

## Artificial intelligence (AI) translation

The global voice on dementia

We are delighted to offer written AI translation in 25 languages. These include:

- Arabic
- Bengali
- Chinese (Simplified)
- Chinese (Traditional)
- Czech
- Dutch
- English
- French
- German
- Hebrew
- Hindi
- Italian
- Japanese

- Korean
- Portuguese
- Russian
- Spanish
- Tagalog
- Tamil
- Thai
- Indonesian (Bahasa)
- Polish
- Romanian
- Swedish
- Vietnamese

Please note that the Chinese translation of dementia terms is not that, which is recommended by ADI.

The service works with Chrome, Safari, Firefox or Edge but **does not** work with Internet Explorer. The translation will be in a separate web browser.

Once the webinar starts, there are 2 ways to start the translation.

## Method 1

Step 1: Click on the Wordly link provided in the chat box / at the end of your reminder email.

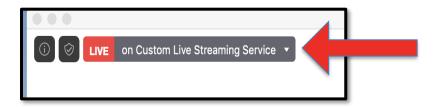

**Step 2:** Under choose language select your preferred language.

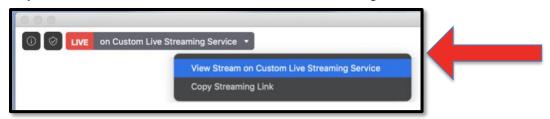

**Step 3:** Exit full screen view on Zoom and <u>resize</u> your Wordly window so it fits alongside the Zoom meeting window.

## **Alternatively**

Step 1: On the upper left side click on the down arrow of "on Custom Live Streaming Service"

Step 2: Click on "View Stream on Custom Live Streaming Service"

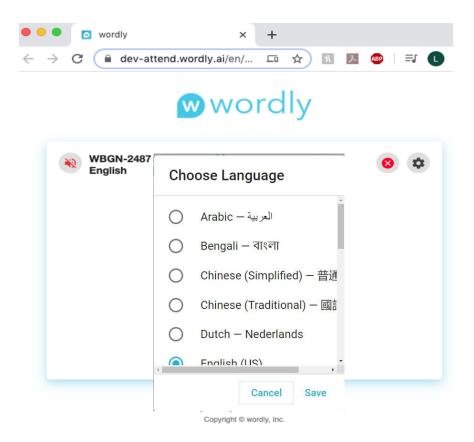

Clicking on "View on Custom Live Streaming Service" launches a Wordly session in your web browser.

**Step 3:** Click on the language shown (in this case English) to open the language selector.

Step 4: Choose your preferred language.

**Step 5:** Exit full screen view on Zoom and resize your Wordly window so it fits alongside the Zoom meeting window.
