time To Diagnosis Of Patients With Different Types Of Dementia: Preliminary Findings From Clinical Pathway For Alzheimer's Disease In China (Cpad) Study	OC111	
09:54 - 10:12	Francoise Guillo-Benarous	United States	A Preliminary Study Of 6 Evaluation Instruments In Persons With Subjective Cognitive Impairment (SCI)	OC112	
10:12 - 10:30	Claude Wischik	United Kingdom	Design Considerations For The First Tau-Based Phase III Trial In AD With LMTX	OC113	

09:00 - 10:30	<b>Dementia Care And Technology</b> Location: San Juan 8 Session Chair: Mimi Lowi-Young				⬆
09:00 - 09:15	Stefanie Becker	Switzerland	Virtual Reality - A Question Of Intent	OC115	
09:15 - 09:30	Clare Cutler	United Kingdom	The Potential Of Computer Game Technology In Dementia Care	OC116	
09:30 - 09:45	Josie Emma Dixon	United Kingdom	Modem: Comprehensive Modelling Of Costs & Outcomes Of Interventions With Dementia	OC117	
09:45 - 10:00	Po Tsung Chen	Chinese Taipei	A Study On Caring Model Adopted In The Community With Empowered Dementia Patients - A Case Study Of The Planning And Design Of Dementia Day Care Center In Penghu, Taiwan	OC118	
10:00 - 10:15	Manhua Yang	Chinese Taipei	The Effectiveness Of Aroma-Acupressure In Improving The Problem Behaviors Of Dementia	OC119	
10:15 - 10:30	Questions				

09:00 - 10:30	<b>Support And Training For Family And Professional Carers</b> Location: San Juan 1-3 Session Chair: Nancy Emerson Lombardo				▲
09:00 - 09:15	Mary Schulz	Canada	Understanding Ambiguous Loss, Grief And Dementia	OC120	
09:15 - 09:30	Catherine Ward-Griffin	Canada	Re-Thinking Community Dementia Care: Building Capacity And Partnerships	OC121	
09:30 - 09:45	Caroline Baker	United Kingdom	Risk V Benefit - Which Has The Greater Impact For Residents Living With Dementia	OC123	
09:45 - 10:00	Johannes Gräske	Germany	Quality Of Care And Its Impact On Residents Neuropsychiatric Symptoms - Results From The WGQual Study	OC124	
10:00 - 10:15	Arun Jha	United Kingdom	Evaluation Of Effects Of 'Dementia First Aid' Training On Knowledge, Attitude And Sense Of Competence Of Family Carers Of People With Dementia In Hertfordshire, UK: Findings Of A Feasibility Study	OC125	
10:15 - 10:30	Stefanie Becker	Switzerland	Person Centered View In Dementia Care - The Role Of The Care Givers' Attitude On Interaction	OC122	

09:00 - 10:30	<b>Clinical Trials And Putting Scientific Knowledge Into Practice</b> Location: Bahia 1 Session Chair: Daisy Acosta				○
09:00 - 09:15	Piers Kotting	United Kingdom	Developing A Data Set To Improve Recruitment To Clinical Studies Of Dementia	OC128	
09:15 - 09:30	Kohkan Shamsi	United States	Role Of Imaging In Alzheimer Disease Clinical Trials	OC130	
09:30 - 09:45	Martina Roes	Germany	Implementation And Dissemination Research In Germany- The Missing Gap In Dementia Care	OC126	
09:45 - 10:00	Steffen Heinrich	Germany	Knowledge Management In Dementia Care Networks In Germany	OC127	
10:00 - 10:15	Fernando Entenza	Puerto Rico	A Longitudinal Case Study Of An Atypical Early-Onset Posterior Cortical Dementia With Hyperostosis Frontalis	OC129	
10:15 - 10:30	William Van Der Eerden	Netherlands	Time Perception (TP) Changes In Alzheimer's Disease (AD): Implications For Care	OC131	

## Scientific Programme

### Sunday 4 May 2014 *continued*

<b>09:00 - 10:30</b>	<b>Policy And Campaigning</b> Location: San Juan 4-5 Session Chair: Julie-Kay Darrell				
09:00 - 09:15	Susanne Spittel	Germany	"I Am Not A Witch" – Stigmatization Of People With Dementia In Ghana	OC132	
09:15 - 09:30	Raymond Jessurun	Sint Maarten	More Strategic Alliances For Awareness And Advocacy	OC133	
09:30 - 09:45	Heike Von Lützu-Hohlbein	Germany	The National Alliance For People With Dementia	OC134	
09:45 - 10:00	Michael Splaine	United States	Collaboration In Order To Give More Information About Alzheimer's Disease	OC135	
10:00 - 10:15	William Torres	Puerto Rico	Perceived Cognitive Impairment In Puerto Rico 2012	OC136	
10:15 - 10:30	David Troxel	United States	Reaching Latino Care Partners In California - A Best Friends Education Campaign	OC137	

<b>09:00 - 10:30</b>	<b>ADI Workshop: Twinning: Working Together For A Global Solution</b> Location: San Juan 6-7 Session Chair: Marc Wortmann				
	Speakers: Andrew Ketteringham, Jacob Roy Kuriakose, DY Suharya, Gea Broekema, Hussain Jafri				

<b>10:30 - 11:00</b>	<b>Coffee Break, Exhibition And Poster Viewing</b> Location: Miramar Ballroom				
----------------------	--	--	--	--	--

<b>11:00 - 12:30</b>	<b>Plenary Session 5 - Public Policy: The Power Of Advocacy And Alzheimer Plans</b> Location: San Juan 4-5 Session Chair: Jose Acarón				
11:00 - 11:15	Scott Russell	United States	The Power Of People With Dementia In Advocacy	PL15	
11:15 - 11:30	UK Government Representative	United Kingdom	Prime Minister's Dementia Challenge, UK And G8 Actions	PL16	
11:30 - 11:45	Jeremy Hughes	United Kingdom	Prime Minister's Dementia Challenge	PL17	
11:45 - 12:00	Marc Wortmann	United Kingdom	Overview Of Global ADI Advocacy	PL18	
12:00 - 12:30	Open Discussion				
<b>12:30 - 13:00</b>	<b>Closing Ceremony</b> Location: San Juan 4-5				

## Poster Presentations

### Person Centered Care

P001	THE VIPS PRACTICE MODEL FOR DEMENTIA CARE Janne Røsvik
P002	FACTORS TO MAKE THE VIPS PRACTICE MODEL MORE EFFECTIVE IN THE TREATMENT OF NEUROPSYCHIATRIC SYMPTOMS IN NURSING-HOME RESIDENTS WITH DEMENTIA Janne Røsvik

### New And Future Treatments

P003	CURCUMIN LOADED SOLID LIPID NANOPARTICLES PREVENTS OVARECTOMY-INDUCED MEMORY IMPAIRMENT IN WISTAR RATS Seema Bansal
P004	NEUROPROTECTION OF A-BETA TREATED HIPPOCAMPAL NEURONS DURING HYPERBARIC TREATMENT WITH KETONE SUPPLEMENTATION Csilla Ari
P006	SYNTHESIS OF A NEW 1,2,4-OXADIAZOLE AND EVALUATION OF ITS ABILITY TO INHIBITSABETA-PEPTIDE AGGREGATION Pier Luigi San Biagio

### Dementia Diagnosis And Early Recognition

P007	SPONTANEOUS SPEECH BASED WEB SCREENING TEST FOR MCI János Kálmán
P008	A LONGITUDINAL STUDY OF VISUAL TRACKING IN ALZHEIMER'S DISEASE Trevor Crawford
P009	CROATIAN TRANSLATION OF THE TAU-ASSESS DEMENTIA ASSESSMENT TOOL APPLICATION FOR SMARTPHONE Ninoslav Mimica
P010	EARLY MENTAL TEST: A NEW MCI SCREENING TOOL FOR GPS Magdolna Pákási

### Public Health Initiatives

P012	THE FIRST POPULATION-BASED SURVEY OF DEMENTIA PREVALENCE IN THE ENGLISH-SPEAKING CARIBBEAN USING THE INTERNATIONAL STANDARD 10/66 INSTRUMENT Harold Schiff
------	---

### Support and Training For Informal And Professional Carers

P013	THE FIRST ALZHEIMER CAFE, TO START IN ROMANIA William Van Der Eerden
P014	EFFECT OF AROMA THERAPY USING ROSE WATER IN BATH OF THE ELDERLY WITH DEMENTIA: MENTAL EFFECT ON CARE GIVERS Yuko Takeda
P015	PSYCHOEDUCATIONAL INTERVENTION FOR CAREGIVERS OF PATIENTS WITH DEMENTIA: A LITERATURE REVIEW Patricia Cardoso Buchain

### Art, Music And Dementia

P017	A LOT OF THINGS WORK BETTER WITH MUSIC - MUSIC THERAPY AND DEMENTIA Simone Willig
P018	ALWAYS IN TUNE: THE UNFORGETTABLE MEMORY FOR MUSIC IN ALZHEIMER'S DISEASE Luis Fornazzari

### Sumisión De Resumen En Español

P019	UNIDAD CLINICA Y DE INVESTIGACION DE LA MEMORIA: ESTRATEGIAS DE TRABAJO MULTIDISCIPLINARIO Carlos Alberto Chavez
P020	DESAFIANDO LOS OLVIDOS: TALLERES DE ESTIMULACION DE LA MEMORIA Yosvelky Maria Rivera

### Driving And Dementia

P022	EFFECT OF MEMANTINE ON THE PROGRESSION OF DRIVING IMPAIRMENT IN PATIENTS WITH MILD ALZHEIMER'S DISEASE Peter J. Holland
------	--

## Poster Presentations

### Policy And Campaigning

P023	FACTORS THAT MAKE IT DIFFICULT FOR RESIDENTS SUFFERING FROM DEMENTIA TO LIVE IN GROUP HOMES Taeko Nakashima
------	--

### Other

P024	HOUSEHOLD COST OF DEMENTIA - AN EXPLORATORY STUDY AN ESTIMATION OF COSTS FOR THE CARE OF DEMENTIA TO FAMILIES IN AN URBAN SETTING Vinutha Ravishanka
P026	CHANGES IN SOCIAL AWARENESS REGARDING COGNITIVE IMPAIRMENT, IN THE LAST 20 YEARS. INFLUENCE OF MEDIA. Carlos Mangone
P027	SPIRITUALITY AND COGNITIVE FUNCTION Mizraim Esquilin Garcia
P028	CHILDREN WHO LIVE WITH SENIORS WITH COGNITIVE DISORDERS: EVALUATION OF ATTITUDES TOWARD AGING Sofia Cristina Iost Pavarini
P029	POST-STROKE DEMENTIA: THERAPEUTIC POTENTIAL OF PHOSPHOLIPIDS Saule Turuspekova

### Pre-Clinical And Prodromal Stages Of Dementia Disorders

P032	THE EFFICACY OF COGNITIVE TRAINING FOR PERSON WITH MILD COGNITIVE IMPAIRMENT: A LITERATURE REVIEW MengHsuan Wen
------	--

### Voices Of People With Dementia And Their Families

P033	RESPONDING TO THE OBSERVATION/ CHARGE "YOU DON'T HAVE DEMENTIA" Richard Taylor
P035	ACUTE DELIRIUM OF DEMENTIA ALONG WITH PNEUMONIA Chen Wei Ting
P036	THE TELEPHONE HELP LINE AS A RESOURCE TO GUIDE CARERS OF PEOPLE WITH DEMENTIA. Joyce Selga
P037	QUALITY OF LIFE, COPING STRATEGIES AND SELF-EFFICACY IN ALZHEIMER'S DISEASE CAREGIVERS Isabel Pereira Leal
P038	NEEDS FOR THE EARLY-ONSET DEMENTIA PATIENTS AND THEIR FAMILY IN JAPAN: CASE STUDIES Naoko Hara
P039	'NOTHING ABOUT US, WITHOUT US, IS FOR US': THE NATIONAL DEMENTIA CARERS ACTION NETWORK AND THE SCOTTISH DEMENTIA STRATEGY - PUTTING CO-PRODUCTION INTO ACTION Jeanette Maitland

### Imaging And Biomarkers

P040	ALTERED GRAY MATTER STRUCTURAL COVARIANCE NETWORKS IN ALZHEIMER'S DISEASE Maxime Montembeault
P041	A CRITICAL ROLE FOR MOLECULAR CHAPERONES IN ALZHEIMER'S DISEASE Dragan Ilievski
P042	BLOOD BIOMARKERS FOR ALZHEIMER'S DISEASE: EVALUATION OF ADAM10 GENE EXPRESSION Sofia Cristina Iost Pavarini
P043	A PLASMA PROTEIN-BASED ALGORITHM FOR THE DETECTION OF ALZHEIMER'S DISEASE: AUSTRALIAN IMAGING BIOMARKERS AND LIFESTYLE STUDY OF AGING Veer Bala Gupta
P044	INSPIRING HOPE IN PERSONS WITH DUAL DIAGNOSIS OF COGNITIVE IMPAIRMENT AND MENTAL HEALTH – A MULTI-DISCIPLINARY APPROACH TO EMPOWERING WELLNESS THROUGH BEHAVIOUR SUPPORT PLANNING Peter Bewert

### Crisis Intervention And Acute Care In Dementia

P045	RISK FACTORS LEADING TO NURSING HOME PLACEMENT FOR PEOPLE WITH DEMENTIA: A SYSTEMATIC REVIEW AND META-ANALYSIS Sandeep Toot
------	--

### Non-Pharmacological Interventions

P047	DEMENTIA - A CAREGIVERS GUIDE TO PROVIDING DAILY LOVING CARE WITH A THERAPEUTIC BENEFIT Nancy Shadowens
P048	BRAIN FOOD: BRINGING AN EVIDENCE-BASED NUTRITION PROGRAM TO ASSISTED LIVING AND ADULT DAY HEALTH Nancy B. Emerson Lombardo
P049	METALINGUISTIC SKILLS STIMULATION PROGRAM IN THEORY OF MIND (TOM) FOR PEOPLE WITH EARLY STAGE OF DEMENTIA Joyce Selga
P050	OCCUPATIONAL THERAPY AND ALZHEIMER'S DISEASE: A LITERATURE REVIEW Patricia Cardoso Buchain
P051	COGNITIVE FUNCTIONAL APPROACH FOR PATIENTS WITH ALZHEIMER'S DISEASE Patricia Cardoso Buchain
P052	COMPARING DATA FROM A COMPUTER BASED INTERVENTION PROGRAM FOR PATIENTS WITH ALZHEIMER'S DISEASE Magdalini Tsolaki

### Education And Training Of Medical Professionals

P053	OUTCOMES OF A WEBINAR SERIES ON DEMENTIA EVALUATION AND MANAGEMENT AMONG DIVERSE OLDER ADULTS FOR HEALTH CARE PROFESSIONALS Marian Tzuang
P055	CERTIFICATE INTEGRAL ATTENTION CARE FOR PERSONS WITH COGNITIVE IMPAIRMENT Joyce Selga

## Poster Presentations

### Behaviour And Psychological Symptoms of Dementia

P056	DIOGENES SYNDROME: THE ETHICAL DIMENSIONS Brooke Hurley
P057	NON-PHARMACOLOGIC MANAGEMENT OF BEHAVIOR AND PSYCHOLOGICAL SYMPTOMS IN DEMENTIA: ESSENTIAL TOOLS FOR EFFECTIVE CARETAKERS AND HEALTHCARE PROVIDERS Fernando Entenza
P058	FREQUENCIES OF BEHAVIORAL AND PSYCHOLOGICAL SYMPTOMS OF DEMENTIA (BPSD) AND COUNTERMEASURES Irahara Minoru
P059	THE CORRELATIONS BETWEEN CAREGIVER'S BURDEN, THE BEHAVIORAL AND PSYCHOLOGICAL SYMPTOMS OF DEMENTIA (BPSD), AND CAREGIVER'S HEALTH'S CONDITION Raymond Sui-Hing Yan

### Quality Of Life

P060	DEMENTIA IN INDIA: CAREGIVERS' KNOWLEDGE AND COPING Prafulla Shivakumar
P061	PRINCIPAL COMPONENT ANALYSIS OF THE NORWEGIAN VERSION OF THE QUALITY OF LIFE IN LATE STAGE DEMENTIA (QUALID) SCALE Marit Mjorud
P063	COGNITION AND QUALITY OF LIFE OF ELDERLY IN LITERACY PROGRAMS Sofia Cristina Iost Pavarini
P064	CONTINUOUS TREATMENT OF PSYCHIATRIC PATIENT - SUCCESS FOR LONGER REMISSION Olivera Bundaleska
P065	INSPIRING HOPE - A JOINT APPROACH TO SPIRITUAL CONTENTMENT IN DEMENTIA Peter Bewert

### Dementia Care And Technology

P066	WHAT ARE THE NEEDS OF CARERS OF PEOPLE WITH DEMENTIA IN ITS EARLY STAGES? Misa Miyamoto
P069	USING TECHNOLOGY TO SUPPORT PEOPLE WITH DEMENTIA IN THEIR EVERYDAY LIFE AND RETAIN THEIR INDEPENDENCE Janice Cain

### Putting Scientific Knowledge Into Practice

P070	THE RELATIONSHIPS AMONG SELF EFFICACY, SOCIAL SUPPORT AND CARE BURDEN FOR CAREGIVERS OF ELDERLY WITH ALZHEIMER'S DISEASE Po Chun Fu
------	--

### Cross Cultural Issues And Dementia

P071	ACCESS TO DEMENTIA SERVICES IN A MINORITY SITUATION: THE CASE OF FRANCOPHONES IN ONTARIO, CANADA Linda Garcia
P072	CAN WHAT YOU DON'T KNOW HURT YOU? A STUDY OF MISCONCEPTIONS, KNOWLEDGE GAPS AND COMMONLY HELD BELIEFS ABOUT DEMENTIA WITHIN ABORIGINAL AND TORRES STRAIT ISLANDER COMMUNITIES IN FAR NORTH QUEENSLAND, AUSTRALIA Edward Strivens

### Dementia Prevention And Risk Factors

P074	THE ANALYSIS OF THE RISK OF CARDIOEMBOLISM IN THE ELDERLY IN GROUP HOME Kikue Todoroki
P075	COGNITIVE ACTIVITY AND THE GOAL OF CHECKMATING DEMENTIA Robert Friedland

### Genetics Of Dementia And Inflammatory Pathways

P076	EXPRESSION OF GLUTAMINYLCYCLASE AND THYROTROPIN-RELEASING HORMONE IN BRAIN AREAS WITH ABETA-PATHOLOGY IN APP TRANSGENIC TG2576-MICE Alexander Waniek
------	---

### How Animal Models Help Human Studies

P077	MOUSE STRAIN-SPECIFIC EXPRESSION OF GLUTAMINYL CYCLASES QC AND ISOQC Corinna Höfling
------	---

### Nutrition And Eating Behaviours

P078	HYPERPHAGIC BEHAVIOURS IN COMMUNITY-DWELLING PATIENTS WITH DEMENTIA: A CROSS-SECTIONAL STUDY Shu-Hua Chang
------	---

### Other Dementias

P079	CONCERNS OF PUERTO RICANS 65 YEARS AND OLDER: ADI 1066 Lydia E Robles
------	--

### Younger Onset Dementia

P080	THOUGHTS AND FEELINGS ABOUT THE CURRENT STATE OF RESEARCH FROM THE INSIDE OUT Richard Taylor
------	---

# The Quest Continues

## Building on a century of pioneering Tau research

**TauRx: Working together for a global solution by halting the progression of Alzheimer's and Frontotemporal Dementia**

1907:

**Dr. Alois Alzheimer**

presents discovery of neurofibrillary tangles in a patient.

1968:

**Sir Martin Roth**

correlates the formation of tangles with Alzheimer's dementia.

1988:

**Prof. Claude Wischik**

and colleagues discover that the tangles are composed of tau protein and strive to develop a treatment to 'Strangle the Tangle.'

NOW:

**TauRx initiates global Phase 3 clinical trials in Alzheimer's and FTD.**

- **Our mission is to discover, develop and commercialize** innovative products for the diagnosis, treatment and cure of neurodegenerative diseases caused through protein aggregation.
- **Science and innovation are more than our business. They are our guiding principles.** Our lead investigational product, LMTX™ - a tau aggregation inhibitor - has entered Phase 3 clinical trials in Alzheimer's Disease and Frontotemporal Dementia (FTD). These studies are now actively recruiting and involve over 1,500 patients in 20 countries worldwide.

Lilly salutes

# Alzheimer's Disease International

for its work to support people  
with Alzheimer's and dementia  
and their families.
